INVESTMENT OBJECTIVE, STRATEGY AND POLICY

Investment Objective and Strategy

The principal investment objective of the Fund is to generate stable monthly rates of return through investing in options on regulated international equity markets. The target monthly return is a 1.2% net of fees (“**Target Monthly Return**”).

Please note that none of the Fund, the Directors or the Investment Manager make any representation in respect of or guarantee the Target Monthly Return, and the actual monthly rate of return may be less or greater than the Target Monthly Return and further, it is possible that there may be no monthly return or a loss.

The Investment Manager is focused on trading options on the S&P500, and other regulated international equity markets that the Investment Manager may determine from time to time in its sole discretion. The Investment Manager will trade options and futures on the aforementioned markets based on analyses and projections of economic factors such as interest rates, currency exchange rates and directional movements in domestic and foreign markets.

The aims of the Investment Manager and the strategy of the Fund are to maintain an average margin allocation of 50% of the Fund's total assets. Margin allocation is a critical aspect of the Fund's risk control procedures and position management procedures. The margin requirement will be allocated to the relevant clearing houses or stock exchanges by our clearing broker as required, to cover positions held by The 1.2 Fund. The strategy will aim to never utilize the Fund's total assets in terms of margin requirement, however if at any time an individual event occurs which puts the Fund on margin call, positions will be de-leveraged immediately or closed outright in order to remain within the Fund's risk parameters.

Risk Control

The 1.2 Fund will only trade in exchange listed products on the largest recognized global futures and options markets. No transactions will be carried out in the OTC market. This is an important aspect of risk control as it ensures counterparty, liquidity and transaction risk is minimized. The Fund employs its own internal risk controls focused on margin control and positional management. Individual positions and strategies are closely monitored to determine if as market conditions change they remain within the Fund's risk parameters.

The ‘modus operandi’ of The 1.2 Fund is one of strong emphasis towards pro-active position management. Experience has proved that positional control and management is vital in fast moving global markets. In the event that we consider a position or strategy no longer suits the profile of the fund the first course of action is to de-leverage the position and if required implement the strict “stop loss”.

The fund also utilizes external controls in partnership with our broker. Our brokers operate the standardized portfolio analysis of risk (SPAN) system. This is a leading margin system which has been adopted by options and futures exchanges around the world. SPAN is based on a sophisticated set of algorithms that determine margin according to a global (total portfolio) assessment of the individual portfolios risk.

Investment Program

General

The Investment Manager primarily invests the Fund's assets in options on the S&P500, but it could also invest on other such regulated international equity markets the Investment Manager determines suit the volatility model and return objectives of the fund.

Primary Investment Focus

The Investment Manager anticipates that the Fund's investments will primarily focus on the areas described herein.

- *Possible Investments.* The Investment Manager, through the Fund, intends to invest in and maintain a diverse portfolio of investments. Specifically, such investments may include, among other items, the following:
 - *Options on Equity Indexes or on Futures Contracts* – This strategy involves buying and selling options and futures contracts to take advantage from the trading activity. The most part of the returns are linked on the studying of the greeks.

Investment Process

In implementing the investment program described herein, the Investment Manager intends to primarily employ the following investment process:

- The strategies are developed with a time frame of one month; the investment manager studies the international markets and the various single options to structure the fund's position. Before opening any position, many different hypothesis are made regarding changes in underline conditions, changes in volatility and/or combinations of those, also related with the time of verifications of those changes. These hypothesis are studied in the view of being ready to any market movements, to know before how the strategy could be adjusted. Once opened, all the positions are monitored constantly.

Risk Management and Controls

The primary risk in employing the investment strategy outlined above will be the level of asset utilisation. Accordingly, the Investment Manager shall utilize risk management processes and controls to manage the overall risk of the investment portfolio. Without limiting the Investment Manager's ability to implement additional risk management processes and controls, these have historically included the following:

- The inherent risk control of a defined cost or "premium at risk" of the option strategies used to express the views of the Investment Manager;
- Stop-Loss and Limit orders are used to manage the delta exposure of the overall positions;
- By trading in markets that have the deepest liquidity and the highest accessibility the risk associated with gapping markets as well as slippage is minimized; and
- Risk is monitored by a several individuals within the Investment Manager's office.

Investment Policy

The Investment Manager has full discretion to carry out the investment program of the Fund, subject to complying at all times with the Investment Objectives and the Investment Restrictions.

Investment Restrictions

The Fund shall not:

1. invest in commodities;
2. invest in OTC;
3. lend cash or securities;

4. use borrowed funds to acquire investments.

Purchasers of Participating Shares should conduct such independent investigation and analysis regarding the Fund as they deem appropriate to evaluate the merits and risks of an investment in the Participating Shares. The Fund, the Investment Manager, the Investment Advisor and the Administrator disclaim any responsibility to advise purchasers of the risks and investment considerations associated with the purchase of the Participating shares as they may exist at the date hereof or from time to time thereafter.

DETERMINATION OF NET ASSET VALUE

The Net Asset Value per Participating Share shall be calculated in Euros by the Administrator as at close of business on the relevant Valuation Day. The Net Asset Value of the Participating Shares will be equivalent to all the assets less all the liabilities attributable as at the Valuation Day. The Subscription Price and Redemption Price for Participating Shares (following the Initial Offering Period) will be available upon request from the Investment Manager or the Administrator.

The Net Asset Value per Participating Share is determined by dividing the value of the assets of the Fund attributable to the Participating Shares less all liabilities attributable to the Participating Shares by the number of such Participating Shares as at the relevant Valuation day, the result being round up or down to the nearest cent.

The assets of the Fund shall be deemed to include:

1. all securities owned or contracted to be acquired and all unrealised gains (or losses) on such securities;
2. all cash on hand, on loan or on deposit excluding accrued interest thereon;
3. all bills and demand notes and amounts receivable (including proceeds of Securities sold but not delivered);
4. all other assets of every kind and nature, including, without limitation, prepaid expenses.

The liabilities of the Fund shall be deemed to include:

1. all loans, bills and accounts payable;
2. the Management Fee, Performance Fees and Redemption Fees, if any;
3. all accrued and payable administrative expenses (including all fees payable to any service provider and any agent), and any allowance for estimated annual audit fees, Directors' fees, legal fees and other fees, and any additional fees payable to the Investment Manager;
4. all known liabilities, present and future, including, without limitation, all matured contractual obligations for payments of money or property;
5. an appropriate provision for taxes due and future taxes to be assessed; and
6. all other liabilities of the Fund of whatsoever kind and nature for which reserves are determined to be required by the Directors.

In the event that any amount is not payable until some future time after the Valuation Day, the Directors (who may consult with and rely on the advice of the Investment Manager) shall make such allowance as is considered appropriate to reflect the true current value thereof.

The Directors shall determine which accounting principles shall apply to the calculation of the Net Asset Value. To the extent that the Directors have not determined otherwise, or to the extent feasible, expenses, fees and other liabilities will be accrued in accordance with International Financial Reporting Standards ("IFRS"). Reserves (whether or not in accordance with IFRS) may be established for estimated or accrued expenses, liabilities or contingencies.

The Fund's investments will be valued as follows:

- Securities traded via the futures markets will be assigned the value that the exchanges reflect, except in instances, where upon review, the Investment Manager, after consultation with appropriate market makers or intermediaries, in good faith determines that the valuation does not reflect the fair market value. Any differential in valuations will be supported with the pertinent documentation.

- The Investment Manager may use methods of valuing securities other than those set forth herein if it believes the alternative method is preferable in determining the fair market value of such securities.

The Directors may request that the Auditor review the methodology of valuation adopted by the Fund at such times as may, in the view of the Directors, be appropriate and the Directors may, following such review, adopt such other basis for valuation as the Auditor may recommend. The Directors may make such modifications to the means of calculating the Net Asset Value as they may from time to time consider reasonable to ensure that such changes accord with good accounting practice.

All valuations will be binding on all persons and in no event shall the Directors, the Administrator or the Investment Manager incur any individual liability or responsibility for any determination made or other action taken or omitted by them in the absence of manifest error or bad faith.

Prospective investors should be aware that situations involving uncertainties as to the valuation of positions could have an adverse effect on the Fund's net assets if the Administrator or the Investment Manager's judgements regarding appropriate valuations should prove incorrect.

THE PARTICIPATING SHARES AND ARTICLES OF ASSOCIATION

The rights and obligations of the holders of Participating Shares are governed by the Articles of Association. Prospective investors should examine these documents carefully and consult with their own legal counsel concerning their rights and obligations before subscribing for Participating Shares. Copies of the Articles of Association are available for inspection by an interested investor at the Administrator's office during normal business hours on any Business Day. The following statements and other statements in this Memorandum concerning the Articles of Association and related matters are only a summary, do not purport to be complete, and in no way modify or amend the Articles of Association.

The Fund's Share Capital

The Fund is authorised to issue 5,000,000 shares and such shares are divided into:

1. 4,999,900 Participating Shares of US\$0.01 par value each being redeemable participating non-voting shares to investors; and

The Directors may issue Participating Shares in Classes or Series with such designations or classifications as the Directors may determine (and the Directors may rename or redesignate any issued class or series of Participating Share) without the consent of or a notice to existing investors. The Participating Shares being issued pursuant to this Memorandum do not have the right to receive notice of, attend, speak or vote at general meetings of the Fund. Participating Shares are redeemable at the option of the holder in accordance with the terms set out in this Memorandum and the Articles of Association and are subject to compulsory redemption in certain circumstances. The fund will not pay any dividend. In a liquidation, after the payment of the capital paid on the Management Shares, the assets available for distribution are to be distributed to the holders of the Participating Shares *pari passu* in proportion to the Net Asset Value per Participating Share of the Participating Shares held; and

2. 100 Management Shares being voting non-participating shares of par value US\$0.01 each, all of which have been issued and are held by Low Volatility Asset Management Limited (Investment Manager of the Fund). Management Shares carry one vote per share but do not carry any right to dividends. In a liquidation, the Management Shares rank only for a return of the nominal amount paid up on those shares before any payment to the holders of Participating Shares and any other shares ranking *pari passu* with the Participating Shares in a liquidation.

Subject to the terms of the Articles of Association, authorised but un-issued Participating Shares may be redesignated and/or issued at the discretion of the Directors and there are no pre-emption rights with respect to the issue of additional Participating Shares or any other Class of share.

The Fund may by resolution of the voting shareholders or the Directors increase or reduce the amount of Participating Shares it is authorised to issue.

Eligible Shareholders

Participating Shares may be purchased only by investors who are aware of the risks associated with the trading activities to be undertaken by the Fund, do not require immediate liquidity from their investments and are aware that there can be no assurance that the Fund or the Participating Shares will be profitable or that the Fund will be able to meet its investment objective. Restricted Persons may not invest in Participating Shares.

The Fund is a "professional fund" within the meaning of SIBA and accordingly shares in the Fund are only being offered to and will only be issued to "professional investors" within the meaning of SIBA.

A "professional investor" is defined by SIBA as a person:

- (a) whose ordinary business involves, whether for that person's own account or the account of others, the acquisition or disposal of property of the same kind as the property, or a substantial part of the property, of the Fund; or
- (b) who has signed a declaration that he, whether individually or jointly with his spouse, has net worth in excess of one million dollars in the currency of the United States of America or its equivalent in any other currency and that he consents to being treated as a professional investor.

During the Initial Offering Period, the Participating Shares will be issued at the Subscription Price of 1,000€.

The minimum initial subscription for each investor (other than "exempted investors") in Participating Shares is US\$100,000 or equivalent in Euros.

Participating Shares are available for subscription after the Initial Offering Period on each Subscription Day at the Subscription Price. Subscriptions for Participating Shares may only be made in Euros (or US\$, to be converted to Euros at the cost of the subscriber). The acceptance of subscriptions during the Initial Offering Period and thereafter as of each Subscription Day is subject to confirmation of the prior receipt of cleared funds before the time set out below to the Fund's subscription account. Details of the account are set out in the Subscription Form. The Fund reserves the right to wholly or partly reject or accept subscriptions in its absolute discretion and without assigning any reason therefore. In the event that a subscription is rejected, the Administrator shall repay the relevant subscription monies to the subscriber without interest.

Prospective investors will be required to complete and return a Subscription Form in the form attached. The completed Subscription Form should be sent to the address shown on the Subscription Form and must be received together with subscription monies in cleared funds, in the case of subscriptions during the Initial Offering Period no later than 5pm (English time) on June 20 2008 or such earlier or later date as determined by the Directors and thereafter no later than 5pm (English time) 3 days prior to the relevant Subscription Day (or such later time as may be agreed to by the Administrator in its sole discretion). If the Subscription Form or cleared funds are received after the deadline, it will (unless otherwise determined by the Administrator) be treated as a request for subscription on the next Subscription Day.

Subscription Forms will (save as determined by the Administrator) be irrevocable and may be sent by mail, courier, facsimile or email to the Administrator at the risk of the applicant. The originals of any Subscription Form sent by facsimile or email should be sent immediately by post or by internationally recognised courier to the Administrator. Failure to provide the original Subscription Form may, at the discretion of the Administrator, result in the cancellation of the allotment of the Participating Shares.

The following forms of communication are acceptable to the Fund for submitting subscription, redemption, transfer or other instructions (such as change of address) to the Administrator:

Facsimile Transmission	+44.1481.723162

In the case of mis-receipt or corruption of any message, the Investor will be required to re-send the documents. Facsimiles or emails sent to the Fund or the Administrator shall only be effective when actually acknowledged by the Fund or the Administrator. In the event that no acknowledgement is received from the Administrator within five (5) days of submission of the request, the Investor should contact the Administrator on telephone number +44.1481.727.571 to confirm receipt by the Administrator of the request. The Investor must use the form document provided by the Fund in respect of the subscription, redemption or transfer, unless such condition is waived by the Fund and/or the Administrator and messages sent via email must contain a duly signed document as an attachment.

Fractions of Participating Shares will be issued to the nearest four decimal places where the balance of the subscription monies for Participating Shares represents less than the Subscription Price.

Confirmations will be sent to applicants on approval of their application as soon as practicable after the Initial Offering Period or the relevant Subscription Day, setting out details of the Participating Shares they have been allotted.

Participating Shares will be issued only in registered form. The Administrator maintains the official register of Participating Shares of the Fund at the registered office of the Administrator. Certificates representing Participating Shares will not be issued.

Redemption of Participating Shares

A Participating Shareholder may redeem some or all of his Participating Shares on each Redemption Day at the Net Asset Value per Participating Share as at the immediately preceding Valuation Day provided the Redemption Notice is received by the Fund at least 3 days (the "Redemption Notice Period") prior to the proposed Redemption Day, such Redemption Notice Period waivable at all times at the discretion of the Investment Manager.

Redeeming Participating Shareholders may redeem by completing the Redemption Notice in writing and sending it by registered mail, by facsimile transmission or by email to the Administrator with the original to follow by courier.

A request for redemption must be made on the Redemption Notice and, once submitted to the Administrator, may not be withdrawn except with the consent of the Directors. If the Redemption Notice is received after the deadline for receipt of requests for redemption for any particular Redemption Day, it shall (unless the Redemption Notice Period is waived by the Investment Manager or otherwise determined by the Administrator) be invalid / treated as a request for redemption on the next Redemption Day.

Subject to any decision by the Directors to the contrary, the minimum amount of Participating Shares that may be redeemed on any Redemption Day is 10,000 Euros.

Redemption payments in respect of the Participating Shares will be made in Euros or, in the absolute discretion of the Directors, in kind, or partly in cash and partly in kind, and cash payments will be remitted by wire transfer to the account designated by the Participating Shareholder in the Redemption Notice, which must match the details given on the subscription form. No interest will accrue on the redemption proceeds pending payment.

The Fund will pay a Redeeming Shareholder of the amount due to such Redeeming Shareholder within 15 days after the relevant Redemption Day, based upon the Net Asset Value per Participating Share of the relevant Class or Series.

The Administrator may refuse to pay redemption proceeds if a redemption request is not accompanied by such additional information as the Administrator, in its sole discretion, may reasonably require. This power may, without limitation to the generality of the foregoing, be exercised where proper information (in particular, the original subscription document) has not been provided for money laundering verification purposes.

Upon giving not less than 3 days written notice to a Participating Shareholder, the Fund has the right to compulsorily redeem all or some of the Participating Shares held by a Participating Shareholder at the Net Asset Value per Participating Share as at the Valuation Day immediately prior to the date such redemption is to take effect if the Directors for any reason determine in their absolute discretion to do so. Without prejudice to its general powers to redeem compulsorily for any reason, the Directors intend to compulsorily redeem Participating Shares where:

1. the Participating Shares are held by or for the benefit (directly or indirectly) of any Restricted Person; and
2. any of the representations given by a Participating Shareholder in its Subscription Form were not true or have ceased to be true.

Transfers

In the case of the death of a joint holder the survivor will be the only person recognised by the Fund as having any title to a Participating Share. The transfer of Participating Shares to Restricted Persons is prohibited.

No Participating Shares may be transferred, assigned or disposed of without the prior written consent of the Directors or their authorised agents which may be withheld in their absolute discretion. Subject as aforesaid, Participating Shares are transferable by written instrument signed by the transferor, but transfers will not be effective until registered in the Register of Participating Shareholders of the Fund. Participating Shareholders wishing to transfer Participating Shares must complete and sign the transfer in the exact name or names in which the Participating Shares are registered, indicating any special capacity in which they are signing and supply the details to the Fund.

The Directors may in their absolute discretion decline to register any transfer of Participating Shares without providing any reason therefore.

Modification of Rights attaching to the Participating Shares

The special rights attached to the Participating Shares may from time to time (whether or not the Fund is being liquidated) only be materially adversely varied or abrogated with the consent in writing of the holders of at least two thirds of the issued Participating Shares, or with the sanction of a resolution passed by Participating Shareholders holding at least two thirds of all the Participating Shares then in issue.

All the provisions of the Articles of Association as to general meetings of the Fund apply to every such separate meeting, except that the necessary quorum at any such meeting is one or more persons at least holding or representing by proxy at least one third of the issued Participating Shares then in issue except that at an adjourned meeting of the Participating Shareholders those shareholders who are present in person or by proxy shall constitute a quorum.

Directors

The Articles of Association contain, *inter alia*, provisions relating to Directors as follows:

7. provided a Director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with the Fund declares (whether by specific or general notice) the nature of his interest at a meeting of the Directors that Director may vote in respect of any contract or proposed contract or arrangement notwithstanding that he may be interested therein and if he does so his vote shall be counted and he may be counted in the quorum at any meeting of the Directors at which any such contract or proposed contract or arrangement shall come before the meeting for consideration;

ADDITIONAL INFORMATION

Taxation

It is the responsibility of all persons interested in purchasing Participating Shares to inform themselves as to any tax consequences from their investing in the Fund and the Fund's operations or management, as well as any foreign exchange or other fiscal or legal restrictions, which are relevant to their particular circumstances in connection with the acquisition, holding or disposition of Participating Shares. Investors should therefore seek their own separate tax advice in relation to their holding of Participating Shares and accordingly neither the Fund, the Investment Manager nor the Administrator accept any responsibility for the taxation consequences of any investment into the Fund by an investor.

The tax status of the Fund and its Participating Shareholders under the laws of the British Virgin Islands is summarised below. The summary is based on the assumption that the Fund is owned, managed and operated as contemplated. The summary is considered in the opinion of the Fund's British Virgin Islands counsel to be a correct interpretation of existing laws as applied at the date of this Memorandum, but no representation is made or intended by the Fund that changes in such laws or their application or interpretation will not be made in the future. Persons interested in subscribing for the Participating Shares should consult their own tax advisers with respect to the tax consequences, including the income tax consequences, if any, to them of the purchase, holding, redemption, sale or transfer of the Participating Shares.

The Fund and all interests, rents, royalties, compensations and other amounts paid by the Fund to persons who are not persons resident in the BVI are exempt from the provisions of the Income Tax Act in the BVI and any capital gains realized with respect to any shares, debt obligations, or other securities of the Fund by persons who are not persons resident in the BVI are exempt from all forms of taxation in the BVI. It will not apply to the Fund except to the extent that the Fund has employees (and deemed employees) rendering services to the Fund wholly or mainly in the BVI. The Fund at present has no employees in the BVI and no intention of having any employees in the BVI.

No estate, inheritance, succession or gift tax, rate, duty, levy or other charge is payable by persons who are not persons resident in the BVI with respect to any shares, debt obligation or other securities of the Fund.

All instruments relating to transfers of property to or by the Fund and all instruments relating to transactions in respect of the shares, debt obligations or other securities of the Fund and all instruments relating to other transactions relating to the business of the Fund are exempt from the payment of stamp duty in the BVI.

There are currently no withholding taxes or exchange control regulations in the BVI applicable to the Fund or its members.

In accordance with the Fund's obligations pursuant to the BVI AML Laws, the Administrator has agreed to provide to the Fund a person within the Administrator to act as the Reporting Officer.

In accordance with the Fund's obligations pursuant to the BVI AML Laws, the Compliance Procedures shall be carried out by the Administrator, who is resident in Guernsey which is a recognised jurisdiction for the purposes of the BVI AML Laws.

The Fund and the Administrator may not require verification of identity where:

2. The investor is a foreign regulated person for the purposes of the Regulations which is a person or entity that:
 - (a) is incorporated, registered, licensed or formed, or if not a body corporate, has its principal place of business in a jurisdiction outside the BVI;

Subscriptions for Participating Shares will be received by the Administrator. The Administrator will notify applicants if additional proof of identity is required. By way of example, an individual may be required to produce a copy of a passport or identification card duly certified as a true copy by a notary public, law firm or bank, together with evidence of their address such as a utility bill or bank statement. In the case of corporate applicants this may require production of a copy of the certificate of incorporation (and any change of name), certificate of incorporation and by-laws (or equivalent) duly certified as a true copy by a notary public, law firm or bank and the names, occupations, dates of birth and residential and business addresses of all directors or other governing members or representatives

of entity investors in line with the foregoing individual identification requirements.

The details given above are by way of example only. The Fund and the Administrator reserve the right to request such documentation as any of them deems necessary to verify the identity of the applicant and to verify the source of the relevant money. Applicants who are existing Shareholders and believe they have supplied documentation verifying their identity to the Fund or an affiliate in the past may contact the Fund or the Administrator to determine whether any additional information is necessary. Failure to provide the necessary evidence may result in applications being rejected or in delays in redemptions or in the dispatch of documents and the issuance of Participating Shares.

Pending the provision of satisfactory evidence as to identity, the evidence of title in respect of Participating Shares may be retained at the absolute discretion of the Fund. If within a reasonable period of time following a request for verification of identity, the Fund has not received evidence satisfactory to it as aforesaid, the Fund may, in its absolute discretion, refuse to allot the Participating Shares applied for in which event application moneys will be returned without interest to the account from which such moneys were originally debited.

The Fund and the Administrator also reserve the right to refuse to make any redemption payment to a Shareholder if the Directors or the Administrator suspect or are advised that the payment of redemption proceeds to such Shareholder might result in a breach of applicable anti-money laundering or other laws or regulations by any person in any relevant jurisdiction or if such refusal is considered necessary or appropriate to ensure the compliance by the Fund or the Administrator with any such laws or regulations in any relevant jurisdiction.

The Fund, the Investment Manager and the Administrator will be held harmless and will be fully indemnified by a potential subscriber against any loss arising as a result of a failure to process a subscription or Redemption Notice if such information as has been requested by any of them has not been satisfactorily provided by the applicant.

Any information provided to the Administrator will be treated as confidential and used solely for the purpose of fulfilling due diligence requirements with regard to the investors investment in the Fund. The Investor's information will not be shared with third parties without the express consent of the investor and is also subject to the Data Protection (Bailiwick of Guernsey) Law, 2001 which requires the Administrator to ensure that they have adequate security precautions in place to prevent the loss, destruction or unauthorised disclosure of such data.

If, as a result of any information or any other matter that comes to their attention, any person resident in Guernsey (including the Administrator), knows or suspects that another person is engaged in money laundering, such person is required to report such information pursuant to The Criminal Justice (Proceeds of Crime) (Bailiwick of Guernsey) Regulations, 2002 and such report will not be treated as a breach of any restriction upon the disclosure of information imposed by law or otherwise.

Reports to Shareholders

The Administrator will provide Participating Shareholders with a monthly statement, on the last Friday of every month, of the Net Asset Value of the Fund, the Participating Shares in issue and the Net Asset Value per Participating Share and with an Annual Report for the Fund including audited accounts for each Fiscal Year.

The price of the Participating Shares shall be published on Bloomberg, Telekurs, the Fund's website and on the main hedge funds database.

British Virgin Islands Securities and Business Investment Act

The Fund is a "professional fund" within the meaning of SIBA and accordingly shares in the Fund are only being offered to and will only be issued to "professional investors" within the meaning of SIBA.

A "professional investor" is defined by SIBA as a person:

- (g) whose ordinary business involves, whether for that person's own account or the account of others, the acquisition or disposal of property of the same kind as the property, or a substantial part of the property, of the Fund; or
- (h) who has signed a declaration that he, whether individually or jointly with his spouse, has net worth in excess of one million dollars in the currency of the United States of America or its equivalent in any other currency and that he consents to being treated as a professional investor.

Recognition of the Fund as a professional fund under SIBA does not involve any examination of the merits of an investment in the Fund or substantive supervision of the investment performance or portfolio constitution of the Fund by the Government of the British Virgin Islands or the Commission. There are no financial obligations or compensation schemes imposed on the Fund by the Commission or the Government of the British Virgin Islands that favour investors or that are available to investors in the Fund.

The Commission may in certain circumstances take enforcement action against the Fund. Enforcement action may include, cancellation, revocation or suspension of the recognition of the Fund as a professional fund and issuing a directive imposing prohibitions, restrictions or limitations on the Fund or requiring the Fund to take such action as the Commission considers may be necessary to protect the property of, or in the custody, possession or control of the Fund, or to protect investors or creditors of the Fund. Circumstances in which enforcement action could be taken include where the Fund has contravened or is in contravention of SIBA, the Regulations, the Anti-money Laundering Regulations, 2008 (as amended) or the Anti-money Laundering and Terrorist Financing Code of Practice, 2008 (as amended); where the Fund no longer satisfies the criteria for recognition as a professional fund under SIBA and the Regulations; and where a functionary of the Fund does not, in the Commission's opinion, satisfy its fit and proper criteria.

The minimum initial subscription for each investor (other than "exempted investors") in Participating Shares is US\$100,000, or equivalent in Euros.

An "exempted investor" is defined by SIBA as:

the manager, administrator, promoter or underwriter of the Fund;

- (i) any employee of the manager or promoter of the Fund; and
- (j) such other class or description of persons as the Commission may, by notice published in the Gazette, specify as exempted investors.

As a "professional fund", the Fund is required to pay an annual recognition fee of US\$350 for the year commencing 1 January 2010 and US\$1,000 for any year thereafter.

The Fund is required under the Mutual Fund Regulations, 2010 to prepare financial statements for each financial year that comply with accounting standards specified in the Regulations. The Fund is required to appoint and at all times have an auditor for the purposes of auditing its financial statements (although the Commission may exempt the Fund from such requirement upon written application to the Commission). A copy of the audited financial statements (to the extent required) shall be provided to the Commission within six months after the financial year end of the Fund for the financial statements or such extended period generally not exceeding fifteen months as the Commission may approve in writing.

Guernsey Qualifying Investor Fund

The Fund operates as a Qualifying Investor Fund as defined by the Guernsey Financial Services Commission. For the avoidance of doubt, the Fund is not regulated by the Guernsey Financial Services Commissions. Only Qualified Investors (i.e. Professional Investor, and Experienced Investor and/or a Knowledgeable Employee) are permitted to invest in a Qualifying Investor Fund.

A Professional Investor is one of the following:

- a government, local authority, public authority or supra-national body (in the Bailiwick of Guernsey or elsewhere);
- a person, partnership or other unincorporated association or body corporate (whether incorporated, listed or regulated in an OECD country or otherwise), whose ordinary business or professional activity includes or it is reasonable to expect that it includes, acquiring, undertaking, managing, holding or disposing of investments whether as principal or agent, or the giving of advice on investments;
- as affiliate of the Fund or an associate of the Fund. The terms “affiliate” and “associate of an affiliate” are intended to refer to financial services business or financial services professionals associated, directly or indirectly, with the operation of the Fund; or
- an individual investor who makes an initial investment of not less than US\$100,000 or equivalent in the Fund, provided that subsequent investments by the same investor may be of lower amounts.

RISK FACTORS

An investment in the Participating Shares is speculative and involves a high degree of risk. Accordingly, prospective investors should consider the following risk factors. These risk factors may not be a complete list of all risk factors associated with an investment in the Fund.

General

Purchasers of Participating Shares should conduct such independent investigation and analysis regarding each party to the Transaction Documents and the Portfolio and each part thereof and all other relevant persons and market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in the Participating Shares. The Fund, the Investment Manager and the Administrator disclaim any responsibility to advise purchasers of Participating Shares of the risks and investment considerations associated with the purchase of the Participating Shares as they may exist at the date hereof or from time to time thereafter. However, as part of such independent investigation and analysis, prospective purchasers of Participating Shares should consider and discuss with their professional advisors in detail all the information set forth in this Private Placement Memorandum.

Investment in the Participating Shares is only suitable for investors who:

- (1) have the requisite knowledge and experience in financial and business matters, and access to and knowledge of appropriate analytical resources to evaluate the information contained in this Memorandum and the merits and risks of an investment in the Fund in the context of such investors' financial position and circumstances;
- (3) are acquiring the Participating Shares for their own account for investment, not with a view to resale, distribution or other disposition of the Participating Shares (subject to any applicable law requiring that the disposition of the investor's property be within its control); and
- (4) recognise that it may not be possible to find a counterparty willing to purchase the Participating Shares for a substantial period of time, if at all.

Further, each prospective purchaser of Participating Shares must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Participating Shares (i) is fully consistent with its (or if it is acquiring the Participating Shares in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Participating Shares as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Participating Shares in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Participating Shares.

Nature of Investments

The Fund's business will involve a high degree of financial risk. Markets in which the Fund is anticipated to invest are subject to a high degree of volatility and therefore the Fund's performance may be volatile. There can be no assurance that the Fund's investment objective will be realised or that Participating Shareholders will receive any return on their investment. There are no limitations on the types of investments the Fund may make. The Investment Manager in its sole discretion may employ such investment and trading strategies and methods as it determines to adopt. The Fund may also invest in securities for which no active trading market exists and the value of any such securities shall be determined by the Investment Manager. As a result of these investment risks, an investor may lose all or a substantial amount of his investment in the Fund.

Short Selling, Options and Futures Trading

The Fund's investment program may include short selling and trading in options and futures (upon the receipt of any necessary regulatory exemptions or approvals). Such investments can be extremely

volatile and substantially increase the impact of adverse price movements on the sale of Participating Shares. There can be no assurance that the strategy adopted for investing in options will be profitable or that a Participating Shareholder will not lose some or all of his investment.

Futures

The Fund is authorised to engage in transactions in futures contracts, options on futures contracts and in other products which may be traded on regulated exchanges.

Trading in futures and options on futures involves significant risks, including the following: (i) futures contracts and options on futures are volatile in price; (ii) futures trading is highly leveraged; (iii) futures trading may be illiquid; and (iv) futures trading involves high transaction costs.

The purchase and sale of futures contracts is generally subject to high risk. Price movements of futures are caused by many unpredictable factors such as general economic and financial conditions, governmental policies, national and international political and economic events and technical trading factors. The foregoing factors may cause prices to be highly volatile which can increase the risk of loss.

Most futures contracts are subject to daily price limitations, which mean that the exchanges have prohibited the trading of futures contracts if the price fluctuates by a certain amount. If this occurs, it may be impossible to liquidate a position. Futures prices have occasionally moved the daily limit for several consecutive days with little or no trading. Similar occurrences in markets in which the Fund may hold positions at that time could prevent the Fund from promptly liquidating unfavourable positions and subject it to substantial losses.

The CFTC and the regulated exchanges have established limits on the maximum net long or net short futures positions which any person or group of persons acting together may hold or control. Any accounts owned or managed by a trader or the principals thereof, including the Fund's account must be combined for position limit purposes. The Investment Manager believes that the current limits will not adversely affect the Fund's trading. However, it is possible that trading decisions may have to be modified and positions held by the Fund may have to be liquidated in order to avoid exceeding such limits.

Leveraging

The Fund may leverage its capital because the Investment Manager believes that the use of leverage may enable the Fund to achieve a higher rate of return. Accordingly, the Fund may pledge its securities in order to borrow additional funds for investment purposes. The Fund may also leverage its investment return with options, short sales, swaps, forwards and other derivative instruments. The amount of borrowings which the Fund may have outstanding at any time may be substantial in relation to its capital.

While leverage presents opportunities for increasing the Fund's total return, it has the effect of potentially increasing losses as well. Accordingly, any event which adversely affects the value of an investment by the Fund would be magnified to the extent the Fund is leveraged. The cumulative effect of the use of leverage by the Fund in a market that moves adversely to the Fund's investments could result in a substantial loss to the Fund which would be greater if the Fund were not leveraged.

No Participation in Management

The management of the Fund's operations is vested in the board of directors of the Fund who will receive investment management advisory services from the Investment Manager, and the subscription terms do not grant the holders of the Participating Shares any right to take part in the conduct or control of the business of the Fund. Accordingly, no potential purchaser of Participating Shares should purchase such Participating Shares unless such purchaser is willing to entrust all aspects of the management of the Fund to the Investment Manager.

Reliance on Investment Manager

Although the Directors have the ultimate authority and responsibility for the management of the Fund, all decisions relating to the investment of the Fund's assets has been delegated to, and will be made by, the Investment Manager, who will therefore have total trading authority over the Fund. The Fund's expertise in trading is therefore largely dependent on the continuation of an agreement with the Investment Manager and the services and skills of its officers and employees. The loss of the Investment Manager's services (or that of one of its key personnel) could materially and negatively impact the value of the Fund as it may lead to the loss of the use of any proprietary investment methodology developed by the Investment Manager.

The Investment Manager and/or its Affiliates manage investments for other clients, and neither the Investment Manager nor any of its Affiliates nor any of their respective personnel are required to (or will) devote all of their time to the Fund's affairs. See the section entitled "Conflicts of Interest" and the Investment Management Agreement.

Effect of Redemptions

If significant redemptions of Participating Shares are requested, it may not be possible to liquidate the Fund's investments at the time such withdrawals are requested or may be able to do so only at prices which the Directors believe do not reflect the true value of such investments, resulting in an adverse effect on the return to the investors. In addition, although it is expected on termination of the Fund to liquidate all of the Fund's investments and distribute only cash to the Participating Shareholders, there can be no assurance that this objective will be attained.

Performance Fee

The performance fee payable to the Investment Manager may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case in the absence of a performance fee. Prospective investors should note that the management fee and performance fee payable to the Investment Manager is based in part upon unrealised gains (as well as unrealised losses), and that such unrealised gains and losses may never be realised by the Fund.

Counterparty Default

The Fund will, in certain circumstances, be fully subject to the default of a counterparty.

Absence of Secondary Market

Currently there is no public market for the Participating Shares and it is unlikely that any active secondary market for any of the Participating Shares will develop. Participating Shares are not being registered to permit a public offering under the securities laws of any jurisdiction. The Participating Shareholders might be able to dispose of their Participating Shares only by means of redemptions on the relevant Redemption Day at the Redemption Price, in the absence of an active secondary market. The risk of any decline in the Net Asset Value during the period from the date of notice of redemption until the Redemption Day will be borne by the Participating Shareholder(s) requesting redemption. In addition, the Directors have the power to compel redemptions. There are also restrictions on transferring Participating Shares.

Operating Deficits

The expenses of operating the Fund (including the fees payable to the Investment Manager, the Administrator and other service providers) may exceed the Fund's income, thereby requiring that the difference be paid out of the Fund's capital, reducing the value of the Fund's investments and potential for profitability.

Economic Conditions

Changes in economic conditions, including, for example, interest rates, inflation rates, employment conditions, competition, technological developments, political and diplomatic events and trends, and

tax laws can affect substantially and adversely the business and prospects of the Fund. None of these conditions is within the control of the Investment Manager and no assurances can be given that the Investment Manager will anticipate these developments.

Calculation of Net Asset Value

There is no assurance that the determination of the Net Asset Value as described above reflects the actual sales prices of the securities, even when such sales occur very shortly after the Valuation Day. If sales of investments result in fewer proceeds than estimated, the remaining Participating Shareholders will see the Net Asset Value of the Fund reduced.

Conflicts of Interest

The Investment Manager, the Directors and the Administrator may from time to time act in a similar capacity to, or otherwise be involved in, other funds or collective investment schemes, some of which may have similar investment objectives to those of the Fund. Thus, each may be subject to conflicting demands in respect of allocating management time, services and other functions between the activities each has undertaken with respect to the Fund and the activities each has undertaken or will undertake with respect to other investors, commodity pools, managed accounts and/or trading advisers. It is therefore possible that any of them may, in the course of their respective businesses, have potential conflicts of interest with the Fund or the Participating Shareholders. Each will at all times have regard to its obligations to the Fund and/or the Participating Shareholders and, in the event that a conflict of interest arises they will endeavour to ensure that such conflicts are resolved fairly.

Regulations

With the exception of registration under SIBA, the Fund is not registered pursuant to any other applicable law, rule or regulation. Consequently, Participating Shareholders will not benefit from certain of the protections afforded by such other laws or regulations.

Dividends and Distributions

The Fund does not intend to pay dividends or other distributions, but intends instead to reinvest all of the Fund's income and gain. Accordingly, an investment in the Fund may not be suitable for investors seeking current returns for financial or tax planning purposes.

Market Risk

Any investment made in a specific group of securities is exposed to the universal risks of the securities market. However, there can be no guarantee that losses equivalent to or greater than the overall market will not be incurred as a result of investing in such securities.

Exchange Fluctuations

Fluctuations in the Euro or US Dollar exchange rate against the Participating Shareholder's domestic currency are unpredictable and can have a significant impact on the return on investment to each investor. Also, investments in foreign securities involve the risks of currency fluctuations between the Euro or US Dollar and the currency in which such investment is made.

International Investing

A portion of the trades executed for the Fund may take place on foreign exchanges. Additional risks of international investing include political or economic instability in the country of issue, and the possible imposition of exchange controls or other laws or restrictions. In addition, prices of securities in non US markets are generally subject to different economic, financial, political and social factors than are the prices of securities in US markets. With respect to some countries there may be the possibility of expropriation or confiscatory taxation, limitations on liquidity of securities, or political or economic developments which could affect the non US investments of the assets held by the Fund. Moreover, securities of foreign issuers generally will not be registered with the US Securities and Exchange Commission (the "**SEC**"), and such issuers will generally not be subject to the SEC's reporting

requirements. Accordingly, there is likely to be less publicly available information concerning certain of the non US issuers of securities held by the Fund than is available concerning US companies. Non US companies are also generally not subject to uniform accounting, auditing or financial reporting standards, or to practices and requirements comparable to those applicable to US companies. There may also be less government supervision and regulations of foreign broker-dealers, financial institutions and listed companies than exist in the US. These factors could make investments made by the Fund, especially those made in developing countries, more volatile than investment in US companies. All of the above issues should be considered before investing in Participating Shares. Some emerging markets countries may have fixed or managed currencies that are not free floating against the US Dollar. Further, certain currencies may not be traded internationally. Certain of these currencies have experienced a steady devaluation relative to the US Dollar. This could have an impact on Participating Shares.

Limitation of Liability and Indemnification

The Investment Management Agreement and the Investment Advisory Agreement provide that the Investment Manager and the Investment Advisor will, subject to applicable law, be indemnified against and will not be liable for, any loss or liability incurred in connection with the affairs of the Fund, so long as such loss or liability arose from acts performed in good faith and not involving any gross negligence or wilful misconduct. Therefore, the holders of the Participating Shares may have more limited rights of action against the Investment Manager or the Investment Advisor, as the case may be, than the holders of the Participating Shares would have had absent these provisions in the Investment Management Agreement or the Investment Advisory Agreement, as the case may be.

No Guarantee

There is no guarantee that implementation of the investment objective or strategy with respect to the assets of the Fund will not result in losses to holders of Participating Shares.

THE FOREGOING RISK FACTORS DO NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS INVOLVED IN THIS OFFERING. POTENTIAL INVESTORS MUST READ THE ENTIRE MEMORANDUM INCLUDING ALL ATTACHMENTS AND MUST CONSULT THEIR OWN PROFESSIONAL ADVISERS, BEFORE DECIDING TO INVEST IN THE FUND.
