October 23, 2015

Dear Friend of Evergreen,

As 2015 draws to a close, it is with deep appreciation and great hopefulness that the Evergreen Board reaches out to you with an update on this year's accomplishments and to ask for your continuing support, which is what helps to keep the Evergreen Center going and growing!

Our mission is to provide integrated wellness programs and services that support the health and well-being of body, mind, spirit and our Earth. To ensure a sustainable future for Evergreen, and the stewardship of this greenspace in the heart of Easton, we are building new relationships and alliances. Through an expanded Affiliation Program, Evergreen is beginning and deepening relationships with groups and organizations such as the Y, Freedom Rowers, and Peachblossom Learning Community (PLC) for homeschoolers. The children of PLC are planning for a "learning garden" at Evergreen, and we likewise hope to expand our reach to further articulate a more global definition of wellness, one which expresses the coherence of inner and outer environments. We will strive to continue this important outreach and education, providing optimal experiences and access to our beautiful waterfront greenspace to better serve our community.

Evergreen programs and services have also been strengthened. To give broader range and greater continuity to the wellness community, the on-campus and affiliated practitioners and instructors will become part of a more inclusive Wellness Consortium. We look forward to growing and nurturing this flourishing community of health and wellness providers working in concert with supportive programming.

The Board is encouraged by the new growth at Evergreen. Its members are committed to building on strategies that have been put in place and exploring new opportunities and possibilities. Nevertheless, in the words of EC Finance Committee's Dick McCauley, the 2015 budget was "cut beyond the bone". Forging a new path forward while maintaining the best of Evergreen has been accomplished through great generosity of spirit. Your support of the 2015 Annual Giving Campaign impacts our entire community and beyond, and will serve to give wings to the good start that has been made this year.

Let's continue to recognize and nourish the things that provide connection to one another and to the precious home we all share, mother Earth. Be the change . . . one peaceful heart at a time!

In partnership,

Freya Farley, Board Chair
& Members of the Evergreen Board

Enclosed is my contribution of:

Angel (\$10,000+) Benefactor (\$5,000+) Patron (\$2,500+) Builder (\$1,000+)
 Sustainer (\$500+) Supporter (\$250+) Friend (\$100) Contributor (under \$100)
