## Prepaid Funeral Questionnaire

A unique personal service – independent expertise – at no cost to you.

Typical costs for a very basic prepaid funeral plan start at around  $\pounds$ 1,700, with "full" plans coming in at a whisker under  $\pounds$ 3,000 to  $\pounds$ 4,400.

**Monthly payments are available**. A deposit will reduce the monthly payments, as will going for insurance type plans. Not ready to go ahead? We will give you a rough idea (please don't ask us to do the full research though as prices increase all the time and you may get a different and costlier quote even a couple of weeks later!)

We don't charge you, we are paid by the companies: all we ask for is a commitment that you go through us, unless you can find the same or a better plan elsewhere at lower cost (we're confident you won't!) More at <u>www.prepaidfuneralreview.co.uk</u>

If there is a health issue for the enquiry, please let us know as it may affect the recommendation. It is quite hard to place plans for under 50's in good health.

I confirm that I expect to place my funeral plan through you.

Instalments are often interest free if over only 12 months – you could pay a good deposit and spread the balance.
 Burial plots need to be purchased separately or as part of the package at the time..
