

Senior Flex/ActionScript Frontend Developer

Department: Technology Development

Since launching in 1989, CMC Markets has become one of the world's leading online CFD and financial spread betting providers, with nearly 32 million trades executed annually across Europe, Asia Pacific and North America.

CMC Markets' success is founded on its ability to deliver a wide range of trading products to customers, from single equities to indices, currencies and commodities. This means our clients don't need to go to a forex broker, futures broker or a commodities broker to trade these different instruments, they can trade them all through one trading platform. CMC Markets has pioneered the development of online trading in markets around the world to become a world leading spread betting and CFD provider.

ROLE AND RESPONSIBILITIES

- Work with other Flex/ActionScript developers to develop new features and enhance existing features on the CMC Markets Flex Frontend trading platform.
- Interact with Design team to review and feedback on designs.
