Winning is an interesting concept. Think about it. It's not something you can just stumble into.

You win because you work harder than your competitor. You win because you want it more than the other person or the other team. And to get there you need to do the preparation that's necessary to succeed.

For our team to win, we need to be aware of the competitive landscape around us. So we keep an eye on our competitors. We pay attention to what they're doing. We do this because we believe we're the best out there ... but we want to make sure.

That's because our goal is to be the best business in the world with the best products that provides the best opportunity to anyone, anywhere. We've looked closely at our sales plan this year in every market. And we found that our plan is competitive. And we're committed to doing what we need to do to keep it competitive.

Our goal is to make sure that the reward is right at all levels of the business. The new distributor needs to be making money sooner. Platinums need the correct compensation for what they do. Your reward needs to be tied to your level of performance in the business. That's only natural.

And we may need to make changes to improve our business – for the new person, for you. Although we don't believe in changing just to change. That's not right.

But we do know that strong companies, companies that survive fifty years and look toward fifty more, don't stay competitive by feeling good about themselves.

They constantly challenge themselves to win.

### Sushil & Rashmi Pachmunda

Authorised Representatives of Focussed Vision

Captain - Merchant Navy (H) & Software Professional (W)

DOJ: 12/03/1998 | FARIDABAD

*“We are so grateful to be a part of 50th Anniversary Celebrations – this proves that this business has withstood the test of time and is truly an opportunity for the 21st Century.”*

*Our business philosophy--“It creates OPTIONS in life, and this business model is perfect. It is a complete package in itself for making a life, and not just a living”.*

Growing up in small town in India, I was told, a good education and a good professional career was the only way. But after 17 years in the Merchant Navy on ships around the world, working my way up from Cadet to Captain, I realized that was not really true. Rashmi grew up in New Delhi, Post graduate in Computer Systems Management, worked in Australia as a software professional, took time to understand the business and its unbelievable rewards. She is thankful to our Uplines and to me to have the persistence to carry on despite the negativity. "Do not prejudice"

In search of a better life ashore, we tried two “traditional businesses” (developing marine software and seafood exports), that experience taught us two important things — “how to lose money and how to lose time”. And then we migrated to Australia, settled well, and that is where we saw the Amway business and a real dream was born. We are thankful to our team for all the support and mentorship.

We learnt to simplify our life (Time Management), focused on the basics, learnt to work with Dreams & Goals - everything is learnable in this business. The business ALWAYS works, but sometimes PEOPLE do not or they do not want to learn and then they blame the business. It’s not a lottery or a free lunch or a get rich quick scheme, it is a proper business, with a great compensation plan with great products, from a great company.

“Daily, deliberate action” is the key, we built the business just by keeping a discipline of showing the plan every single day, even with the usual obstacles, normal doubts and fears and facing lots of skeptical people but we never faltered in their unshakable faith in the inherent goodness of this business. We believe the Amway business is an idea whose time has come.

The satisfaction of helping other families, spreading learnable simple steps, using proven success principles, having great friends, enjoying travel, the Amway business has given us all of this and more, all in one place. So whatever one needs, one can find it in this business.

Our recommendation — “anyone, just anyone with a dream, and a willingness to learn and to work towards that dream, can do it”.

Businessman (H) & Homemaker (W)

I was born and brought up in Delhi. My wife, Shashi was born and brought up in Ahmedabad. God has blessed us with two children; a daughter, Komal and a son, Anand.

I tried various businesses but was unsuccessful in all of them. In all those businesses, I did all that I never liked doing hence couldn't really make it. It was then, that I was shown the Amway Business Opportunity in 1998, 10 years back by one of my college friends. It was there, that I got to know about this wonderful business opportunity, about its founders Rich DeVos and Jay Van Andel and the rich history. I was very much impressed and took the decision to start this business. I felt that this business has come for me.

Initially, we faced lot of challenges, but, with strong founder fundamentals, our faith, determination and strong driving force, we were able to overcome those challenges

and moved forward.

Best Business opportunity, unmatched quality products, unbelievable support and encouragement from Amway and a great team of leaders in my group is the mantra that worked for us.

In Amway, what I liked most about is - we can only succeed when we help others to succeed. We continued to overcome the challenges and grew our Amway business and reached the Founders Emerald level in 2003.

It was then that I got the biggest shock of my life. I lost my eyes. Despite all the treatment, no positive result came out.

It was at that point in time that I decided not to sit back and feel sorry about my position & decided to continue

with same efforts to grow my business that I was putting in before loosing my eyes. It was not easy but I was determined to make it happen and to take the business to the next level. Amway stood with me and provided me every possible support to help me achieve my dream level - BRAND NEW DIAMONDS.

If this was not enough, I got second shock of my life in Dec 2007. I got to know that I have lost both my kidneys and I will be on dialysis for rest of my life. Though I lost my vital organ, I never allowed it to come in my way to Diamond-ship. I had already taken a decision that I will go Diamond by Aug 2008 & I DID.

Today, as I sit and look back, with all that has happened in my personal life and if I were not in

Amway business - what would have happened to me and my family.

I am disabled and physically handicap today. Despite, I have the financial freedom and security for self and my family - not only now but for my generations to come.

My faith won this war and my challenges lost it. I am grateful to God and Amway for this.

IF I CAN DO IT, ANYONE CAN DO IT!

## Vinod N Kumar & Rajalekshmi J

MBA (H) & Junior Lecturer (W)  
DOJ: 17/07/1998 | Place: TRIPUNITHURA

I was born and brought up in a middle-class family in God's own country, Kerala. In 1997, I finished my Master's Degree in Management and got into a very reputed multinational company. I was enjoying the "NAME" and "FAME" of the company, and I believed I am going to be with this company throughout my career, building a bright future. The Dream lasted only for an Year where our Division faced a major challenge in India and I lost my job. Luckily for me the age and experience was favourable and got into another famous MNC. It was big eye opener for me. I really felt the importance of SECURITY in my life. But I had no option.

One fine evening I got an invitation for seeing the Amway Business plan. For the first time I heard the name Amway. It didn't appeal to me at all. By God's grace I believed that person and signed the application. But I didn't realise the potential of Amway business and wasted two years. In 2000, my sponsor introduced me and my brother to the Amway opportunity. We understood many features of Amway business like extra income, long term security and royal recognitions. I decided to make Amway as my FUTURE and started building it part time along with my brother. My parents supported me very well and I started to enjoy the business. In just 6 months I went silver and achieved the first DREAM through Amway. By the time I married to Raji - who was

TEAM. We utilised all our free time to build Amway business and went GOLD and PLATINUM very soon. In New Platinum forum we could really feel the care by the company and we could see our BRIGHT future into this.

We took Amway as our life and gave 100% priority to it. Through this opportunity we learned and practiced many Universal powers and Laws. It has changed our life every day and we continued the journey with our little daughter, Bhagya and touched the milestones like Founder Platinum, Sapphire & Emerald. In each level we accomplished many of our Dreams. We could expand this business in many part of the country and could build a very committed, enthusiastic, downline team. Now our team is blessed with many Silvers, Golds, Platitudes and Emeralds.

Now we realise that Amway business is a GOD's intervention in our life. We were blessed by our Parents and family members through out our success journey. Apart from money, time and security It has blessed us with many intangibles. The quality relations, the confidence in our life, the positive energy, the recognitions by the company and by many people, and the achievements we get are precious and priceless. The true enjoyment is that we could share the same emotions with many people like us.

As Diamonds, we along with our enthusiastic downlines continue our journey. We strongly believe that through this opportunity many huge success stories will emerge.

## Sandeep & Shailja Mittal

Businessman (H) & Businesswoman (W)  
DOJ: 15/07/1998 | Place: MEERUT

Our formula of success is simple 3Ts "TEAM, TRUST & TRAINING".

I was running a Computer Business and Shailja was heading a professional institute for Computer Training and Fashion Designing. Our businesses were running very well with very good reputation BUT Amway proved to be more profitable than Traditional Business. We were getting good

earnings but since we were trading their time for money, (Time Trading Trap) so there was almost no time left for us and for the family, especially as we wanted to spend more time with our son, Nani Sarang.

We both are hard working & big dreamers, always wanting lifestyle. We are coming from Average, Middle Class family but never wanted to remain Average or Middle Class. We believe "If you were born poor, it's not your fault, but if you die poor, it's your fault."

When we got married, we started our business life from scratch and took heavy loans to jump start. That time only, we were also introduced to Amway Business. We were determined to succeed & were sure that this Business can provide great results without any risk with a proven predictable system for success and a personal mentorship program available, thus ensuring peace of mind. Our road of success was paved with strong principle like patience, perseverance, integrity, dedication, honesty, ethics and a sense of purpose.

We feel this business is all about maintaining Emotional Balance, in different circumstances. One needs to change personally and learn how to lead and work with different kind of people parallelly. We were willing to

change personally and pay the price of success.

I am a big dreamer and always have a winners' attitude and Shailja is goal oriented. We always say

"Do what is necessary, when it is necessary, whether you like it or not."

We are very passionate about Amway products, as these are not only of great quality but also come with an opportunity to improve quality of life.

We are grateful to our caring uplines for their extensive support & guidance. We feel very proud of our downline team, which is more than a family to us. Now our dream is to help many people to reach their goals and actualise their potential, as well as at the same time touch millions of lives.

We thank Amway and the entire Management for all the support and Cooperation. We believe Amway is the best business opportunity for the masses, which is time tested for 50 years, geographically tested and transcends beyond

race, colour, religions and border. Your background, education, contacts etc. are immaterial. What makes you succeed is your strong dream.

Today we are enjoying financial freedom, what we define as working by choice, foreign trips every year, great recognition while helping countless people and of course an exciting future with Amway Business.

Have faith in yourselves and in your upline & downline team and Have Faith in GOD. Build your Business with Passion.

Always remain in Dream World & have a "Do it now!" attitude.

## Antony Varghese C & Nirmala Mary

Businessman (H) & Homemaker (W)  
DOJ: 31/10/2000 | Place: CALICUT

I was into building material business before joining Amway in Oct 2000. I was a big dreamer and wanted to achieve a quality life for me and family. Therefore I was into various traditional businesses, as I knew only a good business could take me close to my dreams. First I ventured out into transportation business, then to film making and then to building material business before coming into Amway.

At the time of joining Amway, I was earning a good income, equivalent to that of an Emerald in Amway business. But the project I was involved, stopped abruptly and I ended up in a huge liability. I was at a cross road as to what to do next. That was the time when one of my close friends introduced me to this wonderful opportunity. I was alert enough to understand the potential of this business and believed that this business is for me and I embraced it since then. The role of my sponsor was just to introduce me into this business.

By the grace of God, I got connected to my uplines and they helped and made me to believe that this was the opportunity I was looking for. Since then I never looked back and kept building this business with excitement. There were many occasions where my business was down due to various negativity in the market. We overcome all these with the help of my uplines, the company and my ever growing team. I qualified as Silver in Oct 2001 and attended the first A.L.S. in 2002. That changed the total picture of my business. During the A.L.S. I had the opportunity to hear the stories of many successful leaders from all over the country and from a variety of background.

My educational background is under metric. That did not stop me in any way. In fact it helped me to start learning other languages so that the business could be expanded to other places. Today I have business in all the southern states and some of the states outside the region as well.

I believe the secret of success lies in continuous, consistent and persistent action.

Today I am proud that I could achieve some of my dreams and influence a number of families and bring hope and prosperity to

them. All these years it's my mother who empowered my achievements and now I have my life partner, Nirmala Mary, to join me in my efforts in forging ahead to achieve the dreams of thousands of families and bring prosperity and happiness to them.

I am grateful to God and my wonderful uplines for giving this wonderful opportunity to me. I also thank Amway and its entire staff and my team for giving such an unmatched support in building the business.

I firmly believe that we have the mission to take this business to millions of people and give them an opportunity to grow to their fullest potential and thereby helping to realize their dream.

## Madhvi & Shekhar Choudhary

Doctor (H) & Homemaker (W)  
DOJ: 22/08/2000 | Place: JAIPUR

I am a medical doctor as well as own a trading and export house of semi-precious and precious gem stones, my wife Madhvi was a homemaker. My family believes in hard work, good education and we lead a simple life. Our upbringing was not extra ordinary. We struggled a lot in our past life. But we believe that legendry people never came from comfort zone but they do extra in their life by

doing struggles and pave the path of unmatched milestone in their life. There is big conflict between ordinary and extra ordinary. But I always want something extra ordinary in my life and for that I break through all challenges in my life and create a sense of achievement within me. For me dreams are a way where you can find yourself in a true sense, as everyone's destiny is pre-designed but we explore it and contribute to make it happen.

Earlier, I was very successful in my profession and every thing financially, socially or mentally was going on very well. We had a good state of mind and good status in society. We are four in our family; me, my wife and two children named Siddharth and Shubham. Siddharth is running his own call centre and Shubham is doing his studies well.

When I saw this business nothing attracted me as I thought this business is meant for those who are free in their life and I was updated by the negative rumors about Amway. But something happens in your life in a very distinct form and changes the whole scenario of your life. This significant moment came in our life when we joined this business and

that changed our life completely. We are privileged that we are in right business at the right time. I am very thankful to my upline who changed my opinion completely about Amway and gave direction to build this business. Now listening the word diamond before our name is really a dream come true. Why Diamond is so precious! Because the method of formation is so hard as it takes a long time to spark. In this business, Diamonds are those who completely sharpen themselves by crossing the roads of negativity and prove that things do happen.

Before doing this business, time was a big challenge for me. I devoted my quality time not for my family but to establish my clinic and export house. As this created a chaos in our family, specially with my wife, I was like a money making machine. But now I really understand the value of our time spent with my family which is the most precious asset in my life.

In the end I would like to say that Amway business made me a good husband, a good father and a good motivator. I believe that it creates a long-lasting relationship within our upline and downline. I really appreciate the enthusiasm of my downline that supported me a lot during my diamondship. Now my next dream is: I want their success in this business, which will be a great achievement of my life.

## Dr S S Manjunath & Dr V K Geetha

Veterinary Surgeon (Both)  
DOJ: 30/10/2000 | Place: THIRUVANANTHAPURAM

I belong to a middle class employee family in Trivandrum, Kerala. I always dreamt of becoming either a medical doctor like my mother or a cricket player or a film star.

Geetha was good at her studies and she too dreamt of becoming a doctor. We met at Veterinary College, Thrissur during our graduation. After fun filled college days we decided to live together, got married soon after graduation and started our career as Veterinary surgeons in government department of Animal husbandry. Initial years were really thrilling as we had good salary, professional practice and started enjoying life with weekend movies, parties, vacations and so on. Professional excellence gave me several awards and good reputation. God gave us more happiness by blessing us with a son Goutham and a daughter Gouri.

After two to three years of service life went into a rut, beautiful colors started fading, dejections and frustrations started mounting in our job and soon we could realize that we were heading towards a blunt future which we did not want. But with a hard earned degree and a decade of experience in an exclusive profession we could not find any other options. But we were not ready for compromises. I started pursuing for an MS degree in USA or to a managerial job in Middle East country. But nothing materialized. Construction of a house and purchase of a car made our financial position

worse. It was in July 2000 we got a telephone call from a colleague. We were skeptical about the business but we really loved the products. But soon our perception about Amway got changed. We could realize that this was the "thing" we were really waiting for.

We started part time just for two reasons: to earn an additional income and to quit from our job. Resistance and ridiculing from our friends couldn't stop us from quitting our dreams. When we realized that Amway could fulfill our dreams, Amway became a Need, when people started discouraging then Amway became a Challenge, when our dreams started accomplishing then Amway became an Excitement and when business started changing other people's life then Amway became a real Passion for us. We left our job and now we are really enjoying our lives with quality time with quality people and for genuine purposes. The money, security, freedom, health, loving relations, team work, personal growth & travel- everything comes as a single package through Amway. We truly believe that this business concept is a silent revolution. It is changing all traditional and conventional equations needed for success. More than land, race, inheritance, religion, intelligence, degrees, it is powerful dream; commitment and a strong work ethics which are the new equations for success. We feel proud to be a part of this movement and great opportunity.

**Saurabh Saxena**

Businessman  
DOJ: 14/09/1999 | LUCKNOW

I was a traditional businessman and it was a very stressful, hectic, unstable and in-secured life for me. I was not satisfied with my traditional lifestyle as there was no time, no peace as well as life was full of pressure and tension. When I saw the Amway business plan, the most attractive part for me in this business was the residual income. This made me really excited and was the major reason for me to join the business.

I took this opportunity as another industry for me. Although my family members and friends were not satisfied with my decision but today everything has changed. They are positive and really appreciate my decision to join the business. If we compare this business with any other traditional business, I can proudly say that it is the right opportunity where one should invest his time, efforts and energy. The kind of monetary satisfaction, time, recognition, lifestyle, moral values and security that we all desire is achievable through this business.

*This business is a candle which is better to light than cursing darkness.*

I am a civil engineer by profession. When I got introduced to Amway I was working in a construction firm. Initially, I didn't realize the potential of this business and couldn't invest time. But once I attended a meeting where I met people from various backgrounds and understood its true potential. This business opportunity had everything to offer, a financially independent life, freedom of time, recognition, rewards, a great lifestyle and above all peace of mind, without which life is just incomplete. I started building this business part time with the help and guidance of my uplines. The ethics, values and standards of this opportunity attracted me to build this business with passion and enthusiasm. One can be really successful in this business but it all depends on commitment, beliefs, sincerity, planning and action.

Presently, I am enjoying a great life style through this opportunity. I thank my parents for supporting me in my life and business. I do extend my gratitude to all my great uplines and congratulate my motivated downlines for their support.

Engineer (H) & Homemaker (W)  
DOJ: 06/02/1999 | BANGALORE

I am an Electronics Engineer from IIT Delhi and my wife has a degree in Computer Application. I joined this business as a bachelor and then married Chandrika whom I met through the business itself. After she joined me, I experienced the real joy and power of working together. After that there was no looking back for us at all!

I started this business merely to be able to send some money home, but today it forms the hub around which our lives revolve. We have been able to provide for my sister's education and marriage and help my parents financially through it. We both stand transformed and empowered with the belief that we will not only transform our lives through the riches of the money that we will earn through this business, but also through the treasure that it will provide us in terms of having friends for life.

As of today, we look forward to be able to provide the best for the two joys of our lives; our twin babies, Tanisha & Tanveer.

*Together, we both believe that this business is God's answer to all our prayers.*

At that time I was earning enough money and I was satisfied with the income. But there was no future security and definitely I didn't have time to spend with my family. First of all, I was really excited and impressed by the products. I started recommending them to my clients and I got success. After completing my platinumship, my husband joined me to build this wonderful business. We both really worked very hard to complete our Emeraldship.

Only because of this business we envision of starting an international school in Trichy. This business gave us more knowledge, confidence, power, communication skills and good leadership quality. With God's grace, we could come across this wonderful business opportunity and reach this level.

We owe our achievements to our inspiring and lovable uplines and kind and dedicated downlines and our wonderful daughters, Nandini who is 15 years old and Yamini who is 10 years old.

I am a chartered accountant, with 20 years of experience in the corporate world, 10 years as a president of a company. I had all that I wanted; career satisfaction, good lifestyle, happy family...but all at the cost of my health. Seeing the potential of the Amway business opportunity with time, money and security, through an ongoing residual income, we decided to give it a go and in a few years had earned it all. Today I am free from the business and enjoy a stress free life.

My wife is a double graduate and has worked with a public sector undertaking for 4 years as an Executive; but decided to give up a promising career for a happy family life. We have two sons. Surgeon (H) & Homemaker (W)  
DOJ: 29/08/2000 | ALLAHABAD

I was very busy with my medical practice and successfully running a nursing home, when I was shown Amway business plan. I had no reason to build this business, that is what I thought at that time of joining, because I worked for about 12-14 hours per day and had a very good income. Nevertheless, we joined as we could not say no to our surgeon friend and also because I thought it might help him financially. Later on, I realized that actually it was my friend who was trying to help me by giving us this opportunity of financial freedom. And then we started working seriously on this and today many important things in our lives have changed. I am lot more tension-free in my practice of surgery and running the nursing home. We are quite confident of giving our family a secured financial future and it is very satisfying to work in the area of wellness after spending so many years of my professional life in the field of illness. Today we feel grateful to our friend who sponsored us in this business and our uplines and all those who helped us in reaching this level.

**Vidhya & Mathew Jeremiah Kuruvilla**

Homemaker (W) & Computer Professional (H)  
DOJ: 02/05/1998 | COIMBATORE

I got into this business as a final-year engineering student. No experience, no business background but just a simple student, from a typical middle-class Indian home. My uncle from the USA showed me this opportunity. Though I was skeptical about this in the beginning, but when I studied the plan thoroughly my perspective changed. I knew that this was the business for the future and I had the potential to build it. Initially, I faced lot of criticism and rejection. Many of my friends and family thought that I had made a wrong decision that had put a big question mark to my career. But by working hard, I proved them wrong.

I built it alone till the platinum level. Vidhya joined me 2 years back and she actively supports me in building this business. She believes in the quality of the Amway products. They are truly world-class and yet "value for money". Though she had no prior knowledge of this business, she quickly realized that this business was the only option to turn our dreams into reality.

We thank God for enabling us to understand this business.

*Life is so beautiful & to be enjoyed....Just say "yes" to your potential & keep moving forward.*

**Vinod & Roma Whabi**

Businessman (H) & Homemaker (W)  
DOJ: 07/05/1998 | MUMBAI

Roma was a homemaker and I am a businessman dealing with the oil and gas. We were already in the top income bracket even before the Amway business. We were rich but not wealthy and were leading a life of ignorance. We were very busy, earning money and losing time, with no family bonding. We saw Amway business in the right perspective and caught on to the big dream, from our awesome uplines. Today we have a sense of security and a vision for future growth, unlike any other business. Today we are creating wealth.

This business has helped us achieve our mission in life which is to create security for our family. We have seen full wells run dry; and hence Roma and I wanted to have a diversified and ongoing income to enhance our lifestyle now and during our golden years of life. We want to be self sufficient, lead an example for our children and make our parents proud. Roma always dreamt of leaving a legacy for our children, which this business provides in the form of residual income.

I am a businessman and Chetna is a homemaker. We are blessed with two children, Riddhi & Digant. We came across this business at the stage when we had enough money but no time for each other and for our family members. Initially we didn't pay much attention to it as we hardly realized it's true potential. We had our first platinum in depth in first year of our Amway business and that was the time we realized the difference between traditional business and Amway. We started investing our time consistently and persistently and that led us to Emerald Level.

The ethics, transparency, teamwork and morals attached to this business have motivated us to move forward and be focused in life. Amway is the only opportunity that provides financial security, social recognition, better lifestyle, personality development, exotic tours and ongoing income under single umbrella.

We are grateful to our awesome uplines who led us all the way. We are also very proud of our highly ambitious team and appreciate the support given. We are proud of the support given by our every family member to build this business.

DOJ: 15/06/2000 | CHERTHALA

When we joined Amway I was working in a Co-operative bank, and Raji was a homemaker. We are proud parents of two children, Meenakshi and Adithya Padman. I was born and brought up in a business family but I had to withdraw from our family business at its peak time. Thus I had to join a job in the bank. Slowly I realized that being in the job I may never get back to my old life style. By the time, a colleague of mine introduced Amway to me. A ray of hope developed within me and with the help and support of my uplines we could build up a constantly growing business, some wonderful happy relationships, amazing friendships, inexplicable personal development and definitely the kind of lifestyle I was looking for.

When I started to know what life is, a desire also developed within me that I should always enjoy whatever I do in life for living. I am now more than assured that as long as one is in this great business, life becomes a celebration every moment. We build this business and greatly enjoy the rewards of this business at every level.

At the same time one of my friends unfolded unique Amway opportunity to me. I decided in favour of the business, convinced that this business can help me to live in a specific way at my own terms. **Raghunath & Nancy Acharya**

Ex-IAF (H) & Ex-Teacher (W)  
DOJ: 30/11/1998 | PUNE

I am an engineer having a master's degree in management sciences and my wife was a teacher. In Indian Air Force I served the Nation for 13 years. I also had a brief stint in fashion modeling and I walked the ramp in Delhi. During a course in Pune, I was introduced to this wonderful Amway business that realized our dreams and led us to help people achieve their dreams. Our daughter, Ritika is a driving force and a great inspiration to us, to reach highest pins in Amway.

Amway business has helped us to be free from jobs at a very early age and bestowed a great life style. This was possible with continuous mentorship from uplines and great commitment of our team.

*We strongly believe that Amway is for common people to fulfill their uncommon dreams.*

Businessman (H) & Businesswoman (W)  
DOJ: 17/07/1998 | SOLAPUR

Since last 25 years, we are having a prestigious electronics showroom based in Solapur. We never thought of doing anything else as we were under the impression that our life is well settled. But when we got this great Amway business opportunity, we were completely convinced by the revolutionary concept of time compounding income, achieved by spending time with our loved ones.

We are pleased to fulfill the dreams of thousands of people while achieving our dreams. We thank God, Amway, our great uplines, our tiger team and our three sons for this achievement.

This wonderful business opportunity is a great package of financial security, freedom of time, fame, recognition, a great lifestyle and tension free healthy life.

*Just do it and never quit.*

**Manoj K & Chandra Prabha Sthapak**

Medical Shopkeeper (H) & Homemaker (W)  
DOJ: 25/11/1999 | DEWAS

I was having a medical shop since last 13 years. My wife is a homemaker and we are blessed with two children, Nishtha and Hardik. I wanted to have enough money for my family's secured future, but in traditional business, there was neither time nor money. Initially, I was building Amway business on a part time basis. Now I am its permanent member and I love every second spent on it.

It was the association of good people and a scope of ongoing unlimited income that attracted us.

We are thankful to God, our uplines and our entire family, including my brothers for their moral support. Our message is – Decide you goal, make you action plan, use your common sense, use the products and care for the people.

*Failure proves that efforts for success are not done whole heartedly.*

Ex-Banker (H) & Insurance Job (W)  
DOJ: 29/12/2001 | INDORE

My wife serves in insurance sector and I use to work in a commercial bank for quiet a long period of time as a branch manager. Since it was a transferable job I always felt that my life is controlled by others. I also felt that there will always be limitations of growth in job. I resigned from the job and ventured into a new generation business which turned out to be a financial disaster. At this critical juncture Amway Opportunity was shown to us by our sponsors. Thanks to them and to this fabulous opportunity our derailed life is back on tracks. With the guidance of our uplines, we are now helping many other families to achieve their dreams. We firmly believe that if any person has belief in God, in himself and is willing to work, this business will change the life in positive direction, as this business is a complete package where whatever you want you will get it whether it is time, money, stress-free life, passive income or travelling abroad in style.

*Amway business gives opportunity to redesign the life.*

**Asiya Rahmath**

Amway Business Owner (Both)  
DOJ: 20/08/1999 | BILASPUR

We are thankful to God for giving us this business opportunity. This business is a leadership examination. My husband was an employee of SECL, where he worked for 16 years.

Today we feel that we are not working in Amway but we are the partner in Amway business. Amway business is built on principles and values, which attracts us towards it the most. The best part about this opportunity is that we, in this business, help other people reach their goals and we reach our goal automatically.

Amway business is a brilliant science of building new relationships and developing human potential. Our success is the result of better team work. We thank everyone, the Amway staff, our mentors and all my downlines for making us taste this sweet nectar of success.

*Work hard. Nothing is impossible.*

When we came in contact with Amway, our entire life was transformed. As the quote 'be good & do well ', we guide every person we meet for a better living and request them to do so. We are now proud to say that we are amidst a great positive crowd of good hearts and intellects moving in systemic way, learning and delivering the same to pave a bright and prosperous future thus building a better nation.

The wonderful world class products, financial security, recognition, rewards, foreign travels with entire family, association of wonderful people, give us positive mental attitude and excitement. The secret of success here is team work.

We are praying God to give us energy and long life to serve people through Amway opportunity. Today, we thank God, our uplines and downlines for their unstinted support.

## CREATING CHANGE through leadership.

It takes vision, perseverance and a great deal of hard work to be an effective leader. Rich DeVos and Jay Van Andel knew it five decades ago — and today, Doug DeVos and Steve Van Andel carry the torch of leadership for Amway. That same desire to lead is what motivates our more than three million Business Owner partners in 80 countries and territories around the world. It's all part of the entrepreneurial spirit that has helped Amway grow into a global leader in the direct sales industry.

**The mega celebration in the history of Amway India was witnessed at the ALS 2008 where the smiling faces of the leaders, the oozing confidence of achievers and frolicking families was a pleasant picture.**

**The Phuket island was completely overwhelmed by the sheer size of our group which was touching the milestone figure of 3000 paxes. The group was wowed by the exceptional hospitality and best of the best cuisine at the Hotel Hilton Arcadia as well as Hotel Movenpick.**

**Recognition of new Diamonds & above pins during the Business session was extremely motivating and inspired everybody to achieve higher levels. The exceptional success stories of leaders made exceptional learning experience for all.**

**Everyone got into a carnival mood at FantaSea, one of the world's top theme parks. All the children along with their parents had an excellent time whilst enjoying the fascinating show and mouth watering food.**

**The most memorable event ended with a bang by the scintillating performance by Abbey on the Farewell Night.**

**The "never-say-die" spirit of our Leaders was fully portrayed when they turned the rain drenched Go-Crown into the most exciting and entertaining event ever imagined.**

*See you in Penang!!!*

A NATURAL ADVANTAGE FOR HEALTHY HEART

These two months saw White Cane Day celebrations at several locations across the country, as well as the launch of Project Sunrise, AOF's new project, on and around Children's Day 2008. While the former is in continuation of the National Project for the Blind, the latter could be termed the National Project for Children!

AOF has celebrated White Cane Day over the past 9 years. This year, we supported this event at Delhi, Patna, Pune, Surat, Ahmedabad, Bhopal, Baroda, Mumbai, Amravati, Kochi, Trivandrum, Jaipur, Jodhpur, Dehradun & Ludhiana. Chief Minister of Delhi, Ms Sheila Dixit, was kind enough to distribute the canes on behalf of AOF at her residence (with elections around the corner, it was a task just to get her time).

As most would know 2009 is a significant year in the Amway family as the Amway Corporation, celebrates its 50th anniversary. To commemorate this momentous occasion, AOF had taken a decision to disburse US \$ 5 million to the One By One campaign for children, worldwide. AOF and its work, falls under the ambit of the One By One campaign.

You would be happy to note that AOF has been allocated some funds, and this will be used in Project Sunrise.

At each of our 52 locations where we have AOF Local Implementation Committees (LICs), an orphanage or institution for challenged children is identified, and we then extend the support to them. With clean drinking water as a focal point of this project, health, education and nutrition are areas where Project Sunrise will concentrate on. ABO voluntarism is encouraged at all these 52 locations and we will encourage all of you to lend support here.

So far, we have started work with 15 institutions, and we thank all of you who have volunteered your time at these institutions. From reports coming in, this work has touched all volunteers, who have pledged to do more. A sample of the commencement of the Project -

Ludhiana - partner is Muskaan, where we have donated water purifier and cooler, a speech station, wrist rotator. Kolkata - partner Pathchala, an NGO working for the underprivileged children living in slum areas of Kalighat. Here, AOF has set up a vocational cum entertainment zone at Pathchala, as well as the annual education cost for 50 Pathchala children. Dimapur - partner Ebenezer Orphanage Home. AOF presented a vocational cum entertainment zone equipped with computers, printer and video games to the Home. Ghaziabad - partner is Rashtriya Samaj Avam Dharmarth Seva Sanathan. Chennai - Jeroham Children's Home. Silchar - Ujeebon Society. Patna - Bihar Netraheen Parishad. Gurgaon - Deepashram. Panaji - Deepashram. Navi Mumbai - Swami Brahmanand Pratishthan. Bangalore - Soujanya Sevashram.

We will update you with greater details about the Project as this unfurls across India!

Other work in these two months included, Eye camps at Delhi, donations Kohima, Ranchi, Ludhiana & Jalandhar and health check up camps at Siliguri, Asansol & Kolkata.
