Questions and Answers

1. Describe the Family Tree of Consciousness.

- The Family Tree of Consciousness spans many space, time and dimensional fields following the intrinsic 15-dimensional structure of universal design. Within the sets of 15-dimensional matrices and their inherent sets of 3-dimensional systems (HUs), the Family Tree of Consciousness branches outwards into each Harmonic Universe creating a myriad of different individuated forms.

2. What is the Mind of God?

- Cosmic structure designed upon wave grids or complex patterns of energy weavings that form sets of interwoven unified fields of energy that co-exist within one gestalt, unified field.

3. What are the unified fields of energy that make up the infinite contours of the God Mind?

- Units of consciousness known scientifically as partiki, partika and particum that group into complex geometrical patterns—forming first strings, and then grids of consciousness.

4. Explain how these grids of consciousness (templates) constitute the underlying structures upon which all manifestation is built.

- These consciousness templates are called morphogenetic fields, and they represent conscious, living, intelligent, individuated aspects of the God Mind.

5. How can genuine love be known?

- Through the condition of At-One-Ment with God, through selflessness and humility. The feeling of love is the result of the condition of vibrational harmonization, or the co-resonance of consciousness, between the lover and the beloved.

6. Explain in terms of “felt experience” what At-One-Ment creates?

- At-One-Ment creates the feeling of absolute love, Unconditional Love—the quality of love the God Mind experiences toward all its manifestations, with whom it eternally remains in a state of vibrational co-resonance of consciousness.

7. **What is the purpose of suffering?**
 - Suffering is intended to show one the areas in which disharmonics of consciousness reside, and exists to stimulate the multidimensional identity to reorder its consciousness into harmonic co-resonance with the eternal God Mind, which is done by achieving the condition of At-One-Ment with God.
8. **What is necessary to achieve At-One-Ment with God?**
 - By understanding the structures of God consciousness upon which individual and cosmic experience is built, an individual can begin to grasp, and apply, the conscious mechanics of energy by which At-One-Ment is achieved.
9. **What are the 3-dimensional bodies in each Harmonic Universe (HU)?**
 - They are morphogenetic fields that are constructed on units of consciousness (partiki, etc.) which take on the form of templates of crystallized or frozen sound. Through the process of the consciousness moving through the unified energy fields of each HU (Harmonic Universe), these particles of frozen sound are stimulated into vibrational movement.
10. **Did most present-day humans come out of the Melchizedek God Seed?**
 - Most of the beings now incarnate in human form did not begin their journey through time with the human imprint.
11. **What is unique about the Melchizedek God Seed?**
 - It is one of the few God Seeds that has kept the Pillar of Light unbroken through a majority of their family lines.
12. **What are the consequences if the consciousness of an incarnate happens to be of the Inter-stellar races that encountered distortions in their higher bodies (which manifests in the geological genetic code)?**
 - These areas of morphogenetic distortion will create blockages, or blank spots in frequency, within the Pillar of Light descending from the God Seed. Such blockages can take many incarnational cycles to correct, and it is quite difficult to do so consciously from the incarnate's level of awareness.

Vocabulary

1. God Mind:

The one gestalt, unified field in which all forms of energy co-exist.

2. God Seed:

The God-Seed represents the core tonal structure out of which the morphogenetic fields of multiple Monads emerge. It is the first projection into gestalt identity that consciousness encounters when it individuates from Source.

3. Monad:

The portion of the multidimensional mind that corresponds to the 8th dimension and the God Seed. The center of the Oversoul Matrix, through which the Hova Bodies in the Time Matrix connect to the God Seed through the Hova Bodies stationed within the Energy Matrix.

4. The Family of Consciousness:

Every individual being in the universe exists as an intrinsic part of a greater collective consciousness from which its being originally emerged.

5. The Family Tree of Consciousness:

Each Earthly human has a Family Tree of Consciousness through which its identity has emerged into individuation and its present moment of space-time orientation.

6. Humility:

Is the result of knowing the self as the **“I AM Presence”** in complete At-One-Ment with God.

7. At-One-Ment with God:

The process of spiritual advancement is a process of expanding into the cognition of **“I AM God”**—knowing the self as an expression of this infinite consciousness.

8. Gestalt Identity:

One identity formed of many smaller identities, whose consciousness is greater than the sum of its parts.

9. Melchizedek God Seed:

The only God Seed that is responsible for the multi-galactic human lineage.

10. Pillar of Light:

The conduit through which God Consciousness flows into human embodiment.

11. God Realization:

When the full Pillar of Light is constructed and all eight Hova Bodies have been aligned, activated and opened into the consciousness of the God Seed.

12. Melchizedek Cloister:

The original family lines of the Melchizedek God Seed.
