Class Descriptions

Touch for Health Level I

Learn the basics of TFH for both lay-people and professionals. You will learn the muscle tests for the primary 14 meridians and the standard 'fix-as-you-go' techniques for balancing the body's energies.

Touch for Health Level II

Learn 14 new muscles and more balancing techniques and theory. Includes Circuit Locating, Alarm Points, Meridian Wheel/Time of Day Balance and the Law of Five Elements as well as several self-balancing techniques.

Touch for Health Level III

Learn 14 new muscles. Techniques for dealing with chronic and recent pain are introduced along with deeper understanding of the Five Elements theory. Interactive muscles and Circuit Retaining Mode techniques covered.

Touch for Health Level IV

Learn to balance all 42 muscles in a standing or prone position. Balance using Five Element emotions, sound, Luo Points, Postural Stress Release and Tibetan Figure Eight Energies. 'Put it all together' in this course.

eTouch for Health Software Hands on

eTouch automates the techniques of *Touch for Health*. Hands-on workshops present the basics of the software. Through class exercises you will gain valuable experience with most of the features of the software. Evening classes are taught in conjunction with TFH classes and give an abbreviated entry into the software while the full day classes examine more topics.

For more information on classes and *eTouch for Health*, please visit our website: www.etchforhealth.com

eTouch for Health is used in all TFH classes taught by us.
