1st International RIETE Meeting & 7th Update Meeting on DOACs

WELCOME LETTER

Dear colleagues and friends,

After 15 years of working together, the RIETE investigators will have the opportunity to meet personally each other, and to discuss about a number of issues concerning the diagnosis, treatment and outcome of patients with VTE.

In Seville we will have one and a half days to present our current data, to discuss about what to do next and to provide suggestions and questions aimed to improve our work. The aim is to stimulate people to find other investigators interested on similar topics, and to help producing good manuscripts.

Every speaker will have 10 minutes to present his/her data. Not a minute longer. This will help to enjoy a general discussion with the audience.

This will be the first International RIETE meeting. I sincerely hope you enjoy your stay during the meeting, but also the magnificent city of Seville during the short time before and/or after the meeting.

Kind regards,

Dr. Manuel Monreal
