Two versions of the Local School Climate Survey were developed from GLSEN's National School Climate Survey to be used by local communities. This, the "School-based Version" was developed as a tool to be used to assess a particular school from within. Survey questions and answers reflect this.

Those wishing to use the Local School Climate Survey in a non-school-based capacity should view the "Community-based Version" available, along with the 1999 and 2000 National School Climate Surveys, online at [www.glsen.org](http://www.glsen.org).

## 1. Survey Usage Guidelines

---

The Local School Climate Survey provides users with a printer-ready:

- ☐ Participant letter
- ☐ Survey Form

These may be used, according to the guidelines below, to assess your school's climate towards lesbian, gay, bisexual and transgender people. Additionally, this survey asks students questions about their experiences with racist and sexist discrimination and harassment.

1. In exchange for using the Local School Climate Survey (School and Community-based Versions) it is requested that coordinators send GLSEN a copy of the survey results.
2. Due to the number of local surveys potentially being conducted, GLSEN cannot tabulate Local School Climate Survey results for you. However, we're happy to provide you with the method we use. Please e-mail Joe Kosciw ([jkosciw@glsen.org](mailto:jkosciw@glsen.org)) to request more information.
3. GLSEN cannot pay to produce copies of the survey for local use. However, the attached PDF will provide you with a "printer-ready" version of the survey that you may reproduce on your own, provided that it remains intact.
4. The provided GLSEN Local School Climate Survey may be used free of charge, if used in its entirety. The survey may not be amended without expressed permission from GLSEN.
5. Any use of the Local School Climate Survey implies that you have read and agreed to these guidelines.

## 2. Tips and Considerations

---

Please see [www.glsen.org](http://www.glsen.org) for the original document, *Assessing Your School Climate (Section 4a)* in *The GLSEN Jump-Start*.

- o Depending on your school and school district, you may need additional permission to do a school-wide survey, if that's the route you've chosen. Your administrator will be able to tell you if you need permission from a district representative or your school's parent organization.
- o Your school administration may decide that you need parental permission from all participants. There are two types of parental permission that may be required: "active consent" and "passive consent." "Active consent" is when the parent must submit signed permission before their child can participate in the activity (an example of this is a field trip permission slip). "Passive consent" is when the parent is notified that the activity is going to happen, and it is up to the parent to notify the school if they don't want their child to participate. Make sure that you tell the administrator, parents and participants that the survey will be completely anonymous.
- o The survey begins with a sample letter that thanks participants for their responses, briefly explains the survey, and directs participants who have questions, want to learn more, or want to talk about their own experiences to the proper resources. It is up to your group to insert the names of the appropriate adult allies in your school. You also should provide the contact information of a community resource for LGBT youth, if one exists in your area, for students who may not feel comfortable talking to someone at school.

Dear Fellow Student,

Thank you for taking the time to respond to our School Climate Survey. We appreciate your participation.

The survey contains questions about our school, your background, and your experiences as a victim or observer of bias against lesbian, gay, bisexual and transgender students, students of color and female students.

We are doing the survey so that we can determine our school's "climate": how comfortable students of different backgrounds feel in our school, how frequently offensive and hateful language is heard in our hallways, and how common it is for students to experience other forms of harassment. We want to work so that our school is a safe place for everyone. The information from the survey will tell us where our school may need improvement.

This survey is completely anonymous. Please *do not* write your name anywhere on the survey. Because it is anonymous, we hope that you will feel free to be completely honest when answering our questions.
