Abdominal Imaging and Pathology

(XRAA81-060)

Saturday, September 19, 2009

This course focuses on plain imaging of the abdomen, normal vs. abnormal findings, pros and cons of the anterioposterior, upright and decubitus abdominal positions, and advantages and disadvantages of plain film vs. special imaging.

Instructor: Paul Laudicina, MA, RT (R), MA, BCFE, DABFE, FACFE

Diagnostic Imaging of Critical Illness

(XRAA78-060)

Sunday, September 20, 2009

Diagnostic imaging plays an important role in identifying the cause of the problem and initiating life-saving treatment. This course focuses on conditions which are described as life threatening or critical.

Instructor: Paul Laudicina, RT (R), MA, BCFE, DABFE, FACFE

Breast Imaging 2009 (XRAA80-060)

Saturday, November 21, 2009

This course examines the importance of breast self-examinations (BSE) and clinical breast examinations (CBE). Identify current BSE and CBE guidelines recommended by the American Cancer Society. Explore the origin of nipple discharge and review mammographic findings. Review breast cancer case studies, including patient history and related imaging studies. Full-field digital mammography and the future in breast imaging also are discussed.

Instructor: Jeanette Joyce, B.F.A., R.T. (R)(M)

INSTRUCTORS

Paul Laudicina, RT (R), MA, BCFE, DABFE, FACFE

Jeanette Joyce, BFA, RT(R) (M)

Diagnostic Imaging of Aneurysms and Vascular Malformations

(XRAA71-060)

Saturday, December 5, 2009

Advancements in vascular imaging demand radiologic technologists stay updated about current techniques. This course discusses the etiology, development, and the imaging and treatment of aneurysms and arteriovascular malformations.

Instructor: Paul Laudicina, RT (R), MA, BCFE, DABFE, FACFE

Cancer 2009: An Update for Radiologic Technologists

(XRAA67-060)

Sunday, December 6, 2009

This lecture focuses on lung cancer, breast cancer, and prostrate gland cancer—the three leading cancers affecting adults. Discussions include diagnostic imaging modalities, treatment options, and determination of prognosis.

Instructor: Paul Laudicina, RT (R), MA, BCFE, DABFE, FACFE
