

Overseas Architect Assessment Program

This Application Form is for overseas architects seeking assessment of their skills and knowledge to determine eligibility for registration as an architect in Australia.

The Overseas Architect Assessment Program provides a ‘fast-track’ to registration in Australia for overseas architects who have the appropriate skills and knowledge and are not eligible for registration under existing [mutual recognition agreements](#). Successful completion of this program allows applicants to bypass the Architectural Practice Examination (APE) and apply directly for registration as an architect with their state or territory architects registration board.

Any applicant that has previously completed any stage of the AACA Overseas Qualifications Assessment (or Migration Skills Assessment) should contact the AACA at oaap@aaca.org.au **BEFORE** applying.

1. The Program

Applicants must demonstrate an applied understanding of the required Performance Criteria from the [National Standard of Competency for Architects \(NSCA\)](#). Through a portfolio of Complex Projects*, applicants will demonstrate appropriate experience and practice of architecture at an Executive Level, as well as capacity to exercise professional skill as an architectural practitioner in Australia.

Applicants submit a Professional Portfolio of 4-6 Complex Projects (built work only) and CV. These documents become the **Assessable Items**. Applicants also submit relevant academic and registration documents, included in the **Supporting Items**. Assessment of applications are conducted via a desk-based Eligibility Verification, followed by a Panel Interview.

**Complex Project: Typically a project of medium scale or larger that requires the skill and knowledge to deliver the resolution and integration of complicated aspects including but not limited to: siting, planning, structure, services, materials, composition and configuration. A complex project is demanding in its ordering and organisation of multiple occupancy and/or special purpose user requirements and requires the integration of cultural, social, environmental and technical issues.*

2. Eligibility

- a. Minimum 5-year (or equivalent) professional qualification in architecture
- b. **7-years** relevant professional postgraduate experience with a minimum of 3 years as an architect practising at Executive Level
