To be completed by school/district personnel:

FL Student ID:

FL Student ID Alias:

(Must be exactly 10 digits, also known as Student Number Identifier, Florida)

--	--

Student Number Identifier, Florida: A ten-character code used to uniquely identify a student. The Alias is the first Student Number every assigned and is used for longitudinal studies. The number must be maintained for all PK-12 students, adult general education students and postsecondary career and technical education students. If the student provides a social security number, the Student Number Identifier, Florida equals the social security number followed by an "X." If a student does not provide a social security number, the school district should assign a number using the common method statewide. For any student entering a Florida school district for the first time who does not have a social security number, the first two digits will represent the district of initial entry into the Florida school system. The last eight digits are district-defined in such a way as to result in a unique student number within the district where the number is originally assigned. If a student does not provide a social security number at the time of entry, but later provides a social security number, the district must update the Student Number Identifier, Florida with the verified social security number.

Code Definition/Example

- 123456789X The student's social security number (123-45-6789) followed by an X is the student's identifier number.
- 2610124677 The student did not provide a social security number and was assigned an identifier number by Hendry County, the district of initial entry into a Florida public school for this student.
