SEPTEMBER

2010

ISSUE 169

PUBLISHED MONTHLY

HONORABLE JUDITH F. KENNEDY

Mayor of Lynn

STACEY MINCHELLO

Editor / Senior Center Director

This Publication is sponsored financially by the City of Lynn & the Executive Office of Elder Affairs

FROM THE MAYOR...

It's hard to believe, but summer is already winding down. I hope you have been able to get out and enjoy the spectacular weather we have been blessed with the last few months. While we have had more than our share of 90-degree days, I think we will be longing for such heat when we have our shovels out in January!

A sure sign of the impending end of summer is when our children head back to school. In Lynn, our 14,000 students and more than 1,000 teachers will begin classes Sept. 8. We wish them a safe and productive school year.

I was happy to swear in Dennis Carmody as our permanent fire chief on Aug. 3. Chief Carmody has a distinguished 27-year career in the Lynn Fire Department which has seen him work his way up through the ranks. Please join me in wishing him a safe and successful tenure as our fire chief.

We continue to monitor the situation with the proposed Lowe's and Walmart project on Highland Avenue on the Lynn-Salem line. I have met with Salem Mayor Kim Driscoll and I continue to work with the City Council and our state delegation to ensure that the concerns we have are clearly heard.

Best wishes,

Mayor Judith Flanagan Kennedy

SEPTEMBER: *Sapphire: Bluer than blue.*

The striking deep blue of a quality sapphire is reminiscent of a cloudless night sky. Ancient civilizations believed that the world was set upon an enormous sapphire, which painted the sky blue with its reflection. This legend, as well as the belief that the Ten Commandments were inscribed upon tablets made of sapphire, gives September's birthstone a royal place among gemstones.

Named after the Greek word "sapphirus", meaning blue, Sapphires have long been a favorite among priests and kings, who considered them symbolic of wisdom and purity. These gemstones are prominent among the British Crown Jewels, and Prince Charles chose this as the engagement stone for his fiancée, Princess Diana.

In ancient times, Sapphires were thought to be protective against envy, and even against poisoning. A common belief was that a venomous snake placed in a Sapphire vessel would rapidly die! Ground to a powder, the blue stone was believed to cure colic, rheumatism and mental illness, and to strengthen eyesight.

Sapphire is a variety of the mineral corundum. Corundum is found in every color of the rainbow, with red being designated as ruby and all other hues Sapphire. But the most prized color of Sapphire is a rich, deep blue. Large specimens of Corundum crystals are rare, although the 563-carat Star of India can be seen in the American Museum of Natural History. This is the largest and most famous of star Sapphires, which are cut to reflect light from inclusions within the stone, revealing a bright six-legged star pattern.

The Sapphire is second only to the Diamond in hardness, making it a durable gemstone for setting into jewelry. A gift of Sapphire represents sincerity and faithfulness. As nourishing to the soul as gazing up at the sky on a summer day, this brilliant blue gemstone is truly a heavenly choice!

SEPTEMBER HAPPENINGS!

My Life, My Health*

Are you an adult of any age living with persistent health challenges such as cancer, arthritis, depression, diabetes, chronic pain?

Do you want to learn with others how you can meet these challenges? Do you want to set and reach your own goals for improving your health and enjoyment of life?

Participation in a **My Life, My Health** workshop has been shown to provide the skills and group experience that enables participants to take better control over their health.

My Life, My Health is a six week workshop for adults of any age who are living with one or more on-going health conditions.

The workshops include information and skills that will help you manage life's challenges and add more enjoyment to your life. Share what you know and learn from others.

Fall workshops are forming in the Greater Lynn area.

For more information or to be placed on the mailing list contact;

PLEASE ACKNOWLEDGE OUR SPONSORS

Life Care Center of the North Shore is privately owned and is Lynn's best-kept secret. Located in a quiet, secluded residential neighborhood, it offers a comfortable, active environment where residents receive the nursing and rehabilitation they need while maintaining their maximum independence. Our commitment to quality care is demonstrated through our JCAHO accreditation.

Ready... Set... Go! Program

Our goal is for every discharged resident to be independent and safe in all areas of daily living. The Ready... Set... Go! Program allows our care-giving team to work with each rehab participant and his or her family to establish recovery goals and discharge plans.

Please come by for a tour, or call Robin Simmons or Cathy Davis in admissions for more information.

WELLNESS WATCH - SEPTEMBER 2010

Physical Activity and Exercise –Just get Moving

Like most people, you have probably heard that physical activity and exercise are good for you. Studies show that even moderate physical activity can improve the health of older adults. It can improve balance, flexibility, strength and endurance. Those who are frail or have health conditions such as diabetes, depression, arthritis, or heart problems can greatly benefit from increasing activity. Exercise is also good for your brain function and can help manage stress.

What is the difference between physical activity and exercise? They both refer to voluntary movements that burn calories. Physical activities are activities such as walking the dog, raking leaves or walking up stairs. Exercise is a form of physical activity that is planned, structured and repetitive such as weight training, tai chi or an aerobics class. They are both beneficial, providing long term health benefits and improving health for some people who already have diseases and disabilities.

If you are not exercising now talk with your doctor about starting an exercise program. Learn what is right for you. Find something you really like that gets you moving. Have fun!

If you are not very active now, start slowly with an activity that gets you moving for 10 minutes five days a week. Slowly build up to the recommended 30 minutes daily for 5 days. If needed, those 30 minutes can be spaced in three 10 minutes time blocks.

Warm-ups get your body ready for physical activity. March in place; swing your arms. Give your muscles a chance to warm up and prevent injury.

Walking is one of the best ways to increase your activity. Park your car further away from the store. Get off the bus one stop earlier. Walk around your house during commercial breaks. Take the stairs when you can.

Stretch after any brisk activity, or after you have warmed up. Stretch slowly. Hold the stretch without bouncing for about 30 seconds.

Dance at home; join a dance class; swim; try water exercises; sign up for yoga or tai chi. Check out the various classes and programs at the Lynn Council on Aging Senior Center.

Get more information by checking out the National Institute of Health, Senior Health Section, www.nihseniorhealth.gov. Download the free booklet or check out the information and videos on-line. Or visit The National Institute on Aging website, www.nia.nih.gov and download another excellent free exercise book. Information is available in English and Spanish.

Please consider donating any cell phones you are no longer using. For additional information, call 781-599-0110.

Answer to August Baseball trivia question! This debate has been intense and yet a lot of fun!

Name the seven official ways a batter can reach first base.

1. Hit
2. Walk
3. Hit by Pitch
4. Fielder's Choice
5. Reached on Error (includes MLB Official Rule 7.05 i)
6. Dropped Third Strike
7. Catcher's Interference (hindering the batter while in the batter's box) AND!
8. Fielder's Obstruction (hindering the batter while he is running to first base)

If you have a mind boggler, feel free to send it our way!

I pray that our heavenly father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice on the altar of freedom."
— Abraham Lincoln

*Never forget.

MCPHS Pharmacy Outreach Program
is Here to Help You!

We would like to take this opportunity to introduce our services to you. The MCPHS Pharmacy Outreach Program is a community service of the Massachusetts College of Pharmacy and Health Sciences. We are located at 25 Foster Street, Worcester, MA in the Living and Learning Center of the College. Our mission is to help citizens throughout the state understand and access their prescription medicines. We do this by assisting people like you and by providing support to healthcare professionals on a variety of medication-related issues.

To utilize our free services, you can call our toll-free number, 1-866-633-1617, or click on our "Ask the Pharmacist" link on our web site, www.massmedline.com, when you need help getting your medicines, have questions about how to take your medicines, or need to talk with someone about your prescription insurance. Our case management staff will evaluate your current situation and screen for a variety of available programs that may provide some help. Staff members may suggest you apply for a Medicare Part D plan or MassHealth, provide the name of a free clinic in your area where you may be able to obtain some immediate help, or assist you in applying to a Patient Assistance Program through a drug manufacturer for financial relief with the cost of your medications. Also, our licensed pharmacists are available to review your medications and talk with you about how to take your medications safely. They may also offer suggestions on lower-costing alternative medicines in an effort to save you money.

We're here to help you by providing useful information about the medications you take. We can be reached at 1-866-633-1617. **Remember help is just a phone call away!**
