Ways to Participate

Walk with us!

Join us on walk day — Saturday, October 10. All ages are welcome. You may even bring your canine friend. Registration can be done by completing the attached form and mailing it to the address below or by bringing it the morning of the walk. Also, online registration is available by visiting www.monvalleyhospital.com and choosing the 'Office of Fund Development' tab. To register, there is a suggested minimum \$10 donation for anyone over the age of six (6). The first 300 walkers donating any amount will receive a goody bag and pink power towel. The first 300 walkers donating or raising a minimum of \$25 will also receive a commemorative canvas tote bag.

Fundraise with us!

Become an advocate for the walk by asking your family, friends and co-workers to make a donation on your behalf to support the prevention, early detection and treatment of breast cancer. You can form a team or join a team to support the walk. Find the peer-to-peer fundraising page on the registration form or visit our website for more ideas on how to raise donations. Ask for a donation, have a dress-down day at work, host an event, fund raise using social media — there are so many ways to raise money for this cause.

Lamppost Ribbons!

Pink Lamppost Ribbons will be displayed on the lampposts along the walk route bearing your loved one's name and may be purchased prior to or at the event for \$5 each.

Your Impact

Each year the funds raised from generous sponsors and guests like you assist in making significant investments back into our Hospital, specifically for breast health. This year's breast cancer walk proceeds will benefit a new program at the Hospital - the Breast Care Center. This Center, which will be certified by the American College of Surgeons, will focus on the prevention, early detection and treatment of overall breast health. This program will require the renovation of physical space in the medical imaging area of the Hospital. We have also hired a Nurse Navigator, who leads our patients through the health care system to ensure continuity of care. This new Center will be a complete multifaceted approach to breast care and breast health. We are proud to be able to offer such comprehensive care to our community!
