## 16th Annual Lace-In

September 7-8, 2013

The members of the Hedgehog Lace Guild invite you to attend our annual lace workshop.

We have a wonderful group of teachers offering a variety of classes.

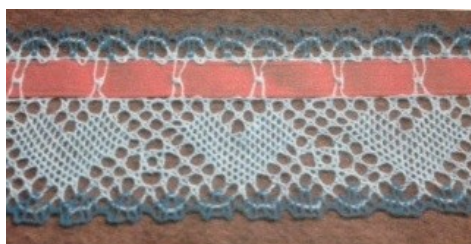

### Classes

#### 100 Beginning and Continuing Bobbin Lace ~ JoDee Kane

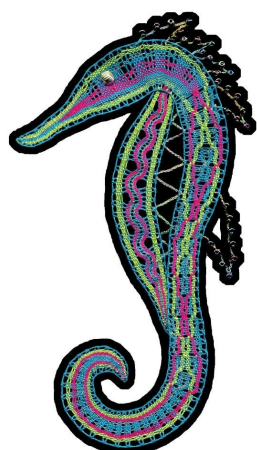

Hearts, Hearts, Hearts

Come learn a lovely Torchon piece which includes: Torchon Ground, French Fans, Half Stitch Hearts, Rose Ground, and an interesting beading for adding ribbon. This piece can be used for a bookmark, a bracelet, a napkin ring, or a one-sided wedding garter if done on a roller pillow.

This class also welcomes first time beginners that will do a nice bookmark.

#### 101 Milanese Lace — All levels ~ Louise Colgan

Milanese Lace is characterized by special decorative stitches that become integral features of each design. The creative nature of this type of lace makes it suitable for both traditional and contemporary interpretation.

A variety of projects will be offered to cover all levels of Milanese techniques. Students will be given the option of using colored threads to make their own unique pieces from the selected patterns.

A solid foundation in basic Bobbin Lace skills is required. Diagram-reading skills are also recommended.

**NOTE:** Continuing "Louise" projects are also welcome.

## 102 Romanian Point Lace - All levels~ Sylvia Murariu

Romanian Point Lace is a tape and needle-lace art form dating from the 18th century. A crocheted cord is basted on to the pattern, and then delicate needle lace stitches are used to fill the space between cords. After the completion of connections and stitches, the basting thread is cut off and the lace removed from the pattern. The lace is reversible and the pattern is re-usable.

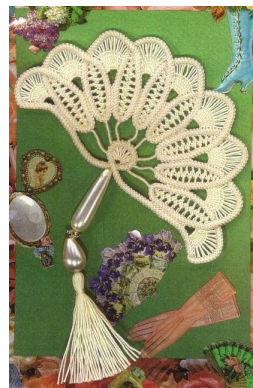

Our study includes the traditional and modern technique as well as some of the most elegant needle lace stitches.

Students will discover the secret of modifying the needle lace stitches as well as crocheting the cord and making a tassel.

A history lecture and open discussions will make the course more constructive, and will be a stimulating challenge.

Students will have their choice between the Snowdrop or the Victorian Fan.

There will be a \$25.00 kit fee payable at the time of the class.

## 103 Bedfordshire Lace — All levels ~ Jean Doig

Beginning Project

Intermediate Project

Advanced Project— This is a picture of a piece I did from Barbara Underwood's book. I invite advanced students to pick a piece they want to do from any Bedfordshire book and let me know which book and page number. If all they have is a pattern they will then need to email a copy of it prior to class so I can work up a lesson for it.

## 104 Tatting — Advanced beginners and up ~ Polly Womack

### TATTING JEWELRY AND BEADS

Bling to wear, to give and to make just for fun!

We will start with two simple medallions that may become earrings or a necklace, in order to review some of the techniques that are used to make jewelry shaped and special.

After the two medallions, each participant may choose from a wide variety of patterns provided. Or bring a pattern you have wanted to tat or would like help with. It will be interesting to see the choices in the projects.

You will receive a letter with more specific suggestions for patterns, threads, beads and other findings.
