Additional information pertaining to the journey from Italy, immigration and naturalization:

Please fill out a Pedigree Chart beginning with yourself and at least the line to be researched (your father and/or mother's ancestors as far back as known).

You will also need to fill out a separate Family Group Sheet for each family group-- beginning with your parents as head of household and yourself as one of the children. On another form, your parent(s) would be listed as one of the children and your grandparents as head of household, etc. It is especially important to complete a Family Group Sheet for the immigrant family (showing all the children of the immigrant with full name, date and place of birth for each).
