### Honors Challenge: Nuts Illusion

**Purpose:**

Investigate the potential unreliability of qualitative observations by building a model of the “nuts” illusion.

**Procedure:**

1. Watch the video “Crazy Nuts Illusion” by brusspup on YouTube.

<http://www.youtube.com/user/brusspup?blend=1&ob=4#p/u/4/laty3vXKRek>

2. If you watch carefully, you should be able to figure out how it is done.
3. Design and build your own sturdy model of the nuts illusion out of an appropriate material.
4. Bring your model into school for display in the classroom. Model must be display quality.
