BCCC Allergy Policy - Acknowledgment

The Bethlehem Child Care Center [BCCC] has some unique characteristics. For example, every child in the preschool program and pre-kindergarten program may bring his or her own lunch. Further, the BCCC incorporates field trips in the curriculum as well as trips to neighboring parks in summer and winter. Further, the use of the entire BCCC facility (including an in-door play area) is also used by church members and invitees to the Church, including other children. Because of these unique characteristics, BCCC cannot ensure that a child with a severe food allergy will not be exposed to the food or substance to which that child is allergic or sensitive.

Parents or guardians of children with a severe food allergy or sensitivity must make childcare staff and the Director aware of their child's food allergies and/or intolerance. Further, every child who has been prescribed an epinephrine auto-injector must have the epi-pen, in its original container and current prescription information on the label, given to the staff and kept at the center. Expired medicine, including epi-pens, may not be administered. If a child who has been prescribed an epinephrine auto-injector plans to go on a field trip, the staff will always take the epi-pen along so it will be readily available in the event of an emergency away from the BCCC.

---

I, \_\_\_\_\_, have read the attached Bethlehem Child Care Center Allergy Policy. I am signing this acknowledgment because I understand that BCCC cannot ensure that my child, \_\_\_\_\_, who has a severe allergy to \_\_\_\_\_ will not be exposed to the above-stated in the childcare center, or at any time while my child is in the care and custody of BCCC.
