

The WRITE Camp for You!

The WRITE Camp is a summer program for rising eighth grade students who are wanting to improve and enhance their writing abilities. The goal of the program is to develop our talented youth by providing them the necessary skills needed to excel on the 8th grade writing test. This program is designed especially for students entering the eighth grade who want to prepare for their upcoming school year and for the academic experiences that lie ahead in high school. Students attending the WRITE camp share a common desire of improving their writing skills, strengthening their educational background, and having fun.

For the young man or woman struggling to find the writer within themselves, or for the one who wants to learn how to thoroughly develop a topic with stylish details and examples while managing their time, the WRITE Camp is the perfect summer experience. The camp offers small class sizes for more individualized teacher attention and expanded classroom participation.

At the WRITE Camp, our goal is to provide each camper with an unforgettable experience. The session is one week long and packed full of fun writing activities, including the use of computer labs. Group activities, classroom instruction, and independent practice are combined for a very exciting week of learning.
