- C. There is a limitation on the use of regular suppliers and brokers to fulfill the SBE goal established for this Contract. For purposes of this Contract, suppliers and brokers shall be defined in accordance with Section I of this Clause.
- D. Proposed expenditures to brokers and suppliers can be used to meet the utilization goal, provided that expenditures do not exceed 25 percent (25%) of the total SBE goal requirement. Contractors may count one hundred percent (100%) of the dollars proposed to be paid to a SBE supplier, and all costs associated with the fees and commission to be paid to a SBE broker. The combined SBE utilization in these two areas may not exceed the 25% limitation.

Example: An SBE goal of 10% has been established on a project where the contractor has submitted a base bid of \$1,000,000. This results in a dollar goal of \$100,000 to be subcontracted to SBE's. The contractor proposes to contract with a SBE supplier for \$100,000. Only \$25,000, or 25 percent (25%), may be counted towards achievement of the SBE goal for this project. The remaining \$25,000 must be achieved through the use of firms that are not suppliers or brokers.

- E. Payments to brokers, or expenditures for product or services made to a SBE business that is not a supplier or regular dealer as defined herein may only be counted up to the dollar amount actually retained as fees and commissions. The funds that flow through the broker to other firms for the product or services being supplied may not be counted.

Example: A firm providing uniformed officers for security or traffic control charges the Contractor \$30 per hourly for the services of the uniformed officers. The officers are not direct employees of the broker but are "at will" contractors. They are paid a flat rate of \$21 per hour and are responsible for their own employment taxes on these monies earned. Only the \$9 retained by the broker as fees and commissions can be counted towards meeting the SBE goal.

- F. Trucking & Hauling: The amount of a trucking/hauling subcontract that may be counted towards the utilization requirements may be limited.

- An SBE must itself own and operate at least one fully licensed, insured, and operational truck that will be used on the contract. In addition, trucks the SBE leases as part of a long-term leasing agreement may be counted as part of the trucking firm's workforce with the following conditions. Contractors may receive full credit for the work the SBE firm performs with trucks it leases on a long-term basis from another SBE firm. Contractors may also count the work performed by Non-SBE trucks the SBE leases, up to the value of transportation services provided on the contract by all the trucks the SBE owns and leases from other SBE firms. All Non-SBE trucks leased on a long-term basis must be operated by employees of the SBE trucking firm. Any additional non-SBE leased trucks may only be credited for the fees or commissions the SBE subcontractor retains over and above the cost of the lease arrangement. **All leasing agreements must be reviewed and approved by the Equal Opportunity Department prior to the subcontractor starting work.**

Example: A SBE trucking firm uses seven trucks on a job. Two are owned by the SBE and one is leased from another certified SBE firm. Four trucks are leased from a non-SBE. The amount paid to the SBE for the services of three of the SBE trucks can be counted in full towards meeting the SBE requirements. Only the brokerage fees that the SBE subcontractor receives for leasing the remaining truck(s) may be counted as SBE utilization.

SECTION VI. SBE PRIME CONTRACTOR

A Contractor that has been granted SBE certification with the City of Phoenix can not meet the SBE goal through the work that it self-performs. The goal can only be met through goods or services that are sublet other eligible SBE firms.

SECTION VII. RECORDS AND REPORTING REQUIREMENTS

- A. During the performance of the work under the Contract, the Contractor shall keep such records as are necessary to determine compliance with its SBE goal obligations.
- B. The Contractor shall provide to the Equal Opportunity Department copies of all purchase orders, invoices, and/or contracts with SBE subcontractors or suppliers that perform work or supply goods or services for Job Order work on this Contract.
- C. During the term of the Contract, the Contractor shall complete timely audit reports related to the participation of (SBE as well as non-SBE) subcontractors and suppliers in such a manner, form, and content as prescribed by the City of Phoenix.
- D. For each Job Order Agreement, the contractor shall provide a completed and signed:

The form documents services to be performed by the subcontractor/supplier and the total dollar amount of the subcontract that will be awarded to the SBE. Only the services performed in the area(s) described by the SBE's certification description can be counted towards the SBE goal requirement.
