Note 1-Summary of Significant Accounting Policies

The financial statements of Star Casualty Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Florida Department of Financial Services. The Florida Department of Financial Services recognizes only statutory accounting practices prescribed or permitted by the state of Florida for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Florida Insurance Law. The National Association of Insurance Commissioners (the "NAIC") Accounting Practices and Procedures Manual version effective January 1, 2001 ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Florida. The Commissioner of Insurance has the right to permit specific practices, which may deviate from prescribed practices. Assets values are generally stated as follows: Investments securities, which consist primarily of US government and corporate obligations, are stated at amortized cost. Amortization of premiums and accretion of discounts are recognized using the constant yield interest method. Realized losses on investments securities are charged to unassigned surplus (deficit). Realized gains and losses are computed using the specific indication method. Depreciation of electronic data processing equipment is computed by the straight-line method over three years. Land, Buildings and improvements are recorded at cost. Depreciation on building and improvements is computed by the straight line method over the estimated useful lives. Maintenance and repairs are charged to operations as incurred. Premiums are earned over the terms of the related insurance polices. Unearned premium reserves are established to cover the unexpired portion of premiums written. Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as asles commissions, are charged to operations as incurred. Reinsurance recoverables are estimates of paid and unpaid losses colle

Note 2- Accounting Changes and Corrections of Errors

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Florida. Effective January 1, 2001, the State of Florida required that insurance companies domiciled in the State of Florida prepare their statutory basis financial statements in accordance with the NAIC Accounting Practices and Procedures Manual-Version effective January 1, 2001 subject to any deviation prescribed or permitted by the State of Florida Insurance Commissioner. Accounting changes adopted to conform to the provisions of the NAIC Accounting Practices and Procedures Manual-Version effective January 1, 2001 are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment of unassigned funds (surplus) in the period of the change in accounting principle. The cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been applied retroactively for all prior periods. As a result of these changes, the Company reported in 2001, a change of accounting principles as an adjustment, which increased unassigned funds, of \$513 as of January 1, 2001.

Note 3- Business Combinations and Goodwill
