KNOWLEDGE, SKILLS AND ABILITIES REQUIRED FOR SUCCESSFUL PERFORMANCE IN THIS POSITION:

Each applicant should fully justify on their application how they meet each KSA listed below using AZNG Form 335-2-R to reference the justification.

1. Knowledge of the range of items in stock to identify specific items requested by users from descriptions of their intended usage, and to suggest, in the absence of requested items, substitute and interchangeable items that might fit user's requirements.
2. Skill in determining when tools and equipment should be sent to test, repair, and calibration shops, and skill in providing evaluations to stock disposal personnel to aid them in determining whether items should be salvaged, repaired, and returned to stock, repair and calibration.
3. Skill in determining from records such errors as improper item issue and turn-in credit, and the failure of records to show that items have been sent out for repair. Skill to recognize errors from records, (i.e., improper item issue, turn-in, and property accounting).
4. Skill in identifying, setting up special storage locations, and ensuring that project assigned items are separated from regularly stocked items when they arrive and during their storage.
5. Ability to provide information on the status of stock for determining and keeping adequate numbers and types of items on hand.
6. Knowledge of automated systems for stock record accountability.
7. Skill in written and oral communications.

SPECIALIZED EXPERIENCE: Must have 6 months experience or training in verifying stock by opening, counting and visually checking the contents of the containers. Experience in establishing stock location by considering such factors as use, size, shape and weight of items. Experience in completing stock records by showing the names, quantities and location of stock. Experience in identifying correct nomenclature and stock number of items in order to locate stock for issue. Experience in performing maintenance such as replacing wooden handles on handsaws, changing blades on power saws, and greasing or oiling power and hand tools.

BRIEF JOB DESCRIPTION: This position is located in the Aviation Materiel Management Supply section of a Western Army Aviation Training Site (WAATS). The position is responsible to operate a tool and parts room, used in a trades operation; determining, identifying and selecting for issue items described by users in terms of their intended usage; recommending possible substitutes and interchangeable items; determining work sequences, methods, procedures, and techniques for setting up and shifting storage locations and determining when tools and equipment should be routed to appropriate shops for test, repair or calibration. Identifies user's tools, parts and equipment requirements and requisitions stock as needed. Watches and reports items that are in short supply because of breakage or are in need of repair. Recommends possible substitute or interchangeable items. Sets up, shifts and maintains storage locations. Determines methods of storage, identification, and stock location considering such factors as temperature, humidity, height and weight limits, turnover, floor loading capacities, space available, and convenience of handling items. Compiles records concerned with quantity, cost, and type of material received, stored, and issued for a particular job. Other Duties as assigned by supervisor.
