

Type **INSIDE** the boxes. Use as many sheets as you need. Cut out the boxes, organize them for **EACH** entry and bring them to the show with your entries.

We are using the 2-Part NCR Entry Forms as we have done for the last several years at ROCON.

If you wish to type out your detailed entry information please use the Template Boxes as a guide. Actual size of the typing area is 4 and 1/2 inches high by 7 and 1/2 inches wide.

Type as many sheets as you need but keep in mind judging time is limited so please be concise. Remember also, ROCON rules prohibit reference material on the table. When you are done typing cut out your sheets and keep them in order for each entry. When you get to the show you will be given 2-Part NCR Entry Forms. On each form you will find a box under the words "Features for Judging Consideration:". This is where you attach your typed sheets. Scotch Tape is recommended. Attach along the Top Edge ONLY Please. Attach the LAST sheet first, continuing backwards with the FIRST sheet ending up ON TOP. Please DO NOT COVER HOLE PUNCHES or information may be lost.

If you wish your information added to the captions of the pictures of your entries on the ROCON website, make 2 copies of your sheets and attach the SECOND copy (or set of copies) to the YELLOW sheet.

We will try to have tape and scissors available at the show but it is recommended you bring your own.
