

BARRICADE PROCEDURE AND FEES

BARRICADES

TEMPORARY NO PARKING barricades are intended to reserve the right-of-way for construction-related activities, residential moves, commercial moves, special events, community events, and filming projects. They are to be used for commercial vehicles (as defined by City code).

- Commercial signage on trucks must match the City issued permits on the No Parking plastic bags.
- Commercial trucks that do not have signs that match the City issued No Parking plastic bags, shall display the City Permit on the dashboard so that it's clearly visible.
- Passenger vehicles are not allowed in the reserved zone.

"NO PARKING" plastic bags are issued by, and obtained from, the City of Portland Development Services Center. The permittee is responsible for placing the bags. Barricades, while recommended, are not required to place the city issued plastic bags and stickers, however they must be placed in such a manner as to be visible and readable from the street. (see photo)

Barricades, or equivalent, must be at the location/address to be reserved. When reserving more than one space, they should be placed as follows:

1. A minimum of five barricades per block face and no less than one barricade every 50 ft.
2. Adjacent to the parking lane, facing the street.
3. A barricade at each corner, if applicable.
4. Within a block face, outer most arrows (on the city issued bags with stickers) must point toward each other.

Temporary restrictions will supersede regular parking regulations only if **all other parking signs are covered**. Example: 1 hour or Truck Loading Zones signs, etc. must be covered within the barricaded area. Do not cover the 'No Parking Anytime' or 'No Stopping or Parking' signs.

VERIFICATION

The placement of barricades and/or "NO PARKING" bags will be enforceable **24 hours after** Parking Enforcement verifies that they are installed correctly. All verification charges will be billed to the permittee.

One verification check by Parking Enforcement includes up to a maximum of four (4) consecutive block faces (800 feet). (See page 2)

Verifications are valid for seven (7) calendar days from the date and time of the verification. If the job/operation is of longer duration than seven days, call Parking Enforcement once a week for re-verification.

The fee includes all vehicles illegally parked within the reserved zone if the permittee chooses to have Parking Enforcement verify the barricades.

Barricade verification is not required; however, if enforcement is needed and verification was not requested, refer to the Tow-by-the-Hour section of this form.
