Please arrive 15 minutes before your appointment time. You must notify our office if you are unable to keep your appointment at 780-669-2222.

PATIENT INSTRUCTIONS

- Continue all medications and your usual diet both before and after the procedure.
- If you have an active infection your procedure will have to be rescheduled and you must notify our office (780-669-2222).
- If you are having special joint medication injected such as Synvisc, please purchase it before your appointment and bring it with you. Cortisone and other medications are supplied by Insight.
- Please arrange to have a ride home if you are having your spine, hip or sacroiliac joint injected.
- Joint injections may take up to 30 minutes or longer to perform, depending on the injection site.
- You will be required to stay in the clinic for 15 minutes after the procedure to monitor your response to the injection. Please plan for this.
- You should refrain from strenuous activity for at least a day after the injection. Also avoid hot tubs, swimming pools or prolonged bathing for the next 24 hours.
- You should also keep a record of your pain level on the accompanying pain diary (located on the right).
- If necessary, pain medication such as Tylenol or Advil can be used for discomfort after the injection (if you have no contraindications to these medications).
- Serious complications after joint injections are rare, but can occur. If you experience worsening pain over the next several days, fever and chills, other signs of infection or new numbness please contact your doctor or proceed to an emergency department.

PATIENT DIARY

Please record the following information as accurately as possible. This will help your doctor determine how successful the treatment was.
