

# Entrance Glazings

Ordinary glass is green with envy.

## Entrance Glazings

**Starphire**® Ultra-Clear Glass by PPG provides architects with an entrance glazing option that redefines elegance brilliantly. **Starphire** is the ideal solution for making your entrance sparkle with new impact and complement the entire building design. Lobbies and reception areas become breathtaking with the uncommon brightness of **Starphire**. **Starphire** glass doors set a new standard thanks to their jewel-like clarity and sparkling blue edges.<sup>1</sup>

### **Starphire** entrances are “clearly” remarkable:

- Maximized brightness: 7% higher Visible Light Transmittance than ordinary clear glass (in 1/2-inch glass thickness)
- Elimination of greenish tint to express doors’ unprecedented radiance and incomparable clarity
- A new level of creative elegance
- Easily fabricated to required specifications

For exquisite and truly unique entryways, lobbies, and reception areas, **Starphire** glass will provide an unmatched combination of function, beauty, and brightness.

**Starphire** glass is available in thicknesses from 2.5 mm to 19 mm and is stocked regionally to assure consistent supply reliability. For **Starphire** samples or a list of distributors, contact our Solutions Hotline at 1-888-PPG-IDEA, or visit [www.ppgstarphire.com](http://www.ppgstarphire.com). All PPG architectural glass is Cradle to Cradle Certified.<sup>CM</sup>

1 Note: **Starphire**® glass edge color can vary depending on final glass size, glass thickness, and ambient lighting conditions. PPG recommends a full-size **Starphire** glass viewing to determine acceptability for final use.
