Template for Organizing Staff Research Findings

Staff research occurs throughout the school improvement process. Use the template to organize and record the research and findings at each step, including sources and research findings. Identify the resource implications of the finding and ways the finding will be applied.

Check one box, and name the subject of this research (for example, Subgroup, Special Education or Skill, or Oral Presentations). ☐ Standard _____ ☐ Skill _____ ☐ Subgroup _____		Check one box. ☐ Curriculum and lesson planning ☐ Instructional design and delivery ☐ Assessments for learning and feedback ☐ Classroom climate and school culture
