Amount enclosed, in US dollars = Total \$_____

The convention is for members of the ASA. Non-members may join the ASA for \$20, and be a member through 2008 *and* 2009.

Register early! It saves you money, it helps get on one of the "*first 28 only*" tours (necessarily limited to 28 attendees), and it helps us plan. We will refund your money in full for any reason until registration closes on April 1, 2008.

1 Check the lines in the column on the left, below each person's number, one line for each event they wish. For lunch choices, make one choice per person and write the total quantity in front of each of your choices.

2 Write the number of checks on each line under its **No.** heading to the right.

3 Multiply that number by the **Price** per person on that line, and write that under the **Total** heading.

4 Add up the **Total** column and write the result on the bottom **Total \$** line.

5 Make your check out for that **Total \$** amount payable to **ASA Convention** in US dollars and mail it with your form to:
