Continuing changes in agriculture have often increased the amount of money and credit required for farming. This survey of debts owed by farmers is to measure farm credit requirements, and to get a more complete picture of the farm debt situation. Please report money that you owe as a result of the ownership or operation of this place and debts owed for household and family living expenses.

INSTRUCTIONS

Please read these instructions before answering questions 189 to 198.

The debts which you report in columns 1, 2, and 3 should refer only to money NOW owed. Report amounts owed to each lender.

Column 1

The debts to be reported in column 1 include the total of all loans, notes, and advances, charge accounts, time purchases, and purchase contracts including mortgages and deeds of trust due to the ownership or operation of the acreage reported in question 7 (this place).

Column 2

Report in column 2 that part of the debts reported in column 1 which are secured by real estate in this place. Include debts secured entirely or in part by real estate mortgages (first, second, or third), deeds of trust, or land purchase contracts. Report these debts in column 2 even though they are also secured in part by chattel mortgages or liens on livestock, poultry, equipment or crops.

Column 3

Report in column 3 that part of the total debts reported in column 1 which are not secured by real estate in this place. Include unsecured debts and debts secured entirely by notes, chattel mortgages, crop liens, livestock and farm equipment. Also include unpaid bills and accounts which you owe.

General

Do not include any of the following kinds of debts in this report—

- Debts on farm property rented to others.
Debts on nonfarm property.
Price support loans owed to the Commodity Credit Corporation.
Your landlord's share of any debts.

For debts that are due to the ownership or operation of this place, as reported in question 7, and to the ownership of other farm or business property, estimate and report only that part applying to this place. The share of the real estate debts (to be reported in column 2) should be estimated in proportion to the market values of the properties. Estimate and report in column 3 only that part of the nonreal estate debt that relates to this place.

Total Amount Now Owed?
(Report unpaid principal for debts you owe on this place. The amount in Column 1 should equal the total of the amounts in Columns 2 and 3.)
(Total amount owed = real estate debt + nonreal estate debt.)

How much of the total amount owed by you is secured by land and buildings in this place? (Include debts secured by real estate mortgages, deeds of trust, land purchase contracts, etc.)

How much of the total is not secured by land and buildings? (Include debts secured by chattel mortgages, notes, unpaid bills, open accounts, etc.)
