

lunenburg pto request for funding

Application Must Be Typed and Submitted By Email

Please complete this form and email it to [President@LunenburgPTO.org](mailto:President@LunenburgPTO.org)  
Submissions must be made electronically.

Deadline is Sunday, November 25th

Attendance at the December 10th PTO Meeting is required for your submission to be considered (at least one team member if a team is involved)

Applicant Information

Applicant Name Sandra Laserte

School THMS

Position P.E. Teacher

Contact Phone Number [978-582-4110](tel:978-582-4110) ext 517

Project Information

Project Title: Lunenburg's Winter Wonderland Amount Requested \$600  
Project Start/End Dates: as soon as possible/ reuse each winter

1. Project Description: Summarize the proposed project in the space provided. Describe who is the target audience; what will happen; when and where it will occur; and how the project will be executed. NOTE: You may provide additional narrative on a separate sheet of paper, but you must summarize the project here. Your answer in the space below may not exceed 750 characters. This project is a collaborative effort with Lunenburg High School. It is our intent to create two ice skating rinks on the "football field". These rinks (27' X 68') would allow students in PE classes, after school and community members to enjoy one of the great aspects of winter - skating. With two rinks one can be designated for hockey or a game while the other may be used for figure skating or learning to skate.

2. Describe the planning process for this project. What individuals and organizations have been involved as partners and/or advisors? How would partial funding impact this project? Your answer in the space below may not exceed 500 characters. Mr. Bob Truax has an extensive plan using high school students to maintain the facility as well as enjoy it. Permission was granted by the Superintendent and School Committee last year however it was too late in the year for ice. If this project was partially funded we would opt for one rink or two smaller ones.

3. Explain how this project will reach and benefit the students of your school. How will you know the project is successful? Your answer in the space below may not exceed 500 characters. For many years THMS has gone to Marshall Pond when available. The proximity and ice conditions were an obstacle. This facility would allow us the get students outdoors in the winter months and enjoy a lifelong recreation.

Sandra R. Laserte

P.E. Teacher 11/23/12
