Aircraft Maintenance and Inspection Procedures: <div></div>	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Aircraft Flight Training Supplement: <div></div>	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Manufacturer's Safety Directions: <div></div>	<input type="checkbox"/> Yes <input type="checkbox"/> No	

Imported Light Sport Aircraft

In which ICAO Contracting State is the aircraft manufactured?

Is this aircraft type eligible for a Certificate of Airworthiness,
or like document, in the country of manufacture?
(written confirmation is required)

Manufacturer's Certification

I hereby certify that the aircraft identified in this Statement of Compliance:

(1) Complies with the Design and Performance standard specified above;

(2) Was manufactured in accordance with the Quality Assurance standard specified above;

(3) Was ground and flight tested to the Production Acceptance Tests specified above and is in a condition for safe operation; (*Strike out items 3 and 5 if this LSA is a kit built aircraft*)

I also certify that

(4) The aircraft will be supported throughout its life under a Continued Airworthiness System that meets the Continued Airworthiness standard referenced above, and

(5) The manufacturer is a qualified manufacturer as defined in CASR 21.172.(2). (*See 3 above*)
