**Act**

- 7. Discuss the questions with the student, especially the last question.**
  - *Engage in a conversation with the student*
  - *Give feedback by **REFINING** the student's English*

**Wrap up**

**COPY & PASTE**

Thank you for studying at Bizmates. (bow)

**See**

Scan through the highlighted phrases and discuss their general meanings. Then read the article.

Success is something that we all wish to achieve in our lives, but each of us has our own definition of what that is. Most of the time, success is **tantamount** to promotion, salary increase, and lucrative business. However, the meaning of success should not always **equate** to material things. There are some who have succeeded in achieving their goals, but did not gain anything tangible. One thing that places them **in a league of their own** is their dedication to extending help to **the less fortunate** to lessen their burdens in life. Someone who **epitomizes** this is Mother Teresa.

Mother Teresa was a Roman Catholic nun who spent her mature entire life reaching out to the needs of people living in misery, particularly those who live in India. She brought not capital and strategies but a kind heart and willingness to help. She succeeded not in building a company, but in establishing a **congregation** that aims to provide shelter, education, and medical treatment. Her admirable work has earned her **accolades** worldwide including the prestigious Nobel Peace Prize in the late 1970s.

However, despite her dedication and hard work, there were also challenges in the form of allegations that she had to face. Yet, she did not stop and her charitable works for the poor and sick prevailed. She devoted her time in praying and caring for the poor. Although she **succumbed** to heart failure in 1997, those people whose hearts have been touched by her sincerity, will always remember her as not only someone who was successful in her life mission but someone who helped others achieve success too.
