Perth: June 25th—29th 2012
SRIT Professional Short Course Series

The Advanced Master Class in Australian Groundwater

is a five-day, in-depth, training event to be held in the beautiful city of Perth in Western Australia.

Designed by luminaries in the industry and supported by major industry and government departments, this course will expose attendees to a range of topics pertinent to the understanding and management of groundwater in Australia in the 21st century, yet at a more advanced level than normal introductory or Groundwater Schools.

Building on the fundamentals taught in the Introduction to Australian Groundwater series, this course offers a higher standard of training than has ever before been offered in a generalist Groundwater course.

Who should attend?

- Anyone involved in the management of groundwater
- Those desiring to increase their knowledge in Groundwater
- Technical and Environmental Officers
- Staff from natural resource management and planning areas
- Water field technicians
- Staff involved in agriculture, irrigation, landcare and environmental science

What do you get?

- Advanced level training from some of Australia's leading experts in Government and industry
- Personal access to experts
- Full colour course materials
- Electronic (USB) additional course materials
- Buffet Lunch and morning/afternoon tea each day
- Connection with other environmental professionals

Enjoy a professional training environment
