| <b>About the Author .....</b>              | <b>xvii</b>  |
| <b>About the Technical Reviewer .....</b>  | <b>xix</b>   |
| <b>Acknowledgments .....</b>               | <b>xxi</b>   |
| <b>Introduction .....</b>                  | <b>xxiii</b> |
| <b>■ Part 1: What is HTML5? .....</b>      | <b>1</b>     |
| <b>■ Chapter 1: Before You Begin .....</b> | <b>3</b>     |
| Reviewing Web Environment.....             | 3            |
| The Basic HTTP Page.....                   | 3            |
| Improving the Web Experience .....         | 5            |
| Reviewing Web Technologies.....            | 6            |
| Exploring HTML5 .....                      | 7            |
| Reviewing Markup Changes .....             | 7            |
| Understanding Cascading Style Sheets.....  | 8            |
| Reviewing Other HTML Functionality.....    | 9            |
| Choosing a Development Tool .....          | 10           |
| Using Visual Studio 2012 .....             | 10           |
| Using Microsoft's Web Matrix .....         | 10           |
| Using Visual Studio Express for Web .....  | 13           |
| Deciphering Browser Support for HTML5..... | 15           |
| Summary .....                              | 16           |

|  |           |
|--|-----------|
| <b>■Part 2: Using the New HTML5 Features .....</b> | <b>17</b> |
| <b>■Chapter 2: ASP.NET Web Forms .....</b>         | <b>19</b> |
| Introducing the New Input Types .....              | 19        |
| Creating an ASP.NET Project .....                  | 19        |
| Using the Email Control .....                      | 20        |
| Using the Page Inspector.....                      | 22        |
| Viewing the Default Database .....                 | 24        |
| Exploring the Other Input Types .....              | 27        |
| Implementing a Feedback Form.....                  | 27        |
| Reviewing the New Input Types.....                 | 30        |
| Reviewing the Form.....                            | 34        |
| Using the HTML5Test Web Site.....                  | 35        |
| Using the Range Control.....                       | 38        |
| Modifying the Step Attribute.....                  | 38        |
| Displaying the Range Value .....                   | 39        |
| Summary .....                                      | 40        |
| <b>■Chapter 3: MVC Web Applications .....</b>      | <b>41</b> |
| Introducing ASP.NET MVC4 .....                     | 42        |
| Creating an ASP MVC Project.....                   | 42        |
| Exploring a Razor View .....                       | 44        |
| Using Editor Templates .....                       | 45        |
| Adding a Feedback Page .....                       | 49        |
| Creating the Feedback Model.....                   | 49        |
| Defining the Feedback View .....                   | 50        |
| Completing the Feedback Form .....                 | 54        |
| Adding the Other Fields .....                      | 54        |
| Adding Editor Templates .....                      | 55        |
| Generating Custom HTML.....                        | 57        |
| Adding a Custom Helper Class .....                 | 57        |
| Re-implementing the Custom Email Template .....    | 59        |

|   |           |
|---|-----------|
| <b>Implementing a RangeControl.....</b>         | <b>60</b> |
| Implementing a Custom Helper Method.....        | 60        |
| Adding the Range Template.....                  | 61        |
| <b>Using Open Source Extensions.....</b>        | <b>62</b> |
| <b>Adding Literal HTML.....</b>                 | <b>65</b> |
| Adding a Range Control.....                     | 66        |
| Adding a Progress Bar.....                      | 67        |
| Updating the Progress Bar.....                  | 68        |
| Using the Meter Control.....                    | 70        |
| <b>Summary.....</b>                             | <b>73</b> |
| <b>■ Chapter 4: Cascading Style Sheets.....</b> | <b>75</b> |
| <b>    Reviewing Style Syntax.....</b>          | <b>75</b> |
| Using Selectors.....                            | 75        |
| Using CSS Properties.....                       | 80        |
| Using Vendor Prefixes.....                      | 80        |
| Understanding the Box Model.....                | 81        |
| Applying Style Rules.....                       | 82        |
| <b>    Creating a Web Page .....</b>            | <b>83</b> |
| Planning the Page Layout.....                   | 84        |
| Creating the Web Project.....                   | 85        |
| Defining the Page Structure .....               | 87        |
| Adding the Content.....                         | 89        |
| <b>    Implementing the Style Rules .....</b>   | <b>91</b> |
| Adding Basic Styles .....                       | 91        |
| Using Rounded Corners .....                     | 94        |
| Working with Gradients .....                    | 96        |
| Creating Tables .....                           | 96        |
| Adding Column Layout.....                       | 98        |
| Adding Box Shadows.....                         | 99        |

## CONTENTS

|  |            |
|--|------------|
| Using Zebra Striping .....                         | 100        |
| Using 3D Transforms.....                           | 101        |
| Adding Animation .....                             | 103        |
| Summary.....                                       | 105        |
| <b>■Chapter 5: Scripting Enhancements .....</b>    | <b>107</b> |
| Using Query Selectors .....                        | 107        |
| Using querySelector .....                          | 107        |
| Using querySelectorAll .....                       | 108        |
| Creating the Visual Studio Project.....            | 108        |
| Employing Web Workers.....                         | 109        |
| Using a Dedicated Worker .....                     | 110        |
| Creating a Shared Worker.....                      | 116        |
| Using Visual Studio Bundling and Minification..... | 120        |
| Summary.....                                       | 124        |
| <b>■Chapter 6: Mobile Web Applications.....</b>    | <b>125</b> |
| Using Emulators .....                              | 125        |
| Installing the Windows Phone Developer Tools ..... | 125        |
| Using the Opera Mobile Emulator .....              | 127        |
| Installing Chrome Ripple.....                      | 129        |
| Emulating the Other Devices .....                  | 132        |
| Handling Form Factors .....                        | 133        |
| Understanding Media Queries .....                  | 134        |
| Using Media Queries.....                           | 135        |
| Modifying the Chapter4 Site.....                   | 136        |
| Configuring the Medium Layout .....                | 136        |
| Configuring the Small Layout .....                 | 138        |
| Using Flexible Images.....                         | 142        |
| Viewing the Page on a Mobile Device.....           | 143        |
| Summary.....                                       | 144        |

|   |            |
|---|------------|
| <b>■Part 3: Developing with HTML5 .....</b>       | <b>145</b> |
| <b>■Chapter 7: Supporting Older Browsers.....</b> | <b>147</b> |
| Creating the Demo Application.....                | 148        |
| Making Some Simple Changes .....                  | 152        |
| Using Modernizr .....                             | 152        |
| Resetting the Styles.....                         | 153        |
| Adding More Polyfills.....                        | 155        |
| Displaying Tables.....                            | 156        |
| Adding Rounded Corners.....                       | 159        |
| Adding Gradients .....                            | 160        |
| Striping the Book List .....                      | 162        |
| Hiding Unsupported Elements.....                  | 164        |
| Summary.....                                      | 167        |
| <b>■Chapter 8: Audio and Video .....</b>          | <b>169</b> |
| Using the Audio Element .....                     | 169        |
| Creating the Sample Project.....                  | 169        |
| Using the Native Controls .....                   | 173        |
| Reviewing Browser Support.....                    | 174        |
| Building Your Own Controls .....                  | 177        |
| Adding the Custom Controls .....                  | 177        |
| Implementing the Event Handlers .....             | 178        |
| Changing the Audio Source .....                   | 181        |
| Detecting Audio Support.....                      | 182        |
| Understanding Video Formats .....                 | 184        |
| Reviewing Browser Support.....                    | 184        |
| Converting Video Formats.....                     | 185        |
| Using the Video Element.....                      | 187        |
| Adding Video to the Demo Page .....               | 187        |

|   |            |
|---|------------|
| Adding Custom Video Controls .....                | 188        |
| Adding a Poster .....                             | 191        |
| Summary.....                                      | 192        |
| <b>■Chapter 9: Scalable Vector Graphics .....</b> | <b>193</b> |
| Introducing SVG.....                              | 193        |
| Creating the Sample Project.....                  | 193        |
| Adding Some Simple Shapes .....                   | 194        |
| Adding Styles.....                                | 196        |
| Using SVG Image Files.....                        | 197        |
| Creating an SVG Image.....                        | 197        |
| Using an SVG Background .....                     | 198        |
| Reviewing SVG Support.....                        | 199        |
| Creating an Interactive Map .....                 | 199        |
| Using Path Elements.....                          | 200        |
| Implementing the Initial Map.....                 | 203        |
| Styling the State Elements .....                  | 211        |
| Using Basic Fill Colors .....                     | 211        |
| Using Gradient Fills.....                         | 213        |
| Using a Background Image.....                     | 214        |
| Altering Styles with JavaScript.....              | 216        |
| Adding Animation .....                            | 218        |
| Summary.....                                      | 221        |
| <b>■Chapter 10: Canvas .....</b>                  | <b>223</b> |
| Creating a Chess Board.....                       | 223        |
| Creating the Visual Studio Project .....          | 223        |
| Drawing Rectangles .....                          | 225        |
| Using Gradients .....                             | 227        |
| Using Images .....                                | 227        |
| Adding Simple Animation .....                     | 234        |

|  |            |
|--|------------|
| <b>Modeling the Solar System .....</b>   | <b>237</b> |
| Using Paths.....                         | 237        |
| Drawing Arcs .....                       | 238        |
| Using Transformations .....              | 238        |
| Saving the Context State .....           | 240        |
| Drawing the Solar System.....            | 240        |
| Applying Scaling .....                   | 246        |
| Clipping a Canvas .....                  | 246        |
| <b>Understanding Compositing .....</b>   | <b>247</b> |
| Summary .....                            | 251        |
| <b>■Part 4: Digging Deeper.....</b>      | <b>253</b> |
| <b>■Chapter 11: Indexed DB .....</b>     | <b>255</b> |
| Introducing Indexed DB .....             | 255        |
| Using Object Stores .....                | 255        |
| Processing Asynchronously .....          | 256        |
| Using Transactions.....                  | 257        |
| Defining the Database .....              | 258        |
| Creating the Application .....           | 258        |
| Creating the Visual Studio Project ..... | 259        |
| Creating the Canvas.....                 | 260        |
| Configuring the Images .....             | 261        |
| Creating the Database.....               | 262        |
| Declaring the Static Data.....           | 262        |
| Opening the Database .....               | 263        |
| Defining the Database Structure .....    | 264        |
| Drawing the Pieces .....                 | 268        |
| Using a Cursor .....                     | 268        |
| Retrieving a Single Object .....         | 269        |
| Testing the Application .....            | 270        |

|   |            |
|---|------------|
| <b>Moving the Pieces .....</b>                    | <b>271</b> |
| Defining the Moves.....                           | 271        |
| Converting the Position.....                      | 272        |
| Making a Move .....                               | 273        |
| Obtaining the Object Key .....                    | 275        |
| Performing the Update .....                       | 275        |
| Starting the Animation.....                       | 276        |
| <b>Tracking the Captured Pieces.....</b>          | <b>277</b> |
| <b>Summary.....</b>                               | <b>279</b> |
| <b>■Chapter 12: Geolocation and Mapping .....</b> | <b>281</b> |
| <b>Understanding Geolocation .....</b>            | <b>281</b> |
| Surveying Geolocation Technologies .....          | 281        |
| Using Geolocation Data.....                       | 282        |
| <b>Using the Geolocation API .....</b>            | <b>282</b> |
| Creating the Visual Studio Project .....          | 282        |
| Using the Geolocation Object.....                 | 284        |
| Displaying the Location .....                     | 285        |
| <b>Using Mapping Platforms .....</b>              | <b>289</b> |
| Creating a Bing Maps Account.....                 | 289        |
| Adding a Map.....                                 | 292        |
| Adding Pushpins.....                              | 294        |
| <b>Summary.....</b>                               | <b>297</b> |
| <b>■Chapter 13: WebSockets.....</b>               | <b>299</b> |
| <b>Understanding WebSockets .....</b>             | <b>299</b> |
| Completing a Handshake.....                       | 300        |
| Building WebSocket Frames.....                    | 301        |
| Unmasking a Frame.....                            | 302        |
| WebSocket Servers .....                           | 302        |
| Designing the Agent Chat Application.....         | 303        |
| <b>Creating a Simple Application .....</b>        | <b>304</b> |

|  |            |
|--|------------|
| Creating a WebSocket Server .....                | 304        |
| Creating a Web Application.....                  | 314        |
| Testing the Initial Project.....                 | 316        |
| <b>Enhancing the WebSocket Server .....</b>      | <b>319</b> |
| <b>Creating the Agent Application .....</b>      | <b>327</b> |
| Creating the Agent Project.....                  | 327        |
| Implementing the Chat Web Page .....             | 329        |
| Testing the Agent Application .....              | 333        |
| <b>Implementing the Client Application .....</b> | <b>335</b> |
| Testing the Solution.....                        | 338        |
| Summary.....                                     | 341        |
| <b>■Chapter 14: Drag and Drop .....</b>          | <b>343</b> |
| Understanding Drag and Drop .....                | 343        |
| Handling Events.....                             | 343        |
| Using the Data Transfer Object.....              | 345        |
| Enabling Draggable Elements.....                 | 346        |
| Creating the Checkers Application .....          | 346        |
| Creating the Project.....                        | 347        |
| Drawing the Checkers Board.....                  | 348        |
| Adding Drag and Drop Support.....                | 351        |
| Allowing a Drop .....                            | 352        |
| Performing the Custom Drop Action .....          | 352        |
| Providing Visual Feedback.....                   | 354        |
| Enforcing the Game Rules.....                    | 357        |
| Verifying a Move .....                           | 357        |
| Promoting to King.....                           | 361        |
| Moving in Turn .....                             | 363        |
| Using Advanced Features .....                    | 368        |
| Changing the Drag Image .....                    | 368        |
| Dragging Between Windows.....                    | 369        |
| Summary .....                                    | 370        |
