

2013 Division Alpine Clinics

Ski & Board Trainers Workshops (STW's)

Join us at one or more:

December 7th & 8th **Wild Mountain**, Taylor's Falls, MN

December 14th & 15th **Boyne Highlands Resort**, Harbor Springs, Michigan

December 21st & 22nd **Cascade Mountain**, Portage, Wisconsin

Organized by your Division Skills Development Team Members:

Daren Lukes (Div. Senior Program supervisor) ***Dave Bramel*** (Div. Toboggan Supervisor)

Harold Park (Div. Ski School Director) ***Mike Vaerewyck*** (Div. Skills Development Supervisor)

Toboggan Sessions:

Toboggan Instructor Refresher (2 Full Days): We want to help you hit the snow running. We'll be offering a full toboggan instructor recertification clinic. This clinic will include teaching using 6 pack lesson plan, peer review and sharing of best practices, tips/tricks. We'll also touch on registering courses, course completion records, and on-line toboggan resources through the NSP.org website.

Instructor Trainer Refresher (2 Full Days) : Open to all IT's, and IT mentee's. We'll have a similar focus to the toboggan instructor curriculum, but with a more advanced focus on training trainers, movement analysis and problem solving. The session will include a round table discussion about duties and responsibilities of Instructor Trainers. Slope side work will include a 6 pack lesson plan, sharing of best practices, and peer to peer teaching/training. Captured video will be used to enhance discussions on and off of the hill.

Senior Program:

Senior Minded Ski-Ride/Toboggan Clinic (2 Full Days) : This session is intended for senior patrollers and senior alpine candidates alike. Join fellow patrollers for two days of ski-ride/Toboggan improvement. Whether you're already a senior patroller or on a mission to pass

the senior exam, we promise this session will give you an early season boost. Enrollment is limited.

Senior Alpine Evaluator Calibration Clinic (2 Full days) : This session is designed for all current senior evaluators (PSIA/AASI Level 2 /3 certified or ASE certified). The objective will be to calibrate senior evaluators to the current senior alpine standard. Successful completion of this calibration clinic is required every three years and is a prerequisite to participating as staff at senior alpine ski/board evaluations.

Ski/Ride Session:

Ski/Ride Credentialing Development (2 Full Days) : These sessions are designed and recommended for all alpine trainers/patrollers interested in exploring initial or advanced PSIA/AASI (Level 1, 2 or 3) certification. Patrollers are encouraged to sign up for the session to move them toward their next level of certification. Groups will be coached by NSP-C Ski School full cert instructors. The objective of all groups will be to aid interested members in their journey toward initial certification and beyond. If you're serious about pursuing teaching credentials, you'll find these sessions a wise investment of your valuable time. This is an NSP-C clinic, not a sanctioned PSIA/AASI certification event. Enrollment is limited.

Accredited Senior Evaluator (ASE) Exam (2 Full days): This session is designed for senior evaluator candidates not currently interested in pursuing PSIA/AASI credentials. The objective will be to award ASE certification after validation of senior evaluator skills. A successful candidate must have an appropriate understanding of: senior score card, skiing skills, movement analysis, feedback modeling, evaluation calibration and technical knowledge. Certification will be awarded based on successful performance and is valid for a 3 year period with recertification required during the specified term. **Registration is limited to Region evaluators selected by their respective Region Director. This session will no longer be offered at all division STW's. Instead, they will be prescheduled based on demand.**
