

Decal Contractors Duct Sealing Certification

Per FBC-ECC (Energy Conservation Code) 2010 Section 101.4.7.1.1 which states:

Duct Sealing Upon Equipment Replacement: At the time of a total replacement of HVAC evaporators and condensing unit, all accessible (a minimum of 30 inches (762mm) clearance) joints and seams in the air distribution system shall be inspected and sealed where needed using reinforced mastic or code approved equivalent and shall include a signed certification by the contractor that this work has been accomplished.

Exceptions:

1. Ducts in conditioned space.
2. Joints or seams that are already sealed with fabric and mastic.
3. If system is tested and repaired as necessary.

I _____, per FBC-ECC Section 101.4.7.1.1 have inspected all ducts that have clear access of 30" in accordance with the code.

Decal Number (s): **DM- 2014 -** _____

DM- 2014 - _____

Installation Date: _____
