The following credits can be carried forward to subsequent tax years if your current tax liability is less than the sum of your credits. Visit *TaxColorado.com* for limitations that are specific to each credit. To report this properly, use the first column to report the total credit that is available (the amount generated this year plus any prior-year carryforward). Then, use the second column to report the amount you are using this year to offset your tax liability. The difference should be reported on line X, which is your subsequent carryforward amount.
