Monkey Map

The evil Hacker has stolen one of cyberspace's greatest treasures—the gold statue of a monkey! Hacker hid it on the island where he kidnapped Dr. Marbles. The monkey is hard to find, since all the island's landmarks got turned inside out! Luckily, Hacker dropped a map of part of the island that shows where he put the statue. Jackie found the map. Can you help her save the monkey from Hacker?

Go For It!

Trace a path, following the grid lines, that Jackie can follow to reach the monkey. What adventures does she have on the way? Write a story about how she takes the monkey to the portal and escapes Hacker's clutches. Be ready to explain your route, using coordinates to describe it.
