***SBDM Policy:***

*To be eligible for Content Recovery a student must have earned a final score above 50% in the course during the regular course term and/or passed the comprehensive final exam in that course.*

*Students enrolled in Content Recovery must complete supplemental assignments/activities assigned and approved by a certified teacher in the content area of the course being recovered at an acceptable level prior to the established midterm point of the subsequent 9-week grading period.*

*Upon satisfactory completion of all assigned work within the time allowed the certified teacher shall average the recovered work with the final grade to arrive at a new grade no higher than a "D". The teacher may then request a "grade change" for the student and the new grade will replace the failing grade on the student's transcript.*
