VIII. Professional Phone Tips

1. Answer promptly, and with a smile

A prompt answer helps an organization build and maintain a reputation of efficiency. And even though a caller can't see you, the friendliness of a smile still comes through.

2. Identify yourself and/or department

The caller is entitled to know they have reached the right party.

3. Add prestige to both the called person and the organization

When answering another's telephone, respond with "_____'s office" (not "line" or "desk").

4. Avoid cliff-hanger statements

Callers are then forced to "pump you" for more information. Instead, follow negative statements with positive ones, i.e., (negative) "I'm not sure; (positive) but I will find out for you."

5. Make only those promises which you can keep yourself

Say "May I ask him to return your call?" or "If you'd like to leave your name and number, I'll see that he gets your message," rather than "Can I have him return your call?"

6. Explain absences by saying only

"She's away from the office right now." Immediately follow up with a positive statement of when the caller will be able to reach him/her, (not where); "however, she did expect to be back around 2 p.m."

7. Keep a pen and paper nearby

Make a note of the caller's name and use it. Callers like the personal touch of hearing their own name.

8. Take a complete message

On a printed message form, fill in all appropriate blanks.

9. Avoid screening calls

When screening is necessary, screen for identification not elimination. Upon accepting a screened call, always greet the caller by name.

10. Sympathize with the complaint caller

Express a willingness to help.

11. When you must interrupt a caller

Use the phrase, "I understand" or "I see" rather than "excuse me." Continue immediately with your positive ideas on how to help the caller.

12. Place a caller on hold only if they are able to hold

Give the caller a choice, not a command. Tell them how long they may be expected to wait.

13. Use the hold feature provided on your phone

Confidential office conversations can easily be overheard.

14. Transfer calls carefully

Know the proper transfer procedure for your particular phone system. Inform the extension of the reason for the transfer before completing it.

15. Express appreciation for the call

Acknowledge the caller's appreciation, when given. End the call with a professional phrase of goodbye plus the caller's name.

16. Let the caller hang up first

If you placed the call, hang up gently.
