I would like my child to be assessed for a sports scholarship as specified below:

General sports scholarship

Specific sport(s) scholarship for \_\_\_\_\_

**Assessment Procedure for General Sports Scholarship**

General Sports Scholarship assessments are held during the Autumn term for Year 6 applicants. All assessment activities are organised by the Director of Sport, Health & Recreation with appropriate staff and coaches present at all sessions.

Assessment activities for the General Sports Scholarship Assessment process lasts between 2 and 3 hours during which time each child will work alone and alongside other candidates on a variety of sports related tasks.

Given the wide range of sporting experiences and skills that many candidates bring to our assessment sessions this programme is designed in such a way so as not to be directly specific to any one sport. Whilst a particular sporting activity may be used to facilitate the assessment process, all activities are carefully structured to identify and assess the main qualities and components within health and skill related exercise considered essential when performing at a high level across most major sports irrespective of prior knowledge or experience.

Our General Sports Scholarship assessment process is divided into five main activity areas as follows:

Activity 1: Activity including rhythm, co-ordination and flexibility assessment tasks.

Activity 2: Coached activities and drills evaluating responses to coaching for sporting potential, motivation, team work, information processing and application of skills.

- Activity 3: Individual and group activities measuring hand-eye co-ordination, reaction time, speed, concentration, information processing, listening skills and working within a team.
- Activity 4: Fitness tests measuring stamina, power, agility, reaction-time, flexibility & speed.
- Activity 5: Online sporting aptitude test including assessment of leadership skills.

**Assessment Procedures for the Specific Sports Scholarship**

At Kingsdale Foundation School we attract a high level of applicants with varying levels of prior sporting experiences and achievements. Some applicants will already be performing at district, county or national level and it is for this purpose that we provide such candidates with the opportunity to participate in an assessment specific to their specialist sport so that they can be assessed at the required level in line with the criteria for other applicants. Please be advised that it is our experience that many applicants selecting this route may already be performing at an extremely high level and applicants opting for these pathway should expect to be assessed accordingly.

Please note that the first aspect of the Specific Sports Scholarship Assessment process will be the same as it is for the General Sports Scholarship assessment but applicants will also be required to be assessed further, which may require an additional appointment. This supplementary examination of aptitude will be led by a specialist in the selected sporting discipline with all drills and activities designed to be specific to the applicants chosen sport.

**Please be informed that in order to achieve a Specific Sports Scholarship standard, applicants are required to achieve a minimum of Half Scholarship Standard with respect to the General Sports Assessment criteria and full Scholarship Standard with respect to the Specific Scholarship Standard criteria.**

\*6. Please indicate whether or not you believe your child will require an individual assessment or an assessment by a qualified specialist?

Yes

No

\*If your answer to the above question is YES, then please explain why you believe specialist arrangements need to be made for the assessment of your child.
