A permit transfer cannot occur until the property has been sold and the change of ownership has been recorded. A permit transfer is automatically approved provided the new owner submits all information requested on the transfer agreement form. No construction by the new owner is authorized until the Bureau approves the permit transfer agreement and the approved permit transfer agreement is posted on the site.

All construction must conform strictly to the requirements of the permit. Should the new owner propose changes in the authorized work, the Department must approve the changes in writing prior to their implementation. Copies of the permit and approved construction plans (if any) should be obtained from the previous owner.

If you have questions about the form, please contact the Bureau at (850) 487-4475 (press extension "0" and ask the operator to connect you with the staff member responsible for permit transfer agreements in the coastal county in which your project is proposed).

INSTRUCTIONS:

1. Submit two completed copies of the Permit Transfer Agreement form and sufficient evidence of the new ownership of the property upon which the proposed construction or other activity is to occur, as described in paragraph 62B-33.008(3)(c), Florida Administrative Code, to the Bureau at the address above.
2. An agent may apply for the permit transfer and to act in other matters pertaining to the permit on behalf of the property owner by completing the Certificate of Owner's Authorization For Transfer located on the reverse side of this agreement.
3. Any person signing this application in the capacity of corporate officer, partner, public official, or any other similarly designated representative should include the title of their position and the name of the organized body that they represent in the space provided (below) for the printed or typed name of the applicant.
