

SPRAGUE SCHOOL DISTRICT
Baltic, Connecticut

ADMINISTRATIVE REGULATIONS REGARDING IMMUNIZATIONS

In accordance with state law and accompanying regulations, the Sprague Board of Education requires each child to be protected by adequate immunization against diphtheria, pertussis, tetanus, poliomyelitis, measles, mumps, rubella, hemophilus influenzae type B, hepatitis A, hepatitis B, varicella, pneumococcal diseases, meningococcal disease and any other vaccine required by the schedule for active immunization as determined by the Commissioner of Public Health pursuant to Conn. Gen. Stat. § 19a-7f, prior to enrolling in any program or school under its jurisdiction.

Among other requirements, before being permitted to enter seventh grade, the Board requires each child to be vaccinated against meningococcal disease. The Board further requires each child to receive a second immunization against measles and tetanus, diphtheria and pertussis (Tdap) before being permitted to enter seventh grade.

In addition to existing requirements, for the 2011-2012 school year, and every school year thereafter, each child must have received two doses of immunization against varicella before being permitted to enter kindergarten and seventh grade. Also for the 2011-2012 school year, and every school year thereafter, each child must have received two doses of immunization against rubella and mumps before being permitted to enter grades kindergarten through twelve.

Beginning January 1, 2012, and each January 1 thereafter, children aged 24-59 months enrolled in the Board's preschool program must show proof of receipt of at least one dose of influenza vaccine between August 1 and December 31 of the preceding year. All children aged 24-59 months who have not received vaccination against influenza previously must show proof of receipt of two doses of the vaccine the first influenza season that they are vaccinated. Children seeking to enroll in the Board's preschool program between January 1 and March 31 are required to receive the influenza vaccine prior to being permitted to enter the program. Children who enroll in the preschool program after March 31 of any given year are not required to meet the influenza vaccine requirement until the following January.

Exemption from the pertinent requirements of these administrative regulations shall be granted to any child who:

- (1) presents a certificate from a physician, physician assistant, advanced practice registered nurse or local health agency stating that initial immunizations have been given to such child and additional immunizations are in process under guidelines and schedules specified by the Commissioner of Health; or
- (2) presents a certificate from a physician, physician assistant, or advance practice registered nurse stating that in the opinion of a such physician, such immunization is medically contraindicated because of the physical condition of such child; or

- (3) presents a statement from the parents or guardian of such child that such immunization would be contrary to the religious beliefs of such child; or
- (4) in the case of measles, mumps or rubella, presents a certificate from a physician, physician assistant or advanced practice registered nurse or from the Director of Health in such child's present or previous town of residence, stating that the child has had a confirmed case of such disease; or
- (5) in the case of hemophilus influenzae type B, has passed his/her fifth birthday; or
- (6) in the case of pertussis, has passed his/her sixth birthday.

In accordance with state law, the Sprague Board of Education shall not be liable for civil damages resulting from an adverse reaction to a nondefective vaccine required to be administered by state law.

The Board of Education designates Patrice Houle, School Nurse as the representative for receipt of reports from health care providers concerning student immunizations.
