Vendor Question and Answer Document RFP #08ITZ0062

- 1. Q. Does the State envision a single consultant or a team of consultants performing this scope of work?
 - **A.** The scope of the RFP may be performed by a consulting company, a team of consultants, or an independent consultant.
- 2. Q. Is the successful bidder on RFP 08ITZ0062 barred from bidding on a subsequent CJIS implementation RFP?
 - A. Yes.
- 3. Q. Page 6 refers to the consultant role with regard to vendor responses "must ensure that vendors responding to the RFP adhere to sound architectural principles...." Does the State anticipate that the consultant will assist in review of proposals that are received in response to the RFP?
 - A. The consultant may assist in the review of proposals for the RFP for CJIS implementation. However, that consultant may not participate in subsequent RFP contract negotiations and may not direct or advise CJIS implementation RFP bidders before the contract award.
- 4. Q. Is there a date or timeframe by which the resultant RFP must be published?
 - **A.** The project plan that is a required part of the RFP response must be sufficiently detailed that the proposed date for issuance of the implementation RFP is justified.
- 5. Q. Page 5 references "a comprehensive 2007 review providing a basis for understanding key decision points in the criminal just process and critical information needs at those points." Please describe the status of the review, and if it has been completed any documentation of results.
- 6. Q. Page 7 notes that OBTS "meets some of the requirements of Public Act 08-01." Please describe which requirements of the Act it currently satisfies.

A. The CJIS Requirements of Public Act 08-01 Section 40 are met as follows:

1.1	The cold requirements of rustic field of of Section to are met as follows.
Section 40	
(a) [1]	OBTS is the CJIS central tracking and information database but
	only for offenders
(b) [2]	There is no central electronic CJIS data repository and no state
	implemented and hosted enterprise content/document
	management solution that can be reused

(b) [3]	Centralized analytical tools are supported for selected CJIS data queries. But, there is no implementation of CJIS end-user adhoc
	reporting. Whether CJIS end-user ad hoc reporting can be implemented in OBTS cannot be determined at this time.
(c)(1)[1]	OBTS contains some biographical information for all current
	and for some former offenders. The CJIS Data Dictionary can
	be consulted to determine what offender subject data items are
	included in OBTS. There are former offenders for whom no
	history is in OBTS because there was none in the source systems
	or it was not captured for the initial load.
(c)(1)[2]	OBTS contains some vital statistics for all current and for some
. , , , , , , , , , , , , , , , , , , ,	former offenders. The CJIS Data Dictionary can be consulted to
	determine what offender subject data items are included in
	OBTS. There are former offenders for whom no history is in
	OBTS because there is none in the source systems or it was not
	captured for the initial load.
(c)(2)[1]	OBTS has tracking information for all offenders and for some
	former offenders from arrest through release. However, there is
	no tracking information for any offenders from investigations
	through arraignment.
(c)(2)[2]	There is no CJIS integration of electronic monitoring, GPS, or
	most offender registries with OBTS. However, Judicial POR is
	integrated with OBTS.
(d) (1) [1]	OBTS does not provide access to state and local police reports.
(d) (1) [3]	OBTS does not provide pre-sentence investigations and reports
(d) (1) [4]	OBTS does not provide access to psychological and medical
	reports
(d) (1) [5]	OBTS does provide electronic access to all stored electronic
(1) (1) 567	criminal records
(d) (1) [6]	OBTS does provide electronic access to all stored electronic
(1) (1) [7]	incarceration and parole records.
(d) (1) [7]	OBTS does provide electronic access to electronic court records,
(1) (2) [1]	but does not provide access to transcripts.
(d) (2) [1[OBTS does not provide access to scanning and processing
	facilities to ensure records or documents are integrated into the
(a) (1)	system and updated immediately. Controlized analytical tools are supported for selected CUS data.
(e) (1)	Centralized analytical tools are supported for selected CJIS data queries. But, there is no implementation of CJIS end-user adhoc
	reporting. Whether CJIS end-user ad hoc reporting can be
	implemented in OBTS cannot be determined at this time.
(e) (1) [2]	No online analytical processing tools have been implemented to
(e) (1) [2]	support end-user adhoc reporting against OBTS data,
	transactional or schematized for decision support. However, a
	CJIS ETL platform was implemented in 2002-2003 but never
	tested.
(e) (1) [3]	No online analytical processing tools have been implemented to
	support end-user adhoc reporting against OBTS data,
	transactional or schematized for decision support. However, a
	CJIS ETL platform was implemented in 2002-2003 but never
	tested.
(e) (3) [4]	CJIS collaborative functionality can be assessed with regard to
(C) (J) [T]	C515 conaborative functionality can be assessed with regard to

	the following technical services: messaging, workflow,
	document sharing, and data sharing. With regard to messaging:
	OBTS implemented a notification (alert) function but it was
	never activated and the data exchanges (or contracted interfaces)
	with receiving applications were never developed. With regard
	to workflow: Chief State's Attorney, DOC/Board of Pardons and
	Parole, and Judicial Probation (CMIS) all require case
	management systems that are all in various stages of
	development and at different SDM milestones. With regard to
	document sharing: the Judicial Electronic Bridge (JEB) supports
	document sharing between Judicial and DOC/Board of Pardons
	and Paroles and between Judicial and local and state law
	enforcement and Connecticut-based Federal law enforcement.
	With regard to data sharing: FTP (file-transfer-protocol) services
	are a common state-wide mechanism for sharing files, extracted
	from source systems, between branches of government, among
	agencies within a branch, and among applications within an
	agency.
(f) [1]	The OBTS platform is state-of-the-art Oracle relational database
	and supporting hardware and software.
(f) [2]	OBTS is accessible throughout the state's Intranet. OBTS is not
	accessible through the public Internet.
(f) [3]	OBTS is not completely integrated with state police, organized
	local police departments, law enforcement and their information
	systems and databases. The extent to which there is CJIS
	integration is unable to be determined at this time.
(f) [4]	All OBTS data is indexed. However, the CJIS Data Dictionary
	should be consulted to determine what data those are.
(f) [5]	All OBTS text data is fully searchable, but that capability has
	not been implemented for end-users
(f) [6]	Access to OBTS data is secure and protected by high-level
	security and controls. However, a comprehensive disaster
(0.5=7	recovery risk assessment has not been conducted for OBTS.
(f) [7]	OBTS is not accessible to the public. However, the agencies
	with the source systems provide some level of public access at
(2.50)	their level.
(f) [8]	OBTS is monitored and administered by the CJIS Governing
	Board, with assistance from DoIT, and major software and
	hardware needs are provided and serviced by private, third-party
	vendors.

- 7. Q. Page 5 states "The consultant must structure the RFP appropriately to ensure that a vendor's ability to meet the RFP requirements can be assessed fairly and objectively by qualified state personnel, that a duly authorized State of Connecticut contract can result from the competitive bid, and that the feasibility of a system meeting the requirements of Public Act 08-01 can be demonstrated on site within six (6) months of the award of the contract." Does this mean an assessment must be completed within six months of a vendor wining this RFP or within six months awarding a contract for system development?
 - A. As the RFP indicates in the Intermediate Deliverables, an assessment must be completed before the RFP, indicated as the Final Deliverable, is issued. After the RFP is issued, if any contract

award results, the feasibility of a system meeting the requirements of Public Act 08-01 must be demonstrable within six months after the contract award.

- 8. Q. On page 6, in Section #1 regarding the "As Is" Logical Model, the RFP states the following: "...Modeling internal business processes within an agency, board, or commission is not within the scope for this assignment, except whether the contributing agency, board, or commission does not have defined internal processes, and where defining them is necessary to complete the global Connecticut criminal justice process business analysis." Can the State elaborate on which of the contributing agency, boards, or commissions that do not currently have defined internal business process?
 - A. This will affect scope, time, and cost of that effort. For estimating purposes, bidders should assume that all agencies, boards, and commissions have defined their internal business processes. However, in some cases, such as local law enforcement online booking and DCJ case management, the internal business processes are not automated, or not fully so. As a result, current business processes may be subject to change the "to be" and the "as is" may be different as a result of the process streamlining that automation can bring. For the global criminal justice business process that spans CJIS-impacted branches, agencies, boards, and commissions, bidders should assume for estimating purposes that none of the "handshakes," the inter-agency or inter-application exchanges of data are defined, constructed, and implemented, except those directly related to currently implemented OBTS application interfaces, shown on the OBTS Architecture Diagram.
- 9. Q. Please clarify the level of detail required for the Intermediate Deliverables section; is the State seeking a high-level response, or a very detailed analysis of existing systems, gaps, and levels of effort estimates?
 - A. Two measures for the required level of detail are provided. With regard to the Final Deliverable of a CJIS Implementation RFP, the Intermediate Deliverables must suffice to issue a CJIS Implementation RFP to which a vendor can respond by citing applicable industry product and public technical standards and by describing or illustrating the behavior of the proposed application, suite, or services, including their integration with existing Connecticut CJIS applications. With regard to the Intermediate Deliverables, the logical (or conceptual) "As Is" and "To Be" business models must define inter-agency (or branch or board or commission) data exchanges at the level of data dictionary entries, known as data "items", and must define needed inter-agency business processes at the level of a data flow Context Diagram (or other process decomposition method) for the subject agency. To ensure that "bundles" of data involved in a high-level data exchange can be produced as required, they may need to be reconciled at the data item level. This may require that the processing represented by the context diagram for the subject agency be further decomposed by several levels.
- 10. Q. On page 7, part f in Section #3 regarding the CJIS Current and Legacy Applications
 Assessment, the RFP states that the "current state" of the application following:
 "Application performance metrics, including end-user response times, database query response times, transaction processing throughput, and network latency." Is your desire to have the responding consultant measure that information or rely on current agency staff to provide that information?
 - As with question #1, it goes to our estimates of time regarding meetings with and access to individual agency, board, or commission workflow and systems. In most cases, it is expected that larger, decentralized agencies have the information requested. In cases where the centralized IT organization, Judicial IT or Executive DoIT, hosts the applications, the

information, such as mainframe transaction processing throughput, may be available only from the centralized IT organization, as is the case for the state's WAN (Wide-Area Network). In some cases, a request for monitoring information may constitute unplanned work or hardware and software tool procurements for a branch or agency. The vendor is advised to prepare a contingency plan for this eventuality.

- 11. Q. With regard to #3 CJIS Current & Legacy Applications Assessment, please indicate the agencies and legacy systems that will be involved.
 - **A.** Please review the attachment given in the RFP referred to as the CJIS Program Organizational Chart.
- 12. Q. With regard to #3 CJIS Current & Legacy Applications Assessment, please indicate the agency personnel that will be available to work with the vendor on the assessment.
 - **A.** Available personnel can be identified through the CJIS Implementation Group, a communications forum that meets monthly in which most CJIS branches, agencies, boards, and commissions participate. Where necessary, issues of representation and access can be brought to the CJIS Executive Director for resolution.
- 13. Q. With regard to #3 CJIS Current & Legacy Applications Assessment, please indicate the availability, existence, and accessibility to documentation for existing systems and processes for each agency.
 - A. Bidders should assume that documentation is available for all existing automated systems, in production or development, but that more than half (26/45) of such systems shown on the CJIS Program Organizational Chart have documentation that is very old and in unpredictable formats that is not suitable for code analysis or restructuring tools. Bidders should also assume that no documentation is available for current or proposed business processes for that agency.
- 14. Q. Are the required four professional references for each key team member or for the company submitting the proposal?
 - **A.** The four professional references are required for responding companies, which must provide resumes, and for any independent consultants.
- 15. Q. The RFP asks for a rate and an estimate of hours in the Cost Proposal. Is one rate required for the entire project team, or is a schedule of rates and hours for the project team members acceptable?
 - **A.** A schedule of rates and hours for project team members is acceptable, and is preferred if the project roles and accountability vary significantly. For example, breaking out rates for a project manager, an enterprise architect, and a programmer would be preferred.
- 16. Q. The RFP asks for a rate and an estimate of hours in the Cost Proposal. Is the rate to include project-related expenses, or are expenses addressed otherwise?
 - **A.** Indirect project expenses, such as specialized productivity tools and travel, should be broken out from direct labor rates.

- 17. Q. The RFP implies that a repository solution is expected. Does the State expect to extend the OBTS repository as the complete CJIS solution?
 - A. The RFP implies that a repository has been developed with functionality outstanding. The State seeks the most public-outcomes effective, as well as the most cost-effective, CJIS solution(s). It is highly unlikely that scrapping most current CJIS contributing systems, including the OBTS repository, would be cost-effective compared to alternative options for fulfilling the CJIS vision.
- 18. Q. On page 7, item (4i) indicates that requirements must include new standards for information exchange. Does this mean that the contractor will identify requirements for individual information exchanges, or that the contractor will be responsible for developing those standards as well? For instance, will the contractor identify requirements for submission of incident reports by local law enforcement to the repository, or will the contractor also be required to develop NIEM IEPDs for those exchanges as well?
 - A. The consultant must identify requirements for applicable standards and individual information exchanges. However, the consultant will not be responsible for developing standards, interfaces, or data exchanges, except if that is the most effective way to document data definitions developed as part of the Intermediate Deliverables.
- 19. Q. With all items (4g-4n) on page 7, is the RFP 08ITZ0062 contractor required to develop the items described here (such as a complete business and technical architecture, detailed list of modifications to current systems/environment, etc.) or just write the RFP for the follow-on contractor to develop these items in detail?
 - A. As the RFP states on page 7, the successful bidder must identify the resource requirements outlined in (g) through (n) that together are necessary and sufficient for closing all gaps identified in the CJIS Applications Assessment.
- 20. Q. Section I, Item 7, page 11, seems to indicate the State will discount CJIS design/implementation projects that are in progress now (since there has been no "independent post-implementation review"). Is this correct?
 - **A.** No prior CJIS experience is discounted. Rather, the scoring criteria for the RFP responses include "transferability of experience" and "objective measures of project success." Successful completion of a similar project through all the SDM development milestones would constitute a greater measure of project success and transferability of experience than would arrival at an early SDM milestone, such as requirements definition or design, but not full implementation. Accordingly, all other things being equal, a bidder that has completed a similar CJIS project elsewhere would score higher than a bidder that has not, whether or not a post-implementation review has been conducted.
- 21. Q. How will the State fund the contract resulting from RFP 08ITZ0062? Has the State identified a budget for the contract? If so, can you share the amount?
 - A. Various sections of Public Act 08-01 indicate state funding levels general and specific for development of the CJIS Blueprint. How much of that funding can or will be allocated to this RFP is not known at this time. However, "state resource effectiveness", including direct costs of this RFP, are among the scoring criteria. Accordingly, the State seeks to do as much as possible to fulfill the CJIS vision with the highest quality at the least cost.

- 22. Q. Page 4 references "competition for funding" among various CJIS projects. Please provide background on the state's process for making funding decisions on CJIS projects. Is this an area where prospective vendors may provide suggestions in their proposals?
 - A. Project funding is competitive in several respects. Certain CJIS projects, but not others, qualify for Federal funding, and may gain program ascendancy for that reason. Certain CJIS projects are centralized and provide shared resources to an extent. Most, however, are decentralized agency initiatives which must all obtain funding from the same source. Prioritization among CJIS projects is a function of the CJIS Governing Board as assisted by the CJIS Finance Committee. Consultant suggestions in that regard, especially where based on potential for positive program impact, options review, cost-benefit analysis are sought. Reference specifically the last sentence of Section 4 under the Section, Intermediate Deliverables.
- 23. Q. Is the State accepting electronic proposals? If yes, in what format should the file(s) be provided? (Word, Excel, PDF).
 - A. No.
- 24. Q. If hard copy proposals are required, please indicate how many copies are required and the address where the proposals should be delivered.
 - **A.** An original and 6 copies of the RFP proposal are required. Send all sealed proposals to:

State of Connecticut
Department of Information Technology
Contracts & Purchasing Division
Attn: Jacqueline Shirley
101 East River Drive, 4th Floor
East Hartford, CT 06108

- 25. Q. Are there page limits for either Section I or Section II of the RFP response?
 - **A.** No.
- 26. Q. Which forms, if any, are to be submitted with our proposal?
 - **A.** Responding vendors must submit OPM Ethics Form 6 with their proposal.
- 27. Q. Will there be an opportunity to ask additional questions?
 - **A.** No additional questions can be submitted after the Question deadline date and no vendor conference is planned for this RFP.
- 28. Q. When will answers to these questions be issued?
 - A. Amendment #2 to the RFP containing the Vendor questions and answers will be posted to the State Contracting Portal on August 8, 2008.

Request for Proposals

Consulting Services for the development of a plan to Design and Implement a Criminal Justice Information System

Overview

Public Act 08-01 Section 40 7 (g) requires "Not later than July 1, 2008, the Criminal Justice Information Systems Governing Board shall issue a request for proposals for the design and implementation of such information technology system and hire a consultant to develop a plan for such design and implementation." "Such information technology system" refers to all other provisions of Section 40, comprising the business requirements for such a system.

Federal and State procurement guidelines prohibit the vendor who developed requirements, business and technical, from bidding on an RFP to design and implement a system meeting those requirements. Consequently, the statutory requirement to hire a consultant to develop a plan, based on requirements, for such design and implementation must be satisfied before the statutory requirement to design and implement the system.

This project milestone is to issue an RFP/SOW by July 1, 2008 for a consultant who will develop a plan for the design and implementation of the CJIS.

Scope of Services

The programmatic objective of the criminal justice information system is the design and implementation of a comprehensive, state-wide information technology system to facilitate the immediate, seamless, and comprehensive sharing of information between all state agencies, departments, boards and commissions having any cognizance over matters relating to law enforcement and criminal justice, and organized local police departments and law enforcement officials.

CJIS, as currently realized and as envisioned by statue, is an enterprise program spanning the criminal justice community of interest across the Judicial, Legislative, and Executive branches, including 13 Executive Branch agencies, boards, and commissions. The CJIS scope includes diverse individual, collaborative, and centralized IT projects.

CJIS Enterprise Scope

From an organizational perspective, these projects may have different stakeholders, such as individual business lines for internal application development, and collaborating entities for cross-entity communications, such as victim notifications, and program-wide standards setting.

Reference: An organizational view of the scope of the CJIS program is depicted in Appendix 1.

CJIS Program Management

From a program management perspective, these projects may intersect with regard to prioritization, competition for funding, and with regard to cross-project dependencies and impacts.

Reference: The CJIS Governing Board is statutorily defined in Public Act 08-01Section 39 to fulfill the governance role.

Connecticut Integrated Criminal Justice Process

RFP #08ITZ0062 Page 4 of 53

From a business process perspective, projects may require sharing information, often in legacy systems, across agencies and branches at key decision points in the criminal justice process.

Reference: The Office of Policy and Management (OPM)'s Justice Planning division has issued a comprehensive 2007 review, providing a basis for understanding key decision points in the criminal justice process and critical information needs at those points.

Product and/or Service Specifications

CJIS Data Sharing Standards:

To assure consistent use of shared data across the program, individual and collective CJIS projects must conform to the Global Justice XML Data Model (GJXDM) as subsumed under the National Information Exchange Model (NIEMS) V 2.0

Project Objectives:

To achieve program objectives, the CJIS Governing Board seeks a consultant qualified by education, experience, and training to ensure the timely and successful completion of the final and intermediate deliverables as specified in the following statement of work.

Proposal Requirements

Statement of Work – (B) Final Deliverable

The system requirements of Public Act 08-01 Section 40 and their programmatic, functional, technical, and operational implications are formulated in a duly funded, structured, and administered competitive procurement, specifically, a Request for Proposal (RFP).

To that end:

- 1. The consultant must assess, coordinate, and document available and prospective CJIS funding, Federal and State, and any post-implementation revenues, for the anticipated life of the CJIS design and implementation and ensuing operations of the implemented CJIS.
- 2. The consultant must structure the RFP within available funding in order to obtain responsive bids and to provide the multi-year capability to reimburse the vendor in accordance with the terms of a contract that may be awarded as a result of the competitive procurement process.
- 3. The consultant must structure the RFP appropriately to ensure that a vendor's ability to meet the RFP requirements can be assessed fairly and objectively by qualified state personnel, that a duly authorized State of Connecticut contract can result from the competitive bid, and that the feasibility of a system meeting the requirements of Public Act 08-01 can be demonstrated on site within six (6) months of the award of the contract.
- 4. The consultant must ensure that any Federal funding requirements related to the scope of the RFP are provided for timely, such as pre-funding grant proposals or planning documents, and post-funding financial reporting on the uses of Federal funds.
- 5. The consultant must ensure the systems' design and implementation is planned, managed, and communicated using a proven Systems Development Methodology (SDM) as it applies to the selected sourcing strategy. This proven SDM should adhere as closely as possible to the State's SDM. In addition, the SDM should be implemented in supporting tools that conform to state standards, including Microsoft Enterprise Project (for project management).

RFP #08ITZ0062 Page 5 of 53

- 6. The consultant must ensure that vendors responding to the RFP adhere to sound architectural principles, utilize contemporary technology, and implement supportable product standards. Specifically, vendors must conform, whenever possible, to the principles, best practices, guidelines and standards of the State's Enterprise-wide Technical Architecture (EWTA). In areas where no standard is currently defined, the vendor must conform to best practice in setting such architectural direction for the CJIS program within a state-wide context.
- 7. The consultant will comply with further guidance and the procedures for RFPs provided in the DOIT Procurement Manual, issued by the Contracts and Procurement Division

Statement of Work – (A) Intermediate Deliverables

Where full costs of design and implementation of an information system are not known, issuing an RFP without a predecessor RFI is likely to result in bidding a system whose scope, costs, or timeframe are not feasible, requiring a postponement, scaling back, and reissue of the RFP, often year(s) later.

To mitigate this risk and accomplish the same informed result proactively, the consultant will be expected to achieve the following as pre-conditions of releasing the RFP, with these attachments:

1. CJIS "As Is" Logical Model

A documented business analysis, utilizing data flow diagrams, or other appropriate tools for process modeling, that suffices for the CJIS community to understand the external flow of data across CJIS entities, at key criminal justice decision points, and the data processing requirements among entities.

Modeling internal business processes within an agency, board, or commission is not within the scope of this assignment, except where the contributing agency, board, or commission does not have defined internal processes, and where defining them is necessary to complete the global Connecticut criminal justice process business analysis.

2. CJIS 'To Be" Logical Model

A documented CJIS community review, using comparable modeling tools, of the "As Is" CJIS model, for opportunities to streamline and improve current business processing at key criminal justice decision points across entities.

3. CJIS Current and Legacy Applications Assessment

- a) What is required for the application, in its current state, to meet CJIS program business requirements, as captured in the "To Be" Logical Model.
- b) The "current state" of the application includes:
 - a. An inventory of the standard operating environment (SOE) for the application, including the telecommunications and information technology platforms, products, standards and their versions required to operate and support the application for its current distribution, interfaces, and base of endusers
 - b. The business and technical architecture, including the location of users, the location of application hardware, and the design and integration of application components
 - c. The standards that are supported, including those for data exchange, cross-platform deployment, and component inter-operability
 - d. The extent and quality of the data captured, retained, and presented, including its currency.
 - e. The usability of the end-user interface(s) and presentation layer(s)

RFP #08ITZ0062 Page 6 of 53

f. Application performance metrics, including end-user response times, database query response times, transaction processing throughput, and network latency

c) OBTS, a central, consolidated CJIS data repository, meets some of the requirements of Public Act 08-01, and represents a major long-term state investment towards the goals formulated in Section 40. However, achievement of the goals justifying continued investment remains elusive, and OBTS continues to require substantially more resources than it has to complete the outstanding (30% or so) of functionality.

Reference: OBTS diagram, Appendix 2.

4. CJIS Gaps to Be Addressed – Technical and Resource Requirements

The CJIS Application Assessment must result in an inventory of the gaps that must be addressed by the CJIS Design and Implementation RFP to complete the CJIS system as specified by Public Act 08-01 Section 40.

The consultant must identify the technical and resource requirements for closing each gap identified in the CJIS Applications Assessment.

The technical and resource requirements must include:

- g. The changes required to the standard operating environment (SOE) for the application, including the telecommunications and information technology platforms, products, standards and their versions required to operate and support the application for its projected distribution, interfaces, and base of endusers
- h. The business and technical architecture, including the location of users, the location of application hardware, and the design and integration of application components
- i. New standards that must be introduced and migrated to, including those for data exchange, cross-platform deployment, and component inter-operability
- j. Modifications to the extent and quality of the data captured, retained, and presented, including its currency.
- k. Modifications to enhance the usability of the end-user interface(s) and presentation layer(s)
- 1. Modifications to improve application performance, including end-user response times, database query response times, transaction processing throughput, and network latency, to agreed performance targets
- m. A comprehensive roadmap for inter-application impacts and dependencies related to required CJIS program application standards, product, and version migrations
- n. Estimated total cost of ownership, including new products, standards, and versions, new development, SDM-compliant project plans, staff skills required, their level and duration to bring the application in its current state to the required state.

If there are known alternative ways of closing those gaps, the options are to be outlined with clear, factual indication of pros and cons, advantages and trade-offs, risks and costs associated with each option.

The Contractor shall provide, no later than fifteen (15) days after receiving a request from the Client Agency, such information as the Client Agency may require to evidence, in the Client Agency's sole determination, compliance with this section.

6. Order and Delivery.

The Contract shall bind the Contractor to furnish and deliver the Goods or Services in accordance with Exhibit A and at the prices set forth in Exhibit B. Except for extensions made in accordance with the section in this Contract concerning Term of Contract; Contract Extension, no amendment to or modification or other alteration of the Contract shall be valid or binding upon the parties unless made in writing, signed by the parties and, if applicable, approved by the Connecticut Attorney General.

8. Assignment.

The Contractor shall not assign any of its rights or obligations under the Contract, voluntarily or otherwise, in any manner without the prior written consent of DOIT. DOIT may void any purported assignment in violation of this section and declare the Contractor in breach of Contract. Any Cancellation by DOIT for a breach is without prejudice to the Client Agency's or the State's rights or possible Claims.

9. Termination, Cancellation and Expiration.

- (a) Notwithstanding any provisions in this Contract, DOIT, through a duly authorized employee, may Terminate the Contract whenever DOIT makes a written determination that such Termination is in the best interests of the State. DOIT shall notify the Contractor in writing of Termination pursuant to this section, which notice shall specify the effective date of Termination and the extent to which the Contractor must complete Performance under the Contract prior to such date.
- (b) Notwithstanding any provisions in this Contract, DOIT, through a duly authorized employee, may, after making a written determination that the Contractor has breached the Contract, Cancel the Contract in accordance with the provisions in the Breach section of this Contract.
- (c) DOIT shall send the notice of Termination or Cancellation via certified mail, return receipt requested, to the Contractor at the most current address which the Contractor has furnished to DOIT for purposes of correspondence, or by hand delivery. Upon receiving such notice from DOIT, the Contractor shall immediately discontinue all services affected in accordance with the notice, undertake all commercially reasonable efforts to mitigate any losses or damages, and deliver to the Client Agency all Records. The Records are deemed to be the property of the Client Agency and the Contractor shall deliver them to the Client

Agency no later than thirty (30) days after the Termination, Cancellation or Expiration of the Contract or fifteen (15) days after the Contractor receives a written request from the Client Agency for the Records. The Contractor shall deliver those Records that exist in electronic, magnetic or other intangible form in a non-proprietary format, such as, but not limited to, ASCII or .TXT.

- (d) Upon receipt of a written notice of Termination or Cancellation from DOIT, the Contractor shall cease operations as directed by DOIT in the notice, and take all actions that are necessary or appropriate, or that DOIT may reasonably direct, for the protection and preservation of the Goods and any other property. Except for any work which DOIT directs the Contractor to Perform in the notice prior to the effective date of Termination or Cancellation, and except as otherwise provided in the notice, the Contractor shall terminate or conclude all existing subcontracts and purchase orders and shall not enter into any further subcontracts, purchase orders or commitments.
- (e) In the case of any Termination or Cancellation, the Client Agency shall, within forty-five (45) days of the effective date of Termination or Cancellation, reimburse the Contractor for its Performance rendered and accepted by the Client Agency in accordance with Exhibit A, in addition to all actual and reasonable costs incurred after Termination or Cancellation in completing those portions of the Performance which the Contractor was required to complete by the notice. However, the Contractor is not entitled to receive and the Client Agency is not obligated to tender to the Contractor any payments for anticipated or lost profits. Upon request by DOIT, the Contractor shall assign to the DOIT, or any replacement contractor which DOIT designates, all subcontracts, purchase orders and other commitments, deliver to the Client Agency all Records and other information pertaining to its Performance, and remove from State premises, whether leased or owned, all such equipment, waste material and rubbish related to its Performance as the Client Agency may request.
- (f) For breach or violation of any of the provisions in the section concerning Representations and Warranties, DOIT may Cancel the Contract in accordance with its terms and revoke any consents to assignments given as if the assignments had never been requested or consented to, without liability to the Contractor or Contractor Parties or any third party.
- (g) Upon Termination, Cancellation or Expiration of the Contract, all rights and obligations shall be null and void, so that no party shall have any further rights or obligations to any other party, except with respect to the sections which survive Termination, Cancellation or Expiration of the Contract. All representations, warranties, agreements and rights of the parties under the Contract shall survive such Termination, Cancellation or Expiration to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
- (h) Termination or Cancellation of the Contract pursuant to this section shall not be deemed to be a breach of contract by DOIT.

10. Breach.

If either party breaches the Contract in any respect, the non-breaching party shall provide written notice of such breach to the breaching party and afford the breaching party an opportunity to cure the breach within ten (10) days from the date that the breaching party receives such notice. In the case of a Contractor breach, any other time period which DOIT sets forth in the notice shall trump such ten (10) days. Such right to cure period shall be extended if the non-breaching party is satisfied that the breaching party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract Cancellation date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching party in writing prior to the Cancellation date, no further action shall be required of any party to effect the Cancellation as of the stated date. If the notice does not set forth an effective Contract Cancellation date, then the non-breaching party may Cancel the Contract by giving the breaching party no less than twenty four (24) hours' prior written notice. If the State believes that the Contractor has not performed according to the Contract, the State may withhold payment in whole or in part pending resolution of the Performance issue, provided that the Client Agency notifies the Contractor in writing prior to the date that the payment would have been due in accordance with Exhibit B.

11. Waiver.

- (a) No waiver of any breach of the Contract shall be interpreted or deemed to be a waiver of any other or subsequent breach. All remedies afforded in the Contract shall be taken and construed as cumulative, that is, in addition to every other remedy provided in the Contract or at law or in equity.
- (b) A party's failure to insist on strict performance of any provision of the Contract shall only be deemed to be a waiver of rights and remedies concerning that specific instance of Performance and shall not be deemed to be a waiver of any subsequent rights, remedies or breach.

12. Open Market Purchases.

Except to the extent that the Contractor is performing within a right to cure period, failure of the Contractor to Perform within the time specified in the Contract, or failure to replace rejected or substandard Goods or fulfill unperformed Services when so requested and as the Contract provides or allows, constitutes a breach of the Contract and as a remedy for such breach, such failure shall constitute authority for DOIT, if it deems it to be necessary or appropriate in its sole discretion, to Cancel the Contract and/or to purchase on the open market, Goods or Services to replace those which have been rejected, not delivered, or not performed. The Client Agency shall invoice the Contractor for all such purchases to the extent that they exceed the costs and expenses in Exhibit B and the Contractor shall pay the Client Agency's invoice immediately after receiving the invoice. If DOIT does not Cancel the Contract, the Client Agency will deduct such open market purchases from the Contract quantities. However, if the Client Agency deems it to be in the best interest of the State, the Client Agency may accept and use the Goods or Services delivered which are substandard in quality, subject to an adjustment in price to be determined by the Client Agency.

13. Purchase Orders.

- (a) The Contract itself is not an authorization for the Contractor to ship Goods or begin Performance in any way. The Contractor may begin Performance only after it has received a duly issued purchase order against the Contract for Performance.
- (b) The Client Agency shall issue a purchase order against the Contract directly to the Contractor and to no other party.
- (c) All purchase orders shall be in written or electronic form, bear the Contract number (if any) and comply with all other State and Client Agency requirements, particularly the Client Agency's requirements concerning procurement. Only those purchase orders that have been issued in compliance with such requirements shall be deemed to be duly issued.
- (d) A Contractor making delivery without a duly issued purchase order in accordance with this section does so at the Contractor's own risk.
- (e) The Client Agency may, in its sole discretion, deliver to the Contractor any or all duly issued purchase orders via electronic means only, such that the Client Agency shall not have any additional obligation to deliver to the Contractor a "hard copy" of the purchase order or a copy bearing any hand-written signature or other "original" marking.

14. Indemnification.

(a) The Contractor shall indemnify, defend and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising, directly or indirectly, in connection with the Contract, including the acts of commission or omission (collectively, the "Acts") of the Contractor or Contractor Parties; and (2) liabilities, damages, losses, costs and expenses, including but not limited to, attorneys' and other professionals' fees, arising, directly or indirectly, in connection with Claims, Acts or the Contract. The Contractor shall use counsel reasonably acceptable to the State in carrying out its obligations under this section. The Contractor's obligations under this section to indemnify, defend and hold harmless against Claims includes Claims concerning confidentiality of any part of or all of the Bid or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the Performance of the Contract.

- (b) The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.
- (c) The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.
- (d) The Contractor shall carry and maintain at all times during the term of the Contract, and during the time that any provisions survive the term of the Contract, sufficient general liability insurance to satisfy its obligations under this Contract. The Contractor shall name the State as an additional insured on the policy and shall provide a copy of the policy to the Client Agency prior to the effective date of the Contract. The Contractor shall not begin Performance until the delivery of the policy to the Client Agency.
- (e) The rights provided in this section for the benefit of the State shall encompass the recovery of attorneys' and other professionals' fees expended in pursuing a Claim against a third party.
- (f) This section shall survive the Termination, Cancellation or Expiration of the Contract, and shall not be limited by reason of any insurance coverage.

15. Forum and Choice of Law.

The Contract shall be deemed to have been made in the City of East Hartford, State of Connecticut. Both Parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

16. Contractor Guaranties.

Contractor shall:

- (a) Perform fully under the Contract;

The Contractor shall deliver such documents to the Client Agency in accordance with the terms of the Client Agency's written request. The Client Agency may also require, and the Contractor shall deliver, a financial statement showing that solvency of the Contractor is maintained. 44. Contractor Responsibility.

In making such a request, the Contractor may not merely state generally that the materials are proprietary or confidential in nature and not, therefore, subject to release to third parties. Those particular sentences, paragraphs, pages or sections that the vendor believes are exempt from disclosure under the FOIA must be specifically identified as such. Convincing explanation and rationale sufficient to justify each exemption consistent with the FOIA must accompany the request. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the Bidder or Contractor that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the FOIA. To the extent that any other provision or part of the Contract, especially including the Bid, the Records and the specifications, conflicts or is in any way inconsistent with this section, this section controls and shall apply and the conflicting provision or part shall not be given effect. If the Bidder indicates that certain documentation is submitted in confidence, by specifically and clearly marking said documentation as "CONFIDENTIAL," the Client Agency will endeavor to keep said information confidential to the extent permitted by law. The Client Agency, however, has no obligation to initiate, prosecute or defend any legal

proceeding or to seek a protective order or other similar relief to prevent disclosure of any information that is sought pursuant to a FOIA request. The Contractor shall have the burden of establishing the availability of any FOIA exemption in any proceeding where it is an issue. In no event shall the Client Agency or the State have any liability for the disclosure of any documents or information in its possession which the Client Agency believes are required to be disclosed pursuant to the FOIA or other requirements of law.

47. Interpretation.

The Contract contains numerous references to statutes and regulations. For purposes of interpretation, conflict resolution and otherwise, the content of those statutes and regulations shall govern over the content of the reference in the Contract to those statutes and regulations. Unless otherwise specified, any reference to a statute means that statute and any successor statute and any corresponding regulations, all as amended or supplemented from time to time.

48. Cross-Default.

- (a) If the Contractor or Contractor Parties breach, default or in any way fail to Perform satisfactorily under the Contract, then DOIT may, in its sole discretion, without more and without any action whatsoever required of the State, treat any such event as a breach, default or failure to perform under any or all other agreements or arrangements ("Other Agreements") that the Contractor or Contractor Parties have with DOIT. Accordingly, DOIT may then exercise at its sole option any and all of its rights or remedies provided for in the Contract or Other Agreements, either selectively or collectively and without such election being deemed to prejudice any rights or remedies of DOIT, as if the Contractor or Contractor Parties had suffered a breach, default or failure to perform under the Other Agreements.
- (b) If the Contractor or Contractor Parties breach, default or in any way fail to perform satisfactorily under any or all Other Agreements with DOIT or the State, then DOIT may, in its sole discretion, without more and without any action whatsoever required of DOIT, treat any such event as a breach, default or failure to Perform under the Contract. Accordingly, DOIT may then exercise at its sole option any and all of its rights or remedies provided for in the Other Agreements or the Contract, either selectively or collectively and without such election being deemed to prejudice any rights or remedies of the State, as if the Contractor or Contractor Parties had suffered a breach, default or failure to Perform under the Contract.

49. Disclosure of Records.

The Contract may be subject to the provisions of section 1-218 of the Connecticut General Statutes. In accordance with this section, each contract in excess of two million five hundred thousand dollars between a public agency and a person for the performance of a governmental function shall (a) provide that the public agency is entitled to receive a copy of records and files related to the performance of the governmental function, and (b) indicate that such records and files are subject to FOIA and may be disclosed by the public agency pursuant to FOIA. No request to inspect or copy such records or files shall be valid unless the request is made to the public agency in accordance with FOIA. Any complaint by a person who is denied the right to inspect or copy such records or files shall be brought to the Freedom of Information Commission in accordance with the provisions of sections 1-205 and 1-206 of the Connecticut General Statutes.

50. Summary of State Ethics Laws.

Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.

51. Sovereign Immunity.

The parties acknowledge and agree that nothing in the Solicitation or the Contract shall be construed as a modification, compromise or waiver by the State of any rights or defenses of any immunities provided by Federal law or the laws of the State of Connecticut to the State or any of its officers and employees, which they may have had, now have or will have with respect to all matters arising out of the Contract. To the extent that this section conflicts with any other section, this section shall govern.

52. Time is of the Essence.

Time is of the essence with respect to all provisions of this Contract that specify a time for performance; provided, however, that this provision shall not be construed to limit or deprive a party of the benefits of any grace or use

period allowed in this Contract.

53. Encryption of Confidential Data.

All contracted vendors shall encrypt any and all State stored data that is now, or hereafter, classified as confidential or restricted by the State. This encryption shall, without additional cost to the State, apply to all such data stored on non State owned and/or managed devices. The method used to encrypt data shall be compliant with then current State of Connecticut Architecture and Standards.

RESTRICTIONS ON THE BENEFITS YOU MAY GIVE TO STATE PERSONNEL

GIFTS: In general, no one doing business with or seeking business from a state or quasi-public agency may give a gift to an official or employee of that agency. Connecticut's gift ban is strict, but has some exceptions. For example, under the Ethics Code, you may give: (1) food and drink up to \$50 per person per year, if the person paying, or his or her representative, is in attendance; and (2) tangible gifts up to \$10 per item up to \$50 per person per year. Also exempt are certain items such as informational materials, or plaques costing less than \$100. For a complete list of the Code's gift exceptions, consult Conn. Gen. Stat. § 1-79(e) or contact the Office of State Ethics.

IMPORTANT RECENT CHANGE IN LAW: As of July 1, 2004, gifts for "major life events," including a wedding or the birth of a child, which were previously exempt from the gift ban, are now subject to the strict gift limits outlined above if the gifts are provided by any individual or entity doing business with or seeking business from the state.

NOTE: State agencies may have stricter gift rules than the provisions of the Ethics Code (for example, an agency policy may ban all food and drink). Be sure to obtain a copy of the agency's ethics policy before you provide any benefit to an agency official/employee.

NECESSARY EXPENSES: Under the Ethics Code, you may not pay a fee or an honorarium to a state official or employee for making a speech or appearing at your organization's event. You may, however, under limited circumstances, pay the "necessary expenses" of such a state servant. These expenses are limited to: necessary travel, lodging for the nights before, or and after the speech, meals and conference fees. There may be reporting requirements attached to the giving and taking of necessary expenses, so contact the Office of State Ethics if you need more information. NOTE: Before providing necessary expenses, check with the state agency's ethics officer to determine if the agency allows such payments.

GIFTS TO THE STATE: The Ethics Code allows limited "gifts to the state" which facilitate state action or functions (for example, donating a piece of equipment to the agency).

NOTE: Recent legislation was passed that may impact gifts to the state. Please contact the Office of State Ethics before giving a gift to the state to determine if such donations are acceptable.

RULES ON HIRING STATE PERSONNEL

Before you hire a current or **former** state employee, you should be aware of certain provisions of the Ethics Code. First, if you are considering hiring a current state employee, especially from a state agency with which you do business or by which you are regulated, you should know the following:

A current state employee must not accept outside employment that impairs his independence of judgment regarding his state duties, or that encourages him to disclose confidential information learned in his state job. Also, a current state employee may not use his or her state position for financial gain, however inadvertent that use may be. Therefore, for example, a current state employee who exercises any contractual, supervisory or regulatory authority over you or your business may not be able to work for you.

Second, if you are considering hiring a **former** state employee, you should be aware of the Ethics Code's post-state employment, or revolving door, laws:

If you hire or otherwise engage the services of a former state official or employee, he or she may not represent you before his of her former agency for one year after leaving state service.

NOTE: The former State Ethics Commission established a limited exception to this provision which allows the former employee to return to his or her former agency within the one year period for the sole purpose

of providing technical expertise (for example, to help implement a previously awarded contract). This is a fact-specific exception that applies in very limited circumstances: therefore, you should contact the Office of State Ethics for further assistance if you think this exception applies to you.

If a state official or employee was substantially involved in, or supervised, the negotiation or award of a contract valued at \$50,000 or more, and the contract was signed within his or her last year of state service, and you or your business was one of the parties to the contract, then you and/or your business are prohibited from hiring him or her for one year after he or she leaves state employment.

A former state official or employee can **never** represent anyone other than the state regarding a particular matter in which he or she was personally and substantially involved while in state service and in which the state has a substantial interest.

Third, there are approximately 75 state officials or employees who may not negotiate for, seek or accept employment with any business subject to regulation by their agency, and may not accept employment with such a business for one year after leaving state service. Under that section of the law, it is also illegal for a business in the industry to employ such an individual.

CONFLICT OF INTEREST RULES THAT APPLY TO YOU AS A STATE CONTRACTOR

Under Conn. Gen. Stat. §1-86e of the Ethics Code, no state contractor, including a consultant or other independent contractor, can use the authority provided under the contract, or confidential information acquired in the performance of the contract, to obtain financial gain for himself, his employee, or a member of his immediate family. Also, a state contractor cannot accept another state contract that would impair his independence of judgment in the performance of the first contract. Finally, a state contractor cannot accept anything of value based on an understanding that his actions on behalf of the state would be influenced.

It is important to call the Office of State Ethics at (860) 566-4472 to discuss the application of this law, or any of the other ethics laws, to your specific situation.

OTHER ETHICS PROVISIONS THAT MAY APPLY TO YOU

Contractors seeking large state contracts are required to execute affidavits regarding gifts and/or campaign contributions made to certain state employees or public officials in the two-year period prior to the submission of a bid or proposal. You need to check the web sites of both the Department of Administrative Services, www.das.state.ct.us, and the Office of Policy and Management, www.opm.state.ct.us, for copies of these affidavits and for other updated information regarding state contractors. Also, because the particular agency with which you wish to contract may have specific rules that you must follow, you need to check with that agency as well.

If you or your business provides "investment services" as defined in the Code of Ethics, and you make a political contribution in connection with the Office of the Treasurer, you may be prohibited from contracting with that office. See Conn. Gen. Stat. § 1-84(n).

Finally, if you or your business spends or receives \$2,000 or more in a calendar year for activities that constitute lobbying under the Ethics Code, whether to affect legislation or the actions of an administrative state agency, then you and/or your business may have to register as a lobbyist with the Office of State Ethics, and more ethics rules will apply to you. Contact the Office of State Ethics, or review the lobbyist registration information at www.ct.gov/ethics.

Recent legislation (Public Act 05-287) prohibits anyone who is a party (or who is seeking to become a party) to a state construction, procurement, or consultant services contract over \$500,000 from:

- (1) Soliciting information from a public official or state employee that is not available to other bidders for that contract, with the intent to obtain a competitive advantage over other bidders;
- (2) intentionally or recklessly charging a state agency for work not performed or goods or services not provided, or falsifying invoices or bills; or
- (3) intentionally violating or trying to circumvent the state competitive bidding and ethics laws.

Recent legislation (Public Act 05-287) also requires any prospective state contractor to affirm in writing that he or she has been provided with a summary of the state's ethics laws and that his key employees have read and understood the summary and agree to comply with the applicable provisions of the ethics law.

NOTICE TO EXECUTIVE BRANCH STATE CONTRACTORS AND PROSPECTIVE STATE CONTRACTORS OF CAMPAIGN CONTRIBUTION AND SOLICITATION BAN

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined below):

Campaign Contribution and Solicitation Ban

No state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee;

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

Duty to Inform

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

<u>Civil penalties</u>--\$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of \$2000 or twice the amount of the prohibited contributions made by their principals.

<u>Criminal penalties</u>—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or \$5000 in fines, or both.

Contract Consequences

Contributions made or solicited in violation of the above prohibitions may result, in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

NONDISCRIMINATION CERTIFICATION REQUIREMENT

Public Act 07-142 and Public Act 07-245 have amended the nondiscrimination provisions of the Connecticut General Statutes to add civil unions to the existing protected classes and to require State contractors to adopt policies in support of the new statutes by means of a resolution. By law, a contractor must provide the State with documentation in the form of a company or corporate policy adopted by resolution of the board of directors, shareholders, managers, members or other governing body of such contractor to support the nondiscrimination agreement and warranty under C.G.S. §§ 4a-60a and 46a-68h.

Accordingly, attached as Exhibits 1 & 2 are form certifications that the successful contractor must deliver executed at the time that it executes the Contract. The first of these forms is designed to be used by corporate or other business entities; the **second is to be used only by individuals** who are to sign and perform contracts with the State in their individual capacity. One or the other of these certifications is required for all State contracts, regardless of type, term, cost, or value. The execution and submittal of this certificate is a condition precedent to the State's executing the Contract, unless the contractor is exempt from this statutory requirement, in which case the contractor must obtain a written waiver from the State's Commission on Human Rights and Opportunities.
