Hello friends,

With 2015 fresh upon us, we decided to change things up a little in our newsletter. Instead of using this section for me to share what I've been up to lately, we are going to open it up to our staff as well so you can get to know us all better! We'll share our biographies and keep you informed on what we're doing in the community. I'll get the ball rolling with a little bit about me.

Born and raised in  
 Whatcom County,  
 I see contributing  
 to our wonderful  
 community as my  
 most important

mission as an insurance agent and citizen. I am involved in Lions Club International and am a member of the Foothills, Sumas and Everson Chambers of Commerce. I also enjoy serving our community as a volunteer firefighter. For the past 25 years I've been a part of Whatcom County Fire District #1 in Everson. Even after so many years, my greatest passion continues to be providing for our families, friends and community through volunteering.

When I'm not at the insurance agency or volunteering in the community I can be found enjoying the great outdoors. I'm an avid skier and love spending time on Mount Baker. In the warmer parts of the year, I enjoy hiking, especially if I have my big brown dog, Jack, for company. Regardless of the season, you can find me outside and having fun in our beautiful county.

As your insurance agent, I believe that looking out for your interest is my primary job. At the end of the day, what matters most to us at Kelley Insurance is protecting what is important for you.

Stay tuned for another employee biography in our next newsletter!

Thanks a million!

Tony

## Find the fun in exercise

**Choosing activities or sports you have fun doing is a key to getting—and keeping—yourself moving.**

-Think back to your childhood and the activities that brought you joy. Were they team sports? An athletic goal that you worked toward achieving? Socializing with friends while you walked or cycled?

-Follow your heart and interests in choosing physical activities now. Join a softball team, sign up to participate in a triathlon, form a walking or cycling group.

-Consider your fitness level and physical limitations. Start a new activity gently and work your way up to greater frequency and duration. If you've been injured in the past, you may need to put some extra effort into preparing your body. But if you really want to do something, shoot for that goal. Chances are you can achieve it if you keep working your way toward your end target.
