Did you know that:

- Cerebral palsy is the largest disability in children in the world today.
- Every six hours another child is born who will have cerebral palsy.
- Any woman who is pregnant could have a child with cerebral palsy.
- Cerebral palsy can affect movement, sensation, perception, cognition, communication and eating and drinking. In some children, all of these functions may be affected.
- Although the brain damage that occurs is permanent and there is no cure available, Bobath therapy makes a real and positive difference to the life of every child who has cerebral palsy.
