The record for a confirmed hit is 2430 meters, and the 50 cal is very effective at stopping a lot of different "problems"; this colt carries as much muscle & bone as any we've raised, he has a big soft eye & great genetics to make him an outstanding performer. **NOTES:** He's proven himself in the arena and as a sire. We weighed him last Sept. and had a "pool" to guess his weight. Dave Jennings of Iowa was closest at 1430#, Brazos weighs 1440# and stands just under 15.2. He can stop as big as any little "pony" reiner you can drag down the road. He can run and handle any size cattle. He can stop any head horse you can heel behind and not give it up. He is easy to breed, collect, and extremely fertile and his semen freezes well. He has the eye appeal, conformation, ability, and temperament that have made the American Quarter Horse the largest breed association in the world. This horse is the real deal. We ran some numbers on what this horse is worth, realistically, to give a good return on your investment; at \$200,000, I am still the owner. He will make you money at a lot more than that if you have the ability to use him. AQHA IF Nominated. We will reserve 5 breedings per year for the lifetime of Two Eyed Brazos.

**NOTES:** Our friend, Jerry Buckles, is one of the best cowboy "hands" I know of anywhere, he is also a former NFR team roper and set arena records at some of the "BIG" shows. Jerry has ridden several of the Hes Dun His Time colts for us, (including my palomino gelding "Peppy" for two years) as pay for riding "Peppy" Jerry wanted a 2 year old Hes Dun His Time colt for each year of riding; he picked "Starlite's" colt as one of his choices and really likes him and so far has turned down offers to sell him. This little mare was out in Wyoming this past winter and got a little thin, she is starting to recover but with a foal nursing she's been slow to come back. I left her open to move her to an earlier foaling. She has the genetics to quicken up her foal's feet and add the cow, too. Breed her to your colored stallion to help prove him.

They are extremely intelligent and talented athletes. Of all the different sires we have used, the "Dunit" foals will reflect more so than any others, the way they are trained (treated). NOTES: "Popcorn" is Somer's "princess" and show mare. Cowhorse, reiner, performance halter champion, broodmare. She has done it & won it and this year we flushed two embryos by Spooks Gotta Whiz, the NRHA Triple Crown Winner! We are excited to see her babies next year. We really believe this mare will prove to be a great broodmare! She is a lead changing, big stopping sweetheart, and if you want to win or have a youth/ amateur that wants to win an all around, this mare has the stuff! AQHA IF nominated. We are retaining her embryos and recipient mares. Sell open for 2013

Jerry is one of the best hands I know of, in the arena or on the ranch, rope & doctor whatever needs it, sort cattle, etc.... and go to the team roping and rope with the big boys. Jerry set records at some of the big rodeos and headed at the NFR. This gelding has seen and done a lot on the ranch, gone to the practice pen and run lots of steers, head & heel and never hurried or pushed too fast. Jerry Rieman used "Twister" on some of his mares & proved that this horse can produce, Twister has the genetics to improve a lot of mares. He has had some respiratory issues this year that prevented him from being ridden but didn't affect his ability to cover a mare. Buy him "as is" AQHA IF nominated.

**PERFORMANCE NOTES:** In training.

**NOTES:** I bought this horse as a weanling and had Lance Sheilds of Gainesville, Texas start him at 2. Somer Richards continued his training until I sold a majority interest in him to Gene Roberts of Lingle, Wyoming. Gene has used "Chex" on their ranches in every aspect that comes from being a ranch horse; sorting, doctoring, branding and moving cattle. "Chex" has the WOW factor and a terrific personality disposition, he is definitely a people's horse! Over the past two years Gene has gradually started "Chex" in the roping pen and hauled him this spring to a couple of rodeos. They were under 5 at both rodeos! "Chex" has been pasture bred for the past 4 years. The "Chex" foals look good, with many having his beautiful head and good short ears, they carry good muscling with plenty of stifle muscle to make big stoppers, too. We think enough of him that we own his dam, Lot #70, and flushed an embryo that will be a full brother or sister to Chex. This is a fancy horse to use & breed.

**Thank you!**

**To all of you that have helped create, start, train, use, promote and keep these horses healthy and help us reach our goals in this business. We pray, that you understand our deep gratitude for your participation in our lives. Raising livestock; horses, cattle, sheep, goats, dogs, is the ranching business; raising or attempting to raise great ones is a passion. Life is pretty good, when your business is your passion!**
