Classroom Observation Evaluation

This form serves as a simple evaluation tool for supervisors. It is one method of faculty evaluation used at R-CCC. Observations and evaluations of faculty should be a professional endeavor that encourages open and free discussion between the instructor and observer. The expectation is that the instructor and the observer will discuss the evaluation and that there should be an opportunity for questions and honest conversation about performance and expectations. The process should provide an opportunity for growth for the instructor and the evaluator. When areas of improvement are noted, the supervisor and the instructor agree on an action plan.
