

The Colleagues of Calligraphy Present

A 2-Day Workshop for
All Levels of Experience

Sunday and Monday
May 15 and 16, 2011
9:30AM - 4:30PM

Edina Art Center

In this workshop, we will **learn how to create the fabulous antiqued paper that is a trademark of Harvest's work**. Using her "recipes" that incorporate such things as raspberry tea and burnt sugar, we will **create exquisite papers** to decorate with ephemera and our own hand-made accents for our projects. We'll learn how to further **personalize our paper by lettering** a favorite poem or use our newly honed skills at Lombardic capitals to add a letter with special meaning. Harvest will teach us **image transfer techniques** that will create a magical look that will age our documents to a century ago.

Harvest says, "This class is about having fun, experimenting with different techniques, and letting go of predetermined outcomes. Come play, make a mess and see what wonders will appear! **All participants will go home with a complete recipe booklet, sample pages and a 12 x 12 finished frame.**" (Visit Harvest's web site at www.acornarts.org).

In keeping with our "use it or lose it" approach to lettering, this workshop will provide us with techniques to use along

with our lettering skills to create beautiful and useful projects. We will have an opportunity to further use our Lombardic lettering skills with Harvest available to provide guidance. We will have fun and take home a beautiful finished project to enjoy long after the workshop ends.
