Dorothy, LeBron and the *Feeling for Home*

Dorothy felt it. So did LeBron. The powerful feeling of wanting to go home.

the LeBrons, and so many of us at a certain age feel the compelling desire to return home? To me, home is a “feeling” more than a “place”. I felt it when it was time to start raising my own family. It was time to return to where I felt safe, secure, comfort and love.

In the movie *The Wizard of Oz*, Dorothy clicked her ruby red heels and whispered, “There is no place like home”. LeBron James, the best professional basketball player on the planet who could play anywhere and at any salary, chose to go back home to play.

I’m not alone, “the ache for home lives in all of us” wrote Maya Angelou. There are many who live away who wish they could return to this area, if only the right opportunity presented itself.

John Ed Pearce once wrote, “Home is a place you grow up wanting to leave, and grow old wanting to get back to.” Why is that? Why do the John Ed Pearces, the Dorothys,

return. Sadly though, this isn't always the case. Many organizations and individuals are working hard, however, in trying to create an environment where opportunities can someday be the norm, not the exception. At PSC, we are trying to do our part. Any business leader or economic development exec will tell you a "must have" to attract new companies, or grow existing ones, is access to a high-speed broadband network and the technology that travels across it. This is a key reason why PSC has expanded its network regionally to surrounding communities and economic development areas. It's that important!

PSC is proud of the role we are playing within our region to boost economic development and support our existing businesses. Hundreds of companies and corporations are operating more efficiently and greatly benefiting from our high-speed fiber optic network. Hopefully these very companies are working hard at creating opportunities for others. Perhaps, for that someone who is ready to come home.

Area Code Overlay
APPROVED
 FOR THE
INDIANA
812 Area
Code

ALL CUSTOMERS WITH INDIANA 812 AREA CODE MUST
 DIAL AREA CODE + TELEPHONE NUMBER FOR
 ALL LOCAL CALLS

**DEADLINE DATE
 TO BE DETERMINED**

To ensure a continuing supply of telephone numbers, the new 930 area code will be added to the area served by 812. This is known as an area code overlay. Get ready to change the way you dial your local calls!

What will be the new dialing procedure? To complete local calls, the new dialing procedure requires callers to dial area code + telephone number. This means that all calls in the 812 area code that are currently dialed with seven digits will need to be dialed using area code + telephone number. The same dialing procedure will apply to telephone numbers assigned to the new 930 area code.
